STEEL

The Metalworking Weekly

EDITORIAL INDEX

VOLUME 156

January 1 to June 30, 1965

Subject Index 3
Author Index 15
Company Index 16

THE PENTON PUBLISHING COMPANY

Penton Building, Cleveland, Ohio 44113

SUBJECT INDEX

A

Abrasive Machining: See Machining

Accidents:
Employees cause most accidents, Travelers Insurance report, 4/19, p.34

Adhesives: See Joining

Aerospace Industry:
AF report: Needed—$150 million worth of profiling machines, 5/17, p.49
Firms pin hopes on three U. S. aid moves (defense cutbacks), 1/18, p.29
See also Space Materials & Developments

Africa:
South Africa's 'gold' markets, 2/1, p.41
Steel-vanadium project, Transvaal, S. Africa, 2/15, p.18

Air Conditioners:
Air condensing unit for J&L spectrograph room, 3/15, p.118

Aircraft:
C-5A cargo and troop plane may have impact on civil aviation, 5/3, p.29
Executive helicopter, Hughes Tool, 6/21, p.36
Helicopter lifts gearboxes, pneumatic propulsion system, 2/8, p.44
SST gets go-ahead, contracts awarded, 6/14, p.18
SST wing pivot assembly tested by giant (jig) torture machine at Boeing, 5/17, p.54
Supersonic airliner (Soviets) by 1971? 3/1, p.18
X-15, Mach 8 research plane (nose sensor) gets new alloy, 2/22, p.78

Air Force:
Ad hoc committee report: Aerospace needs $150 million worth of profiling machines, 5/17, p.49
AF research on hot die forming of materials (IIT), 6/7, p.112
Machine learns from its mistakes (artificial neuron), TO, 5/3, p.20
Maj. Demler: Materials research and development key pace, 3/22, p.18

Air Pollution:
Air pollution bill, Senate studies, 4/19, p.44
Air pollution bill, House Interstate & Foreign Committee hearings (oil and coal sulfur contamination), 6/21, p.29
Auto exhaust fumes lowered with air injection, 6/7, p.34
GM researchers find air injection works as smog reduction agent, 6/14, p.104
GM finds formaldehyde is villain (using stainless steel smog chamber), 6/28, p.92
Natural gas cuts pollutants, Los Angeles findings, 3/22, p.19
U. S. Steel's South Wks., dust collector for sinter plant to curb air pollution, 3/22, p.35

Alloy Casting Institute:
Surveys consumers for casting research program, 3/15, p.108

Alloys:
Alloying found to strengthen TD Nickel, 3/1, p.80
Alloys discovered by Dr. Kraft (Lehigh) researched by NASA, 3/1, p.45
Aluminum bearing alloy (high tin) dev., automakers use, 4/5, p.96
Armco stainless 15-5 PH, improved ductility, 5/24, p.49
Armco stainless (aerospace alloy) solves 'civilian' problem, valves for sea water service, 2/1, p.44
Beryllium copper alloy (new) is free machining, 5/3, p.72
Beryllium-iron alloy tests, Stellite, TO, 3/1, p.20
Brazing alloy, titanium-to-stainless, TO, 3/29, p.19
Chromium-tungsten-cobalt-iron alloy newly patented, corrosion resistant, 1/4, p.47
Cobalt based alloy adds lift to teeth on lumber mill saws, 1/11, p.55
Copper alloys (11) are color matched, auto use, 2/1, p.29
Copper alloys exhibit flatness qualities, 2/1, p.29
Copper, nickel, and silicon alloy hardenable after severe forming (contact springs and other electrical products), 2/1, p.46
Hi-Flo alloy aids diecasting (lighting fixtures), 3/8, p.64
Mach 8 research plane (X-15-2) uses new, high nickel, alloy, 2/22, p.78
Noiseless metals stronger than steel, English research, 3/8, p.17
Submicron oxide powders lead to strong alloys, 6/21, p.82
Superalloys progress (NASA), TO, 1/18, p.20
Uranium-moly-zirconium-titanium alloy high strength, TO, 3/22, p.20
Yoloy, new low alloy steel for welded or seamless pipe, 1/11, p.33
See also Steel Alloys

Aluminum:
$1 billion more spending needed by 1970, capital spending for Reynolds, Kaiser Aluminum, 6/7, p.43
Aluminum mill product prices may stabilize, 3/1, p.28
Aluminum market growth forecast by Drewes of Kaiser, 4/5, p.33
Aluminum part (aerial camera) cheaper through precision casting, 5/17, p.58
Aluminum sheet aids porcelain enamelers, 5/10, p.49
Decorative aluminum (Adaptaloy) castings, ancient process, 3/15, p.108
Electroformed aluminum mirrors, TO, 5/24, p.34
Freezing process purifies aluminum, TO, 2/22, p.18
Futures trading in aluminum ingots starts May 17, 4/26, p.27

Aluminum Contract: See Labor

Aluminum Plants:
Continuous aluminum annealing lines, 6/28, p.31
Intalco to operate aluminum reduction plant at Bellingham, Wash. (joint venture of Amax, Pechiney, and Howe Sound), 2/8, p.51

American Die Casting Institute:
Trends in diecasting with new technology, 5/3, p.70

American Economic Association:
Dr. Klein (Rutgers Univ.) speaks on Red China, 1/11, p.31

American Foundrymen's Society:
Chicago meeting: Foundrymen challenged to adopt tomorrow's technology, 5/17, p.25
Presents Pangborn Medal, B, 4/26, p.34

American Gear Manufacturers Assn.:
Sanford Brooks named president, 6/14, p.35

American Institute of Aeronautics & Astronautics:
Conferences report: Composites dictate trends, 4/19, p.47

American Institute of Mining, Metallurgical & Petroleum Engineers:
Closer affiliation sought with ASM, 2/15, p.112
Names new officers, B, 4/19, p.52

American Iron & Steel Institute:
AISI medal to Forrest, metallurgist at Republic, 5/31, p.26
Annual meeting addressed by Worthington: Steel takes the offensive, 5/31, p.25
Annual meeting, technical papers: Hydrochloric acid pickling, vacuum stream degassing, curved mold continuous casting, 5/31, p.26
Appoints Worthington chairman, executive officer, 4/19, p.34
Roche: Research needed on industry-government relations, 4/19, p.33
Steel mill product imports, 1st quarter, 5/17, p.29

American Iron Ore Association:
Appoints Harrison (Cleveland-Cliffs) chairman, 6/28, p.35
Block (Inland) speakers: BOFs to spur iron ore use, 6/28, p.18

American Machine Tool Distributor Assn.:
Pease (New Britain Machine) speaker at meeting: Sales role changes for distributors, 3/29, p.29

American Management Assn.:
Data Processing Conferences: Survey on computers reported, 3/8, p.25
Data Processing Conference: Gen. Schriever (AF Command), how to misuse a computer, 3/15, p.34
East-West trade session addressed by Scott (Black-Clawson Ltd.), 5/24, p.45
Panel of company presidents vs graduate students view tomorrow's managers and business climate, 2/22, p.28
Industrial espionage, session report, 3/29, p.28
Personnel conference addressed by Honeywell's Wishart: 200,000 top managers needed in next ten years, 2/15, p.28
Personnel conference speaker (Foote) forecast, executive salaries to rise, 3/1, p.29
Personnel conference speaker, creative engineering environment, 3/15, p.35
World conference: Challenge to industrial marketers—innovate, that's your real job, 6/21, p.25

American Metal Stamping Assn.:
Short run stampings success tied to die library, 3/22, p.63

American Railway Car Institute:
Moves offices, B, 5/24, p.52

American Society for Abrasive Methods:
Detroit conference: Grinding machine builders seek standards to reduce costs, 4/5, p.33
Disc grinding user cites equipment needs, 4/19, p.45
Elects, B, 4/19, p.52

American Society for Industrial Security:
Conference report: Losses through theft, embezzlement or sabotage, and theft of information, 3/15, p.114

American Society for Metals:
Closer affiliation with AIME sought, 2/15, p.112

American Society for Testing & Materials:
Purdue Univ. conference, advances in refractory metals, 6/21, p.28
Japanese professors report machining affecting stainless, TO, 6/28, p.20

American Society of Tool & Mfg. Engineers:
Appoints executive v. p., 5/3, p.35
Cleveland expo, Japanese builders exhibit, 3/22, p.79
Conference highlights, 3/22, p.68
Exhibitors: New technology plus lots of hard sell, 4/5, p.31
Seminar, automatic assembly-parts handling, report, 5/31, p.29

American Welding Society:
Chicago show: New developments, 4/19, p.102-110
Chicago show highlights, 5/3, p.28
Fenton: Shielded arc test weld wire mettle, 4/19, p.114

Appliances:
3rd quarter outlook, a 'growing' summer for appliances, 4/12, p.97
Appliance makers look to new marketing tactics (convention speakers), 3/1, p.29
Electric appliance shipments, 6/7, p.35
Frigidaire: Automatic moisture control, TO, 6/21, p.20
International markets forecast, 6/21, p.31
Refrigerator tube mill bridges speed, cleanliness gaps at Yoder Co., 3/1, p.44

Argonne National Laboratory:
Four methods of power conversion (heat to electricity), 4/5, p.66
Uranium foil thin as cigaret paper, fuel element for low power nuclear reactor, 1/11, p.19
Uranium foil elements cut reactor cost, 1/4, p.136

Army:
Amphibian (PATA) travels on land and water, 5/3, p.110
Army program to aid industry in making bid decisions, 3/22, p.88
Discloses energy fuel depot concept at SAE meeting, 1/11, p.76
Pulse-echo tech, identifies steels, 6/7, p.141
Rock Island Arsenal: Colored readout tech. aids 'ultrasonic analysis of castings, 3/15, p.104
Rock Island Arsenal-turret lathe, homemade attachment improves threading, 3/1, p.45

Assembly: See Fabrication, Assembly

Associated Industries of Cleveland:
Fringes cost 71 cents an hour in Cleveland, 1/11, p.29
Lloyd: Small firms fear USW settlement terms too costly, 4/26, p.26

Atomic Energy:
AEC: New methods turn heat to electricity, 4/5, p.66
AEC permit sought to build 2nd nuclear powerplant, Dresden Station near Chicago, 4/26, p.35
Atomic radiation improves wood impregnated with a chemical, TO, 3/15, p.36
Elements Nos. 104 and 105 may be byproducts of nuclear underground explosions, TO, 3/29, p.20
Nuclear electric plant, Calif., "steel ball" construction, 5/31, p.36
Pacific Northwest Lab (formerly Hanford) transferred from GE to Battelle, 1/18, p.32
Uranium foil fuel elements for atomic reactor, 1/4, p.136
Uranium foil (thin as cigaret paper), nuclear fuel element, 1/11, p.19

Australia:
Article: Foreign funds bolster boom, 4/12, p.52
Autoworkers seek UAW aid for pay raises in GM-Holden's plants, TO, 6/21, p.19
M&T plant for detinning tin plate scrap and production of tin chemicals, New South Wales, 1/4, p.51
Steel outlook, 10 years, 3/15, p.124

Automation:
Application of electronics to old equipment gives alternate to automation, 4/5, p.18
"Automation Hysteria," book by George Terborgh (MAPI), 5/24, p.31
Detroit automakers take new look at automation, 1/4, p.211

Study indicates where manufacturers emphasize automation, 2/1, p.87

Automotive:
1965 options gain: Air conditioning, power brakes, bucket seats, automatic transmissions, 3/1, p.68
1966 autos readied, 3/8, p.85
1966 cars get safer windshields, 5/17, p.81
1970, designer forecasts, 3/8, p.19
Airconditioners, sales soaring, styling trends, 6/28, p.91
Auto show, New York, foreign exhibitors, 4/12, p.93
Automation, Detroit takes new look, 1/4, p.211
Auto seats, will steel lose place? 1/25, p.85
Automakers expansion programs, 6/28, p.92
AMC's Marlin to attract more buyers, 2/15, p.97
AMC ponders: Will 'safety' sell cars? 6/14, p.103
British automakers set records, 1/18, p.78
Canadian market: Why automakers must build in Canada, 5/10, p.125
Centaur-CRV sports car weighs only 960 lb, 1/18, p.78
Chevy II is GM's problem car, 5/24, p.137
Chrysler buys Lone Star Boat Co. and West Bend outboard engine facilities: Outboards, boats coming this fall, 5/31, p.81
Chrysler's foundry set for 1966, features, 2/8, p.116
Coil joiner-mechanical, dev. by Koppy Tool, 3/29, p.148
Diecasting, fast rise of plastics spur zinc research, 4/19; p.170
Exhaust fumes lowered with air injection, 6/7, p.34; 6/14, p.104
Fiat seeks more U. S. knowhow (Morello addresses SAE), 1/18, p.77
Fiat sees threat of overproduction, 6/21, p.110
Fleet cars, firms permitting family use, 6/7, p.178
Ford's automatic assembly cuts cost, 3/15, p.150
Ford's Emery Dearborn visits Czechoslovakia, explores tractor trade with Soviets, 2/22, p.99
Ford eyes computer control of cupola melting operations, 6/7, p.166
Ford's Marvin Katke evaluates new technologies (NC diemaking, automatic assembly, electrocoating, etc.) 2/8, p.161
Ford-Mercury, steering concept-wrist twist, 3/22, p.112
Ford-Mustang, sales in 1st year; other model run plans, 4/5, p.95
Foreign carmakers try harder, more models for U. S. tastes (BMC, Renault, Rolls-Royce), 4/12, p.98
Fuel gage (GE) features air core magnetic circuit, 4/12, p.94
Fuel-Lok cuts off fuel to prevent auto theft, 5/24, p.138
Gas tanks painted inside (Rootes Group-England), TO, 4/26, p.18
GM executives (Gordon and Donner) view autodom economy with optimism, 2/22, p.27
GM's 'automated zinc phosphate coating line, 6/14, p.33
GM computer design for instrument circuits, 5/10, p.126
GM research pays off (developments), 4/26, p.94
Highway emergency call (Help nametag), 2/1, p.66
Highway hazards, Ford's alert radio system, 5/31, p.82
Highway safety, computer-TV simulator, 1/25, p.86
Highway safety, radar-computer curbs accidents, 5/24, p.138
Magnesium racers entered at Indianapolis, 5/24, p.138
Materials battle (SAE), steel vs aluminum vs plastics, 1/18, p.18
Metals—problems in the midst of plenty, 4/26, p.93
Noise-road traffic tape recorded, 6/28, p.110
Oldsmobile cold extrudes rear axleshafts, 2/1, p.65
Plastics dent auto metal markets (feature), 4/26, p.43
Plastic mold process, Rolinx Ltd., 5/24, p.138
Pontiac automates differential assembly, 6/7, p.164
Production, new model car, 1963-1965, 1/4, p.211
Production, quarterly trend, 3/15, p.149
Recreation market, 4/19, p.169
Research pays off for: 4/26, p.94
Safety provisions tied into excise tax cuts (Sen. Ribicoff suggests 17 items), 6/21, p.109
Seal compound will not corrode steel, GM, 5/17, p.82
Sports cars beamed at people under 35—such as Buick's Skylark, Gran Sport, 1/25, p.17
Steel usage, 4/26, p.93; 5/3, p.110
Studebaker fights for profits (changing financial shape), 3/22, p.111
Studwelders vie for auto market, fastener market, 3/29, p.146
Truck developments, shift to diesels, materials and design, 3/22, p.112
UAW World Council plan advanced (IMF-held in Frankfurt, Germany), 1/11, p.75
Vending machine cars predicted, 6/21, p.110
Vinyl fabric color control blend, computer, 5/24, p.138
Volkswagen builds Mexican assembly plant, 4/12, p.94

Awards:
John Woodman Higgins Redesign Award (3-way extrusion for alternator part), 3/29, p.33
Tadeusz Sendzimir awarded British medal, 5/3, p.33

B

Balance of Payments:
1964 improvement over '63, 1/18, p.81
1965 forecast, 1/4, p.216
LBJ's overseas investment curbs 'relatively short term', 3/22, p.17

Battelle Memorial Institute:
AEC Pacific Northwest Lab (formerly Hanford) operation transferred from GE to Battelle, 1/18, p.32
Brazing problems need solving, Robert Evans report, TO, 5/17, p.20
Carson cites advantages for explosive welding, 3/1, p.30
Chemistry in assembly needed, structural adhesive uses, 2/15, p.20
Corrosion detection, loops of metal placed in corrosive medium, TO, 2/1, p.19
Damper system reduces transmission shaft vibration, 5/24, p.47
Research and development to hit $22 billion in '65, economists' report, 1/11, p.25
Roll welding, new process for titanium sandwich panels dev. by Dr. Jaffee, 3/8, p.33

Batteries:
NASA tests battery to operate at —100° F, 4/26, p.106
Bearings - gears, self - lubricating, 3/15, p.101

Bearings, Bushings:
Bearings made of 20% tin-aluminum clad steel, 4/12, p.31
Bushings for stainless roller chains hardened for longer life, 3/8, p.63
Gas bearings production, joint venture of MPB and MTI, 6/14, p.35
How to stretch bearing life (lubes), 3/15, p.36
Metalizing bearing surfaces, 1/18, p.50
Plastic bearings-Teflon type materials, TO, 6/14, p.19

Bending: See Forming, Bending

Beneficiation:
Scrap iron aids magnetic ore separation (converts hematite to magnetite), 2/8, p.126

Beryllium:
Beryllium copper alloy is free machining, 5/3, p.72
Beryllium sheets rolled directly from ingots, 2/22, p.33
Britain-U. S. joint program to develop beryllium turbine engine parts, participants, 6/21, p.31

Bids: See Contracts

Biomedical:
Biomedical electronics, sales boom, 6/21, p.18

Blast Furnaces:
Italsider complex, Taranto, 2/15, p.73

Blast Furnace Operation: See Steelmaking

Blueprints: See Drawings

Boating Industry:
Chrysler buys Lone Star Boat, and West Bend outboard engine facilities, 5/31, p.81

Bonding: See Joining

Books, Booklets:
Automation Hysteria: George Terborgh, MAPI, 5/24, p.31

Brass:
Brassmaker (Anaconda) anticipates customers' needs, 6/28, p.64

Brazil: See Foreign Markets

Brazing: See Joining

British Iron & Steel Institute:
Awards gold medal to Tadeusz Sendzimir, 5/3, p.33

British Iron & Steel Research Assn.:
Cantilever bar mill, TO, 3/22, p.20
Electrodeposited coating, iron and zinc, protects steel base, TO, 4/26, p.20
Magnetic field speeds quench, TO, 5/17, p.20

British Scientific Instrument Research Assn.:
Striped electroplating (electrolyte agitated with sonic or ultrasonic energy), TO, 6/21, p.19

British Welding Research Assn.:
Continuous welding, spirally wound pipe, TO, 6/14, p.19

Brookings Institution:
Businessmen's semimar, government briefing, TO, 5/10, p.35

Bureau of Mines:
Scrap iron aids magnetic ore separation; Melcher reports at Minneapolis Research Center, 2/8, p.127

Bureau of National Affairs:
Labor contract settlements in manufacturing, '64, 2/8, p.44

Business & Defense Services Adm.:
Metalworking productivity—value added by manufacture per employee, chart, 1/25, p.25

Business (Economy):
1965: LBJ ready to nudge economy, prices-costs are concerns, 1/4, p.43
1965: STEEL's forecast, 1/4, p.41
1965: Another record profit year coming? (reports from 50 metalworkers), 2/22, p.103
1965 boom predicted by Dr. Rinfret (Edie & Co.), 4/19, p.173
Ackley (CEA) predicts the economic outlook, STEEL interview, 6/28, p.25
Business failures in '64, 1/4, p.217
Manufacturing industries, sales gains forecast (Commerce), 1/18, p.27
Manufacturers, 2nd quarter, 3/22, p.115
Metalworking 2nd half brighter, consensus of equipment builders surveyed, 2/8, p.41
Metalworking boom, where growing fastest, 3/29, p.151
Metalworking executives outlook for 2nd half, 6/28, p.52
Plant and equipment spending upswing: Are we building excess capacity? 5/31, p.83
Ready for a hot, hectic summer? Trouble on all sides, 5/24, p.141
STEEL's Panel forecast for '65, 4/5, p.25; panel members listed on p.27

C

CPM: See Management Systems

California:
Gov. Brown's program for applying space age knowhow for 'social problems', firms bidding, 1/4, p.44; and for transportation, Douglas bid, 1/11, p.19

Cameras:
Aluminum part (aerial camera) cheaper through precision casting, 5/17, p.58
Infrared camera detects industrial hot spots (boiler walls, piping systems, wiring, and ends of turbine generators), 5/3, p.81

Canada:
Auto tariff (U. S.-Canada free trade proposal), 2/1, p.18
Auto tariff deal stirs mixed emotions, suppliers 'shut out' claimed, 2/15, p.29
Auto tariff status, 4/5, p.18
Auto tariff debate begins, House Ways & Means, 5/3, p.27
Automakers (U. S.) build in Canada, fast growing market with trade deficit, 5/10, p.125
Business growth (article), what and where to sell (chart), 5/10, p 86
GNP increase, 2/22, p.18

Canals: See Waterways

Cans, Canmaking:
Aluminum facility, easy open cans, Mississippi, 2/15, p.18
Extrusion press for aluminum cans, 6/28, p.33

Capital Equipment:
LBJ counts on capital equipment boom to aid economy, 3/1, p.26
GE-Phillippe forecasts 10 year capital equipment market $375 billion, 2/8, p.33
Pease (NMTBA) reports equipment order backlog up 20%, 5/17, p.85

Capital Expenditures:
Aluminum: $1 billion more spending needed by 1970, 6/7, p.43
Capital spending, all industries, Commerce-SEC, 3/15, p.33 and 6/14, p.27
Chemical industry, '65, 3/29, p.19
New plant and equipment, steel industry, 5/31, p.27
New plant and equipment on upswing—are we building excess capacity: Gainsbrugh (NICB), 5/31, p.83
New plant and equipment by yearend, Commerce Dept. survey, 6/14, p.27
R&D outlays for '65, $22 million, 1/11, p.25

Carbide Chasers: See Pipe

Carbide Coat: See Finishes, Coatings

Case Institute of Technology:
Glennan addresses AISI meeting, 5/31, p.26

Cast Iron:
Electroslag remelt for cast iron, Russia, TO, 5/17, p.20
Minimizing sulfur content, TO, 2/22, p.20

Casting, Casting:
Aluminum alloy casting (Adaptaloy), ancient decorative process, 3/15, p.108
Continuous casting-curved mold unit debuted at Armco's Sand Springs, Okla., Wks., 5/17, p.35
Continuous casting-(D-M-B unit) at Armco's Okla. Works, 6/7, p.136
Continuous curved mold, slab casting unit, Atlas Steels, Quebec, 5/24, p.51
Continuous curved mold casts 5 in. slabs, Atlas Steels, 6/7, p.116
Continuous curved mold units (AISI report), 5/31, p.27
Continuous unit at Ceco and at Wickwire, 3/29, p.35
Continuous (Concast) unit, Phoenix-Claymont plant, 1/11, p.54
Diecasting wins new jobs (one-step partmaking), 5/3, p.70
Directional solidification tech., nickel base superalloy castings (TRW), P&W uses for engine parts, 5/10, p.49
Investment castings, ceramic cores, 1/25, p.35
Investment casting (new technologies) parts made in one step, 2/8, p.46

Investment casting (lost wax, ceramic shell method with atmosphere pour) for Saturn large heat shield, 3/22, p.31
Permanent mold casting 'assemblies' cuts cost, weight of brackets, bolts, weldments, 3/22, p.83
Polystyrene patterns, auto body dies, 3/1, p.42
Precision casting aluminum part for aerial camera, 5/17, p.58
Shaw precision casting makes better cutting tools, 3/22, p.69
Stainless cast for fire engine pump, 700 psi, 5/24, p.52
Steel casting shipments, 3/22, p.28

Census:
Age group, people under 35, big new market, 1/25, p.17

Ceramic Blanket: See Insulation

Ceramic Tools: See Tools (Cutting):

Ceramics:
Ceramic-metal composite takes heat and pressure (Dorr-Oliver bonding process), 3/15, p.106
Rigorous conditions build need for ceramic coating of metals (Linde LC-9), 2/22, p.64

Chad Chutes: See Forming

Chains: See Roller Chain

Chemical Processes:
Aqueous solution deburrs and polishes steel surfaces, 5/31, p.54
Chemical etchant, ultrasonic deburr metal parts, 3/1, p.41
Electroless chemical plating, coatings at British firm, 2/8, p.130
Fluorocarbon resin protects metal surfaces (Kynar 500), 3/15, p.49
Salt bath process (Kolene) removes resistant coatings, 3/29, p.128

Chicago Assn. of Commerce & Industry:
Optimism among businessmen, sales, profits, wages, 1/11, p.18

China (Red):
Economy since 1950 exaggerated (Dr. Klein-Rutgers Univ.), 1/11, p.31

Chip Removal: See Metal Removal

Chrome:
Automated plant chrome plates plastics, 2/15, p.65

Cleaning, Blasting:
Vacu-Blast shot peening machine with NC, strengthens structural parts for F-111 tactical fighter, 3/15, p.102

Coal:
Coal gases converted to electricity, operates TV set, 2/8, p.49
Coal power supply for tomorrow's aluminum industry: Harper (Alcoa) speaker, 6/21, p.20

Coatings: See Finishes, Coatings

Coinage:
Alloy study, Treasury Dept., 3/1, p.19
Bill to eliminate silver expected, 2/15, p. 68; may pass soon, 6/28, p.26
Composite-sandwich coin, base metal in middle, silver outside, TO, 4/12, p.19
Design for dollar (man-computer teams), 5/10, p.80
Nickel alloy replacement for silver, Inter. Nickel Co., 5/3, p.28

Colleges:
Graduates an AMA panel (potential for advancement and challenges), 2/22, p.28

Color:
Coated metal strip gets two colors at once, 3/15, p.49

Columbia University:
Dr. Alexander: Managing losing products, 1/25, p.18
Kaiser employee-management communications plan pays off, 3/15, p.100
Sarnoff (RCA) urges unification of global communications, one privately owned company, TO, 6/14, p.18

Company Size:
More big industrial companies needed for future: Thornton (Litton), 6/21, p.17

Components:
1st quarter survey, 2/1, p.67
2nd quarter survey, 5/3, p.113

Computer Systems (STEEL Features):
1. How computers will reshape management team, 1/11, p.43
2. Computers: Sixth sense for decision makers, 1/25, p.49
3. Computers offer big strategies to small business, 2/8, p.106
4. Data communications: Electronic expressways, 2/22, p.58
5. Six steps in preparing for computer installation, 3/15, p.95
6. Computers add science to art of management, 4/5, p.59
7. Man-computer teams add new dimension to design, 5/10, p.79

Computers, Data Processing: (see also Steel Mill Controls)
APT emphasis to change, IIT research director, 6/7, p.33
Airplane malfunction monitor saves down time, 6/28, p.19
Automotive computerized design: Clay models out, NC in, TO, 6/14, p.18
Computers doing better than expected, where used (AMA survey), 3/8, p.25
Computer numbers in U. S., price and rentals, 3/15, p.98
Computer ideas, machines by 1970, features of Data Congress, 5/31, p.29
Computer installation, preparation is the secret, 3/15, p.95
Computer at Olin runs show, Omal mill, CPR customer practice record, total info system, 6/28, p.60
Computer at Olin, installation timetable from idea to operation, 6/28, p.63
Computers aid machine tool builders design vibration out of equipment, 1/25, p.18
Computerized gas station, TO, 3/29, p.19
Computer, 50,000 operations per penny, TO, 4/12, p.20
Computer may use 'photon echo', pulses of light from ruby laser, TO, 4/12, p.20
Computer tech. reduces trim scrap (linear programing with computer), IBM-Gilmore and Gomory, 2/15, p.67
Computer makers heed demand for small computers (Honeywell and IBM), 2/22, p.115
Computers offer big strategies to small business, 2/8, p.106
Data communications growth forecast by Dr. Bauer, 2/8, p.33
Design (DAC-1): Man-computer teams add new dimension to design at GM, 5/10, p.78 and editorial, p.31
Design computer (GM) for auto instrument circuits, 5/10, p.126
Designer 'talks' to computer: Man-computer teams add new dimension to design, 5/10, p.79
Digital computer has simple control language (Contran) at Honeywell, 2/1, p.76
Do-it-yourself computer service (Data-Mat), Chicago, and Los Angeles, TO, 2/8, p.35
Drafting machine, computer control, 5/10, p.47
Drawings (combined microfilming and data processing), stored, handled, reproduced, 1/11, p.53
Drawing machine, computer control, 6/7, p.51
EDP lubrication system at Finkl (MI/DAC), 3/15, p.117
EDP maintenance cost control (Calmac) offered customers by Standard Oil of Calif., 5/31, p.92
Foundry advances, computers and NC, 4/12, p.19
Management information system (InterLoc) at Lockheed-Georgia, 3/29, p.31
Management system features computer-manual tie-ins at Union Steel Products, 3/1, p.38
Network to control buildings miles apart (one-man central console), 1/11, p.31
Network exchange data, 5/24, p.91
Slide rule computer (medical lab), TO, 5/3, p.20

Construction Industry:
1964 value of new construction, 1/18, p.18
Cor-Ten steel columns for Greensboro, N. C. building, 6/7, p.130
Kansas building costs cut using three welding units, 4/19, p.110
Nonresidential building contracts jump in '65, 4/19, p.45
Prestressed concrete gets ok in Chicago, 6/21, p.18
Western states heavy construction spurs record steel usage, 6/28, p.29
World's Fair Unisphere, shielded arcwelding, 4/19, p.114

Consumer Attitudes:
SRC (U. of Mich.) survey shows consumer optimism strong, 2/22, p.17

Consumer Durables:
1965 outlook good, 3/8, p.89

Consumer Spending:
1965 forecasts, 1/4, p.42
Steady pace forecast by Katona (U. of Mich.), 5/24, p.45
Consumers will keep ball rolling: Percentage of families planning big buys in cars, household equipment, houses, 6/14, p.107

Contract Buying:
Distributor gives tips on contract buying, 2/8, p.44

Coolants: See Lubricants

Copper:
New copper alloy is free machining, 5/3, p.72
See also Nonferrous (markets)

Copper Development Association Inc.:
Spring meeting: Prosperity brings problems to U. S. copper industry, 5/17, p.27

Creativity:
GM (Wilson): Climate for creativity, 1/4, p.123
Sheffield (Hadden): Nine steps toward a creative environment, 1/4, p.126

Cryogenics:
Germanic thermometer calibrates in cryogenic temp. range, 6/14, p.71

Crystals:
Carborundum announces 'whiskers' available in quantities, 2/8, p.51
Liquid crystals may aid machining jobs (Westinghouse Machine Tool Electrification Forum), 5/3, p.17

Cutting, Shearing:
Computer (IBM) technique reduces trim scrap, 2/15, p.67
Knives tailored to customer needs at expanded facilities of Tool Steel Gear, 3/1, p.31
MAPP gas speeds metal cutting speeds, Dow's conversion of burning operations from natural gas to MAPP, 6/7, p.126
Old cutoff equipment can slice into profits, STEEL Feature, 6/21, p.76

Cutting Torch:
Is plasma better than oxyacetylene? 4/19, p.122

D

Deburring:
Aqueous solution deburrs and polishes steel surfaces, 5/31, p.54
Deburring tiny commutator slots, rotating brushes end hand scraping, 2/15, p.61
Metal parts deburred with combination of ultrasonics and a chemical etchant, 3/1, p.41

Defense Contracts:
Aerospace firms pin hopes on U. S. aid moves (defense cutbacks), 1/18, p.29
Army program (AIMILO) aids industry to make bid decisions, 3/22, p.88
Defense sets up contract offices in Detroit, 3/29, p.27
Four proposals to boost small defense contractor: Barbato at NICB meeting, 5/31, p.31

Defense Spending:
1966, where defense dollars will go, Ignatius speaks in L. A., 3/15, p.44
Bread and butter items high on McNamara's list, 3/1, p.27
Defense cuts, hardware, missiles, etc., 1/25, p.29
Defense cuts forecast less for defense research, lowers military hardware outlays, 2/1, p.27
Dollars asked for 'action' in Vietnam, 5/10, p.43

Defensework:
Firms and universities named by Defense Dept. to conduct research in advanced materials, 4/5, p.17
Long term defense hardware requirements cited by Dr. Hall, deputy director, 3/15, p.45
Recommendations from ad hoc committee to AF: Needed—$150 million worth of profiling machines, 5/17, p.49

Depreciation:
Change in depreciation rules free $700 million for industry, 2/22, p.17
Medium and small firms failed to take reserve ratio test, 3/1, p.26
Still time to switch depreciation method, IRS report, 4/12, p.17

Descaling:
Electric arc descaling tech., Poland, TO, 6/14, p.18

Design:
Man-computer teams add new dimension to design, 5/10, p.79

Design Show:
Conference report: Humming technology changing engineer's role, 5/24, p.43

Diecasting Industry:
1964 production, 2/1, p.28
Diecaster's record sales tied to auto industry (custom diecasting distribution-1964), 5/3, p.31
Diecasting wins new jobs, toward one step partmaking, 5/3, p.70

Diemaking:
Ford's Katke evaluates new technologies (NC diemaking), 2/8, p.161

Dies: See Tools & Dies

Disc Brakes:
Disc brake substitute at GM—spunformed brake drum shape, 6/14, p.104
Making of disc brake calipers speeded by 20 station transfer machine, Bendix, 6/14, p.75

Distributors: See Marketing

Drawing:
Double drawing improves steel tubing quality (cold drawn tubes with zinc phosphate undercoat and lubricant), 4/26, p.62
Metals draw almost as easily as hot plastic (superplasticity), 6/14, p.66
Microdraw process, tolerances held in cold drawing steel bars, 6/21, p.31

Drawings:
Auto-Processor, faster reproductions of engineering drawings, 1/18, p.50
How to juggle a million machine drawings (store, handle, reproduce), microfilming and data processing, 1/11, p.53

Drilling, Boring:
Is your boring and drilling equipment really good enough (Productivity Gap series), 5/3, p.67
Electrolytic drilling and grinding combine with N/C to solve tough forming problem (TRW Director system), 1/18, p.49
Tiny holes bored in metal using silica glass funnel, 5/3, p.18

Drives, Controls:
Electronic gear drive, TO, 4/5, p.19
Fluid drive coupling (between exhaust fan and motor) for BOF blower, 1/18, p.54
Hydraulic equipment: Small differences 'read' at high pressures, 5/3, p.79

Drop Forging Assn.:
Annual meeting, sales forecast, 5/31, p.33

Durable Goods:
Orders support business optimism, 1/11, p.79
Sales compared with 1964, 6/28, p.113

Dust Collectors & Filters:
U. S. Steel, South Wks., installs dust collecting facilities for sinter plant, 3/22, p.35
Flotronics—silver membrane, porous sheet is precise filter, 3/1, p.48

Total Marketing, 3/1, p.15
Total Security? 1/25, p.15
Unhappy Returns (income tax), 4/26, p.15
Wondrous Tool (DAC-1), 5/10, p.31

Electric Power:
1970 forecast, total energy plants, generating power on-site, 2/8, p.34
10 year outlook, all electric plants, 2/15, p.18
AC, how developed for higher voltages, 4/5, p.66
Alternating Flow (AF) for hydraulic power systems (vibratory), 3/8, p.53
Article: New methods turn heat to electricity, AEC methods of power conversion, etc., 4/5, p.66
Coal gases converted directly into electricity (Westinghouse TV set), fuel cell system, 2/8, p.49
DC substation for Bethlehem's coal field crane, 4/5, p.74
Fuel cell for space, runs 1000 hours, TO, 3/15, p.36
Fuel cell, 96 lb, tested at Lockheed, TO 6/21, p.20
Fuel cells recycle—to work with reactors, 4/5, p.70
Liquid electrolytic cell acts as either battery or capacitor, French, TO, 2/15, p.20
Thermionic unit (RCA) runs 1000 hours, TO, 3/8, p.18

Electrical:
Amplifier (parametric) for dc, 5/17, p.18
Cables in steel plant held firmly with ladderlike support (galvanized steel sections), 3/15, p.105
Contact springs for high voltage electrical switchgear made of heat treatable copper alloy, 2/1, p.46
Electrical startup equipment for galvanizing line, 4/26, p.52
Magnetic superconductor coil, 3/15, p.120
Room temperature superconductors researched, 4/12, p.17
Superconductivity in graphite (Bell Lab report), TO, 3/15, p.35

Electrochemical: See Machining

Electrocoating:
Ford's electrophoretic deposition report, 2/8, p.162
Refractory metals plated from molten salt bath, 5/24, p.92

Electrodes: See Welding

Electroforming, Electromagnetic:
See Forming, Bending

Electron Beam:
Electron beam welding fulfills 'industrial tool' role (illustrated at IEEE machine tool conference), 2/1, p.38

Electronic Industries Assn.:
Merges Magnetic Recording Industry Assn., 5/31, p.36

Electronics:
Biomedical electronic equipment, boom in sales, 6/21, p.18
Fluid amplifiers, GE outlines, 4/12, p.35
Microelectronic pulse counters, Olympia Exhibit, TO, 5/17, p.20
Silicon controlled rectifiers boon to ECM, 5/3, p.18

Electroplating, Plating:
Chrome plating catalyst offered by Udylite, 6/28, p.31
Electroless chemical plating (coatings at British firm), 2/8, p.130
Refractory metals plated from molten salt bath, new electroform breakthrough, Union Carbide, 5/24, p.92
Striped deposits when plating electrolyte is agitated with ultrasonic energy, TO, 6/21, p.19

Employer's Assn. of Detroit:
Porter: UAW pushes auto pattern in form, not substance, 3/22, p.17

Employment Costs:
BNA findings: Median labor contract settlement in manufacturing, '64, 2/8, p.44

Employment, Unemployment:
101 million work force by 1980, 3/15, p.34
Help wanted index rises, NICB, 6/28, p.19
Teenagers lockout by high wages, low skill, 3/15, p.154

Engineering:
International program, Honeywell, 3/22, p.18

Engineers, Technicians:
Creative engineering environment, rewarding innovation, AMA personnel conference, 3/15, p.35
Design Show: Technology changing engineer's role, 5/24, p.43
Engineer salaries, trends, 1/25, p.31
Engineer salaries up, 6/7, p.33
Retread certificate with engineering degree would require refresher course (tech. changes), 4/5, p.19
Scientific manpower report: Fewer technicians employed, 6/28, p.18

Engines:
Thermal engine checked out by stethoscope, 1/25, p.36

Equipment Builders:
Surveyed by STEEL, 2nd half outlook, 2/8, p.41

Europe:
EEC speeds ahead of schedule: Hallstein (Common Market Commission), 2/15, p.62
EEC spending for nuclear power stations estimated, 4/26, p.18
EFTA (European Free Trade Assn.) tries economic unity, 3/8, p.50
French government suggests uniform, 'European company' for Common Market countries, 6/21, p.19

Executives: See Management

Explosives:
Explosive bonding used to clad forging (nuclear generator) pic., 2/1, p.29
Russian factory strengthens pressure cylinder of aluminum via explosive hardening, TO, 2/1, p.20

Exports, Imports: See Foreign Trade

Extrusion:
3-way extrusion (alternator part) wins award, 3/29, p.33
Cold extrusion of rear axleshafts, Oldsmobile, 2/1, p.65
Cold extruding ribs in panels, TO, 5/17, p.20
Fluted aluminum tubing twisted into spiral shapes, 4/19, p.51

F

Fabrication, Assembly:
Automatic assembly, you no longer have to be 'big' to use, 4/12, p.54
Automatic assembly report, tool part handling seminar, 5/31, p.29
Fiber glass reinforced plastics, production techniques and uses, 5/24, p.87
Pontiac automates assembly for differentials, 6/7, p.165

Facts & Figures:
Annual edition (earnings, sales, production, labor, prices), 3/29, p.73

Fans, Blowers:
Fluid drive coupling between exhaust fans and motor cuts cost for BOF blower power, 1/18, p.54

Farm Equipment:
Ford executive explores tractor trade with Soviets (Czechoslovakia), 2/22, p.99

Fasteners, Fastening:
Auto trim fastener market shapes up for studwelders, 3/29, p.147
Ford solves fastener problems, 3/22, p.84
New high strength bolt A490, 5/3, p.86
Riveting nameplates on curved shells of flashlights, 2/8, p.112
Rivets of stainless steel for truck-trailer panels, 3/15, p.99
Self-locking device for space applications, coiled spring replaces safety wire, TO, 6/14, p.20
Titanium nails for marine applications resist sea water, TO, 3/22, p.20
Trim fastened with nylon, stainless studs (automotive and appliances), 2/15, p.66

Fiber Glass: See Plastics

Filament Wound:
Hystran tubing, filament wound in high speed machines, 3/29, p.160
Pressure vessels, electroforming teamed with filament winding, 2/8, p.47
Pressure vessels of filament wound, glass reinforced plastics, NASA suggest, TO, 4/26, p.19

Financial:
1964: Watch for 'artificial' profits, 2/8, p.165
Metalworking, 1st quarter earnings, 5/10, p.129
Steel profits, earnings 1964, 2/8, p.42
Steel 1st quarter, 1965, 5/10, p.43

Financial Analysis:
Annual financial analysis of the steel industry, insert, 4/5, p.59

Financing:
Foley (SBA) speaks at NMTBA: Hope for modernization financing plan, 5/10, p.33

Finishes, Coatings, Paints:
Aqueous solution (Rohsheene Fe, bright dip) deburrs and polishes steel surfaces, 5/31, p.54
Artificial patina on copper, development, 1/18, p.18
Carbide coated parts, new process at WaiMet, 5/17, p.58
Ceramic coating of metals, flame spray method (Linde's LC-9), 2/22, p.64
Coatings removed with salt bath, 3/29, p.126
Coated metal strip gets two colors at once, 3/15, p.49
Coloring carbon steel, electrochemical process, TO, 1/25, p.19
Conversion coating manual, Chem-Grip prepaint process, 4/12, p.67
Enamel-nonglare dev. at Chrysler, 4/26, p.106
Flame plated coating resists wear, shock (Linde), 3/22, p.31
Fluorocarbon resin (liquid finish), long protection for metal surfaces, 3/15, p.49
Germanium oxide protects GM's semiconductors, 5/24, p.137
Iridium coating gives graphite protection, 4/5, p.74
Metalizing coats for bearing surfaces, 1/18, p.50
Metalizing with stainless steel powder reclaims bronze shaft, 2/15, p.60
Molybdate corrosion inhibiting pigments, advantages to paint users 6/21, p.122
Organic coatings near metals lead to corrosion, Army research, TO, 5/3, p.18
Plasma coating—tailored solution for more jobs, 5/24, p.81
Plasma flame sprayed tungsten coatings, TO, 5/3, p.20
Polymeric film deposited from vapor phase (Union Carbide), 3/1, p.46
Porcelain enamel recoat, spray gun, TO, 5/24, p.36
Prepaint coating line automated at GM, 6/14, p.33
Solid lubricant coating for tapping machines, 2/22, p.72
Steel strip coating in coil form (Belgium), TO, 3/1, p.20
Thin film coatings (ion sputtering tech.), new uses sought by Honeywell, 1/4, p.45
Vibratory finishing report, 3/22, p.69
Zinc-epoxy coat for metals, Australian firm, TO, 2/22, p.20
Zinc paint combined with Teflon, 3/8, p.64

Food Industry:
Irradiation equipment pushed by armed services, 6/21, p.18

Foreign Aid:
Nippon Kokan gets Export-Import loan for steel mill, 1/18, p.31
Pakistan AID loan for commodity purchases in U. S., 1/25, p.33
U. S.-Indian ventures guaranteed by AID, 5/3, p.28

Foreign Investments:
Developing nations—do they provide biggest potential for U. S. investors? 2/8, p.45
LBJ may seek check on overseas investments, 2/15, p.27
Overseas business grows, 3/22, p.117
Overseas operations (Controls Co. of America) guided by Europe board', 5/10, p.45

Foreign Markets:
Australia: Foreign funds bolster boom, 4/12, p.52
Brazil, bid for U. S. sales, investment, 1/25, p.31
Canada's business growth, what and where to sell, 5/10, p.86
Developing nations aided by U. S. selling free enterprise concept, Mexican industrialist forewarns, 2/8, p.45
EEC speeds ahead of scheduling (Hallstein-Common Market Commission report), 2/15, p.62
EFTA experiment, economic unity, 3/8, p.50
France, steelmaking facilities near Fos-Sur-Mer (Marseilles), 1/25, p.33
India, potential market for U. S. manufacturers, report of Commerce development mission, 5/17, p.31

Latin American opportunities hit by speaker from Columbia at AMA session, 3/1, p.28
Latin America, are U. S. firms losing markets? Countries listed and what to export, chart, 6/21, p.74
India, minerals exploration, 6/14, p.31
Mexico, many opportunities cited by Pagliai (industrialist), 2/8, p.47
Mexican steelmakers need to invest in facilities and equipment, bank report, 5/17, p.58
New Guinea tax incentive lures new industries, 2/1, p.19
New South Wales offers firms incentive package, 5/31, p.33
New Zealand, steel industry plans, 2/8, p.47
South Africa's 'gold' markets, industries reported, 2/1, p.41
Soviet machine tool builder is growing competitor, report of delegation returned from Russia, 6/7, p.43
Uniform 'European company' suggested for Common Market countries by French government, 6/21, p.19
Yugoslavia seeks trade, not aid, 1/18, p.30
Yugoslavia's foreign trade skyrockets. Reds net bigger share, 5/31, p.33

Foreign Trade:
East-West trade favored by businessmen's group, report of Blackie (Caterpillar Tractor), 1/18, p.17 and 3/8, p.18
East-West favored by businessmen's group headed by Miller (Cummins Engine), 5/17, p.29
East-West trade called for by CED, 5/10, p.47
East-West: Scott (AMA session) reports trade with Reds offers opportunity, some headaches, 5/24, p.45
Eastern Bloc looks for more free world trade reports Bank of Chicago, 4/5, p.29
Export aid: Will industry get a break? Carlson (Deere) testifies, seeks passage of S.558, fund to back up overseas markets, 3/29, p.25
Exporter cites events that shape U. S. trade (international trade conference), 6/7, p.45
Exports, metalworking gains, 1/25, p.31
Germany's Turnover Tax Law boon to U. S. forms, comment of Dr. Otto L. Walter, 4/12, p.33
Import dumping, Treasury action, 4/5, p.17
Labor laws would hurt us in world competitive markets, GE speaker, 6/14, p.27
Phillippe (GE) urges freer international trade, 6/28, p.17
Soviet Bloc, free trade forecast by AMA group, 2/22, p.28
Steel imports, rising tide in U. S., 2/15, p.25
Steel imports, have they reached high water mark? 5/31, p.27
Steel mill products, U. S. exports to drop, 2/15, p.26
U. S.-Phillippine trade weakening, 3/22, p.29
U. S. trade balance improved (exports, imports, trade balance 1/18, p.81

Forging, Forgings:
298,000 lb stainless steel ingot start for rotorshaft forging, 3/22, p.77
Drop forging sales gain, 5/31, p.33
Heated forging dies, forming capability (AF interested in finding space age materials), 6/7, p.112
HERForging unit, Millrich Eng., TO, 3/29, p.19
Spin forging forms stainless elbows (NASA), TO, 1/11, p.20
Titanium forging 'Poodle Dog' for helicopter jet engine mounts, 1/4, p.45

Forging Industry Assn.:
Elects officers, B, 6/14, p.36

Forming, Bending:
Article (HERF): It's time for another look at spark, magnetic forming, 3/22, p.70
Article: Ultrasonic metal forming inching toward full shop status, 4/26, p.48
3M forming process fabricates monolithic, complex shapes out of tough metals, 1/4, p.47
Chad chutes (Teletype) made by nickel electroforming, 5/3, p.83
Cold forming pole pieces for generators, Ford Motor Co., TO, 3/22, p.19
Explosive forming-indoors, TO, 3/8, p.20
Filler (Cerrobend) for internally supporting thin walled shapes during forming, 1/4, p.47
Fluid forming method (Hydroform) offers short run stamping economy, 3/22, p.64
HERF makes iron powder discs by single blow, TO, 6/7, p.36
HERF shop experimental. Production Machine Div., 4/12, p.35
HERF uses shop air, PERA, 6/28, p.19
Plastic tooling for metal forming, 6/21, p.33
Sonobuoy parts formed on dual roll bender (Kaufmann), 3/22, p.67
Stainless steel elbows formed by spin forging (NASA), 1/11, p.20
Stretch forming, new methods, new markets expand range (sheets for aerospace, appliances, automotive), 2/8, p.103
Stretch forming at Ford, 2/8, p.162
Superplasticity: Metals draw almost as easily as hot plastic (aluminum sheet pulled into shape via heated vacuum die), 6/14, p.66

Foundries:
3M snag grinding: Feed pressure boost aids foundry belt grinding, 2/1, p.36
Blaw-Knox automated foundry sand handling, 5/10, p.49
Challenge to foundrymen: Don't delay adopting tomorrow's technology, 5/17, p.25
Chrysler (Huber Ave.) foundry set for 1966, features, 2/8, p.116
Ford reclaimed foundry sand via a fluidizing unit, TO, 4/19, p.36
Tungsten substitutes for molybdenum for strengthening iron (Union Carbide report), 4/26, p.54

Foundry Educational Foundation:
Walter Sicha, president, 4/26, p.36

Freight Cars: See Railroads

Fuel:
Army discloses energy fuel depot concept at SAE meeting, portable nuclear reactor on truck-trailer, 1/11, p.76
Fuel injection system cuts gas consumption, British firm, 6/7, p.178
LP-gas sales burgeon, metalworking benefits, 5/24, p.162
MAPP gas (Dow Chemical) converted from natural gas speeds metal cutting, 6/7, p.126

Manpower: See Training

Manufacturing:
New manufacturing technologies, 1/4, p.111
Sales gains forecast for major groups (Commerce Dept.), 1/18, p.27
How manufacturing has grown in past years (metalworking), 3/29, p.151
Profits of manufacturers, Nat'l City Bank of N. Y. report, 3/22, p.17

Market Research:
AMA speaker: Market research can aid in new product development, 2/1, p.26

Marketing:
Black & Decker task forces tackle customer needs, product development, 6/14, p.64
Carborundum's new computer-marketing plan, 3/39, p.31
Computer runs show at Olin (Omal, O., mill): Blueprint of a total information system, CPR, 6/28, p.60
Direct selling by supplier, reduces distribution charge and inventory expense, Norton claim, 2/22, p.31
Direct selling by suppliers aid to distributors, Norton claim, 4/12, p.29
Direct selling, distributor's role reviewed by conference speaker, 4/26, p.28
Field sales force inadequacy a major weakness, Fry & Associates report, 6/14, p.29
GE uses flying showroom, aids distributors to sell, 5/3, p.19
Industrial marketing patterns to watch, (distributors' meeting), 5/31, p.28
Industrial marketers challenged: Innovate—that's your real job, AMA-World conference, 6/21, p.25
Phones boost sales 65%, reduce field personnel, 5/24, p.99
Pratt & Whitney training program converts salesman into marketer, creative selling, 2/1, p.32

Material Handling Equipment:
Conveyors:
Belts feed blast furnaces (Italsider complex), 2/15, p.73
Designing a system that's hard to beat: Link-Belt installs at Polaroid Corp., 5/31, p.52
Roller chain, longer life with precipitation hardening (food and packaging conveyors), 3/8, p.63

Cranes, Hoists:
French crane, five fingers on end of long boom, TO, 4/12, p.20

(Order Selection)
Handling system (Castle) for receiving, storing and shipping tubular and bar stock (cantilevered racks, storage tubes, Side-loader trucks), 3/22, p.81

Material Handling Show:
Great Lakes Show (Cleveland): Systems studies needed, 5/31, p.31

Materials Management:
Concept for purchasing managers, NAPA meeting, 5/24, p.41

Materials Report:
298,000 lb stainless steel ingot start for rotorshaft forging, 3/22, p.77
All stands controlled on hot strip finishing mill (Detroit Steel), 4/12, p.58
Aqueous solution deburrs and polishes steel surfaces, 5/31, p.54
Brassmaker anticipates customers' needs (Anaconda), 6/28, p.64
Belts feed blast furnaces, 2/15, p.71
Ceramic-metal composite takes heat and pressure, 3/15, p.106
'Civilian' problem solved with aerospace alloy (Armco 17-4 stainless for pump valves, sea water duty) 2/1, p.44
Dynamic control: More BOF savings, 5/10, p.90
Foundries evaluate tungsten for strengthening iron, 4/26, p.54
Lesson from converter experience expands electric furnace charge (arc furnaces at A. Finkl), 2/22, p.75
Longer life for stainless roller chain, 3/8, p.63
Materials choice key to tiny motor design, GE-cordless electric tooth brush, 1/4, p.136
New copper alloy is free machining, 5/3, p.72
New methods turn heat to electricity, 4/5, p.66
Parts carbide coated by new process (WaiMet), 5/17, p.56
Permanent magnet can be switched, 2/8, p.113
Phoenix Steel's Claymont plant: Steelmaking costs will drop with new processes, 1/11, p.54
Polymeric film deposited from vapor phase (Union Carbide), 3/1, p.46
Reducing magnesium content in additive improves recovery in ductile iron, 6/7, p.118
Shielded arc tests weld wire metle, 4/19, p.114
Submicron oxide powders lead to strong alloys, 6/21, p.82
Superplasticity: Metals draw almost as easily as hot plastic, 6/14, p.66
Refractory metals plated from molten salt bath, 5/24, p.92
Study benefits all stainless users (Budd Railway Div.), 1/25, p.60
Temperature head controls vacuum degassing time, 1/18, p.52
Where coating's not wanted, salt bath removes it, 3/29, p.126

Melting: See Vacuum

Mergers:
Merger failures, Bjorksten Research Lab survey, 5/24, p.34
Metalworking mergers on rise (54.6% controlled by 200 largest firms), 3/22, p.18
Tips for better mergers by new antitrust chief (Turner), 6/21, p.28
When do mergers begin to worry antitrusters? Metalworking acquisitions (table), 4/19, p.44

Metal Deposition:
Electric arc metallizing equipment hikes deposition rates, 5/3, p.33
Ion plating, one operation cleans, plates a metal, 1/4, p.49
Ion sputtering tech. explores uses for thin film materials (processed in vacuum inside a bell jar), at Honeywell, 1/4, p.45
Nickel electroforming chad chutes (Teletype Corp.) (electrodepositing metal on a removable mandrel), 5/3, p.83
Titanium carbide coat vapor deposited on tool steels, 3/22, p.83
Vacuum vapor line pilot stage, J&L Graham Research Lab., 3/29, p.35
Vapor phase plating, metal with tungsten, TO, 4/5, p.20
Zinc plating process used at Westclox, 5/31, p.46

Metal Finishing, Cleaning:
Aqueous solution deburrs and polishes steel surfaces (Rohsheene Fe), 5/31, p. 54
Chemical etchant—ultrasonics deburr metal parts, 3/1, p.41
Fluorocarbon resin protects metal surfaces, 3/15, p.49
Kolene (salt bath) removes resistant coatings, 3/29, p.128

Metal Finishing Supplier's Assn.:
Elects executive dir., 4/26, p.

Metal Forming: See Forming, Bending

Metal Powder Industries Federation:
Johnson elected president: Powder metallurgy uses forecast, 6/21, p.29
Kempton Roll cites market growth, shipments, new technologies, 2/15, p.30

Metal Removal:
Abrasives get bigger share of chipmaking business, 6/21, p.70
Abrasive using machine tools, used by 40% of metal removal machines, TO, 4/12, p.19
Builders compare 1955 equipment with present ones, 5/3, p.69
New techniques listed (insert), 1/4, p.111
Grit size abrasives best for finishing and machining, 6/14, p.60
Rotary cutter aids metal removal, TO, 3/1, p.18
Russia, machine removes metal via ultrasonics, spark erosion, and electrolytic polishing, TO, 6/14, p.20

Metallurgy:
Chemistry-metallurgy technique: Submicron oxide powders lead to strong alloys, 6/21, p.82
Computer aided approach to predict properties of alloys, TO, 3/1, p.20
Ferrotungsten substitute for molybdenum in cast iron, TO, 6/21, p.20
Pressure, flow heal cracks, TO, 6/14, p.20
Reducing magnesium content in additive improves recovery in ductile iron, 6/7, p.118
Specialty metals (high purity cobalt strip and columbium alloy) have wide range of commercial-industrial uses,
TD nickel strengthened by alloying, report of Dr. Anders (Du Pont), 3/1, p.80
Phosphorus elimination in steel studied, McMaster Univ., 1/25, p.63

Metalworking:
1964: Bigger profits for 47 out of 50 (firms listed), 2/22, p.104
1965: STEEL's forecast, 1/4, p.41
1965: Another record profit year coming? 2/22, p.103
1965 boom, where metalworking is growing fastest, 3/29, p.151
1965: What metalworking managers expect for 2nd half, 6/28, p.52; and sales in '65, 6/28, p.26
1965: 1st quarter earnings, 5/10, p.129
Equipment builders surveyed; 2nd half, 2/8, p.41
Executives pay high (chart), 1/11, p.28
Export gains '64, products listed, 1/25, p.31
Facts & Figures (earnings, sales, production, labor, prices), 3/29, p.73
LBJ orders closer scrutiny of prices following aluminum labor pact, 6/14, p.25
Steel talks worry executives of small firms, 4/26, p.25

Metric System:
Battle tank, mixture of 'metric' and 'inch' fasteners, 6/28, p.18
Bills introduced to Congress (Miller and Pell), 1/18, p.17
Commerce Secy. Connor gets committee report, status quo metric vs. inch debate, 3/15, p.33
Metric-inch agreement, ISO, 3/22, p.18

Mexico:
Fundidora de Monterrey expansions, joint ventures to total $12 million, 3/8, p.35
Paglial (industrialist) urges U. S. to sell free enterprise concept to keep alive developing nations, 2/9, p.45
Spending needed by steelmakers in facilities and equipment, 5/17, p.58

Microfilm: See Office Equipment

Midwest Research Institute:
Gadberry: Marketing information for technology growth, 4/26, p.18
Solid lubricant seminar, 4/19, p.47
Vacuum lubricants (study for Marshall Space Flight Center), TO, 1/25, p.20

Molybdenum:
Kennecott develops molybdenite deposit in British Columbia, TO, 2/22, p.19
Molybdenum ore find in California confirmed, 2/8, p.34

Motors, Generators:
Allis-Chalmers debuts induction motor (Versapac), 2/1, p.28
GE developments: SCR ups power handling, and Kinnematic dc motor, 3/15, p.49
GE: Diecast aluminum frames for motor line, 5/3, p.33
Miniature precision motor (GE cordless electric toothbrush), materials key to design, 1/4, p.136

National Aeronautics & Space Adm.:
Alloys discovered by Dr. Kraft (Lehigh Univ.) subject of research project, 3/1, p.45
Cold pressing ribs in panels, TO, 5/17, p.20
Commercial benefits of electronics research listed, 5/10, p.33
Coupling adjusts misalignment, TO, 4/5, p.20
Cutting tool, machining elliptical cones, TO, 6/1, p.19
Heat radiating from corrosive environment measured, 2/15, p.19
Investment casting method for Saturn heat shield, 3/22, p.31
Lead plated polymer can be soldered, 2/8, p.114
Lewis Research: Wire mesh forms furnace heating element, 3/29, p.128
Optics aid torque measurement. Lewis Research, TO, 2/8, p.35
Thermocouples of graphite, NASA, measuring high temps, 3/15, p.34
Trace element analysis via emission spectroscopy, Lewis Center, TO, 2/8, p.36
X-15, Mach 8 research plane, gets new alloy for sensor in nose of plane, 2/22, p.78

National Association of Fleet Administrators:
Survey, families using fleet cars, 6/7, p.178

National Association of Purchasing Agents:
Annual meeting reports:
Materials flow management concept, 5/24, p.41
Developing suppliers, 5/24, p.43
Hopkins (ACF), plan to short-cut steel pricing policy, 5/31, p.31
Steers (RB&W), avoid 'extra extras' which inflate product costs, 6/7, p.45

National Bureau of Standards:
Germanium thermometer calibrates in cryogenic temp. range, 6/14, p.71

National Industrial Conference Board:
Barbato proposes four ways to boost small defense contractor, 5/31, p.31
Consumer spending forecast by Katona (U. of Mich.), 5/24, p.45
Help wanted index rises, 6/28, p.18
Public affairs demanding more executive time, 5/26, p.27
Public affairs, effect on profits, 5/17, p.17
GE (Lockton) address: Proposed laws would hurt competitiveness, 6/14, p.27
Weaver (Alleg. Ludlum) speaks at West Coast marketing conference on salesmen promoted to managers, 5/17, p.29

National LP-Gas Association:
Kreutzer exec. v. p., 5/31, p.36

National Machine Tool Builders' Assn.:
AF Lt. Gen. Davis: Air-space material trends 'pushing' machine capability, 5/17, p.27
Pease reports industry at spring meeting: Equipment order backlogs up, 5/17, p.85
Show exhibits tapping, threading units, 4/19, p.111
Surrey calls for industry modernization, 5/17, p.17

National Tool, Die & Precision Machining Assn.:
Gray: Industry shops plan for NC, 2/8, p.33
Wright: Double pay for overtime called inflationary, 6/7, p.42

Navy:
Philipchuk reports explosive welding safer to handle, Weapons Lab, 4/26, p.59
Vice Adm. Rickover attacks Defense Dept. on weapons system, 3/1, p.27

Nickel:
10 year consumption predicted by Falconbridge Mines, 5/3, p.18
Nickel electroforms drop cost of chad chutes at Teletype, 5/3, p.83

Nitrogen Plant:
Linde's on-site plant operates unattended, 4/5, p.33

Nodular Iron:
In making nodular iron: Reduce magnesium content in additive to improve recovery in ductile iron, 6/7, p.118

Nondestructive Test: See Inspection, Testing

Non-Ferrous Founders' Society:
Moves headquarters, B, 5/31, p.36

Nonferrous Industry:
1964 report, deliveries-production, 2/1, p.26
1965 supply-demand outlook for copper, lead, zinc: Congress may pass disposal bill, 3/22, p.33
Copper allocations from stockpile short of demand, 5/10, p.45
Copper, will price hike start merry-go-round? 5/10, p.45
Copper price stability sought by Page (Phelps Dodge), 5/31, p.35
Lead, zinc producers see surplus by '68 for Free World, 5/10, p.44

Northwestern Mutual Life Insurance Co.:
'Checkless' payday, magnetic tape to bank, 5/17, p.18

Contouring NC for $10,000: Bendix-Directapath, magnetic tape unit for job shops, 3/22, p.27
Cutler-Hammer AIL Div.: Two tape, N/C guides turret punch press, 6/14, p.73
Fisher Body uses NC welding, 2/15, p.98

Ford's Katke evaluates new technologies, 2/8, p.161
GE launches NC retrofitting service, 3/22, p.28
GE tape inspection machines, Waynesboro, Va., 3/22, p.83
Machine tool builders favor digital NC, 5/10, p.34
Machining centers at job shop, 5/31, p.45
NC effect on field of tracer control: Don't sound the death knell, 6/7, p.106
NC data processing firm (Soroban Eng.) takes its own medicine, uses Cintimatic NC turret drill in its machine shop, 4/12, p.66
NC on boring-drilling equipment, 5/3, p.67
NC drill, stainless jet heat exchangers, 3/8, p.58
NC diesinking trend, 3/22, p.83
N/C electrolytic grinding and drilling combine in tough forming problem, 1/18, p.49
N/C forces systems approach (Sheffield), 1/11, p.50
N/C lathe assembly and test, 1/11, p.35
NC shot peening machine for F-111 tactical fighter, General Dynamics Ft. Worth Div., 3/15, p.102
Nonelectric N/C on pneumatic power source, research, 1/18, p.17
Plastics, cheap way to check NC programs, 6/21, p.17
Sample work made on N/C punch press, sales aid, 6/28, p.18
Tape control speeds custom stamping, 3/29, p.124
Tool and die shops plan for NC, 2/8, p.33

Nylon:
Trim fastened with nylon, stainless (automotive and appliances), 2/15, p.66

O

Oceans:
Manganese nodules on floor of Pacific, 3/15, p.166
Ocean Systems, formed to develop underwater services, 1/25, p.19

Office Equipment:
Microfilm continues to displace paperwork, 5/24, p.100

Ohio State University:
Dr. McMaster: Welding control automation predicted, x-rays, electromagnetics, 5/10, p.95

Orders, Deliveries:
Computer runs show at Olin (Omal mill), 6/28, p.60
Data Communications for customers: Electron 'expressways' for computers, 2/22, p.58
Order processing service inaugurated by U. S. Steel, 6/21, p.35

Outboard Motors:
Chrysler to make outboards, boats (buys firms), 5/31, p.81

Oxygen Furnaces:
A. Finkl & Sons: Lesson from converter experience expands electric furnace (arc) charge, 2/22, p.75
Kaiser furnace railroaded into position, 6/28, p.66d

P

Packaging, Containers:
AMA conference highlights, new methods (automation, electrostatic printing, plastics), 4/12, p.28
Aluminum in packaging, growth forecast, 4/12, p.17
Bell & Howell's Lincoln addresses seminar, Wisconsin Univ.: New look at packaging engineer, 5/17, p.55
Boxmaking simplified using Xpediter, 5/10, p.89
Flow coating for transparent packaging, 6/14, p.58
Foamed polyethylene cushions the package, 5/31, p.46
Foamed polyurethane combined with corrugated box, 6/28, p.59
Magnetic contactor, electronic for packaging, 1/18, p.50
Polypropylene straps, heat seal cut packaging costs, SKF, 6/21, p.87

Paint Trays:
Disposable paint trays, corrugated board, 2/1, p.43

Patents:
U. S. processes patents faster than other industrialized nations, TO, 4/26, p.19

Peening:
General Dynamics extends NC to shot peening (structural parts for F-111 tactical fighter), 3/15, p.102

Pelletizing:
Allis-Chalmers gets contract to build Minn. plant, 3/1, p.31
Empire Iron Mining expands Palmer, Mich., facilities, 5/10, p.51
Pelletizing discs shipped to Canadian plant, 2/8, p.130
New pellet process (dev. by Surface Combustion), pilot plant to be near Nashwauk, Minn. (joint project of Midland-Ross, Hanna Mining, National Steel), 2/15, p.31

Pennsylvania:
Gov. Scranton cites improved business for state, 5/3, p.18

Pensions:
Government-cabinet committee calls for private pension plan changes, 2/8, p.45

Personal Income:
Rises in December to record high, 1/25, p.18

Pickling:
AISI paper: Hydrochloric acid pickling, 5/31, p.26

Pipe, Tubing & Fittings:
Aluminum tank shrink fitting inside steel shell (electric heating elements), 2/22, p.72
Aluminum tubing packed in a shell (aids production of helium from natural gas), 3/8, p.36
Carbide chasers speed pipe threading, 3/1, p.40
Fluted aluminum tubing twisted into spiral shapes, 4/19, p.51
Hystran tubing is filament wound on high speed machines, 3/29, p.160
Steel tubing, double drawing improves quality, 4/26, p.62
Tube expander made up of two machines, handles coils, 6/7, p.47
Tubing in bimetal sections (telescoped), gas lines for Apollo launching pad, 6/14, p.35
Tubing—five ways to buy heat performance, 1/11, p.33
Tubing mill for refrigerator applications, 3/1, p.44
Tubing has fins, TO, 5/31, p.20
Yoloy, new low alloy steel for welded or seamless pipe, 1/11, p.33

Pipelines:
Expanded pipe demand predicted, fiberglass forecast, 4/12, p.19
Sea pipeline (plastic) in South Africa, for industrial wastes, TO, 6/28, p.20
Tube for Stanford Linear Electron Accelerator, below ground installation, 6/28, p.66
X-ray and TV, nondestructive test of high pressure line pipe welds, 1/18, p.48

Plant Control:
Honeywell: Network to control buildings miles apart (one-man central console), 1/11, p.31

Plant Engineering & Maintenance Show:
Highlights of conference, 3/15, p.109
Speaker calls industrial relations execs professional losers, 3/15, p.44

Plant Expansion & Developments:
Alan Wood Steel, $15.5 million expansion plan, 1/18, p.30
Dofasco plans $120 million plant, mine improvements, 5/10, p.51
Farrell-Cheek Steel $1.36 million (Phase One) improvement program, 1/4, p.51
Phoenix Steel updates Claymont plant, 1/11, p.54
Republic plans $75 million, Cleveland District, 2/15, p.31
Sharon Steel outlines improvement program, 3/1, p.31
Youngstown Sheet-$375 million expansion, Indiana Harbor Wks., 5/17, p.33

Plant Layout:
Futuristic facility 'in the round' for manufacturing stereo equipment and TV sets, 1/11, p.33
Phoenix Steel's Claymont plant updated (flowchart), 1/11, p.54

Plasma Coating: See Finishes, Coatings

Plastics:
1965 production forecast, vinyls and polystyrene most in demand, 1/11, p.29
ABS (acrylonitrile-butadiene-styrene plastics) inroad in metalworking, 3/29, p.33
Auto market (STEEL Feature), competitive thermoplastics, 4/26, p.43
Automated plant chrome plates plastics, 2/15, p.65
Automated plastic plating for small subcontract shop, 4/12, p.18
Autos in 1966 get safer windshields (plastic interlayers), 5/17, p.81
Battle threatens between metals and reinforced plastics, 3/1, p.30
Fiber glass reinforced plastics popping up in new areas: F. M. Wright, Pittsburgh Plate Glass, 5/24, p.87
Fiberglass structurals for aircraft, highstrength elements (Grumman), 3/15, p.33
Foamed polyethylene in pouch form, cushion packaging, 5/31, p.46
Hystran, a reinforced plastic in filament wound tubing, 3/29, p.160
Plastic valves (pipes handling corrosives), 3/8, p.64
Plastic tooling, sales outlook next five years, used for metal forming, 6/21, p.33
Plastic films (Parylene) applied in heated vapor form (tough), 2/22, p.18
Polymeric film deposited from vapor phase, 3/1, p.46
Polypropylene straps, heat seal for packaging, 6/21, p.87
Polysulfone, new high heat structural plastic, 4/12, p.31
Superplasticity: Metals draw almost as easily as hot plastic, IBM, 6/14, p.66
Teflon type materials for bearings, TO, 6/14, p.19

Plates:
Dow's MAPP gas speeds metal cutting at Temco, 6/7, p.126
Sandwich (multiple layer method) route to thick plate fabrication, French process, 5/10, p.34

Plating: See Electroplating, Plating

Pollution:

See Water Pollution

Porcelain Enameling:
Electrodialysis process regenerates etch bath, TO, 3/15, p.36

Powder Metallurgy:
Fine powder improves bearings, TO, 5/31, p.20
Ford's powder metals process, Rawsonville plant, 2/8, p.162
Forged parts from sintered powder compacts, TO, 5/31, p.20
French metallurgists test hot coining to toughen powder metal parts, 1/18, p.78
Kempton Roll cites new technologies, 2/15, p.30
Oxide powders offer means of perfecting metal powder tech., TO, 6/7, p.36
Powder metals sales outlook, 3/32, p.28
Researchers (Canadians): Tiny element makes big change in physical properties, 4/5, p.18
Sintered metal powders for auto engines, TO, 5/17, p.20
Steel waste from ball bearing production, good material source for metal powders, Russian report, TO, 4/26, p.20
Submicron oxide powders lead to strong alloys, 6/21, p.82

Power Tools:
AF vibratory power actuates multipurpose drill, 3/8, p.53

Presses:
Article: Press builders stamp out costs three ways (speed, accuracy, automation), 3/29, p.122
Compacting press (sharpens stones for steel tools), 1/18, p.88
Hydraulic press forms huge rail car parts, 3/15, p.121
Hydraulic press shipped on 14 flatcars, 2/8, p.126
Italian unit stamps, taps, blanks, TO, 3/29, p.20
Jewelform (English firm): This press makes its own dies, 6/7, p.115
Open bed inclinable presses for use with steel rule dies, TO, 3/29, p.20
Press powered with explosives, compact chips and shavings, TO, 3/8, p.20
Turret punch press has two tape, N/C, Cutler-Hammer, 6/14, p.73

Pressure Vessels:
Electroforming teamed with filament winding to produce lightweight vessel, 2/8, p.47
NASA suggests filament wound plastics, TO, 4/26, p.19
Vessel (for spent nuclear fuel elements) requires three welding methods, 4/19, p.116

Prices:
Aluminum big business may stabilize prices, 3/1, p.28
Bismuth, cadmium, 3/22, p.33
Consumer prices, inflation greater in Japan, Europe than U. S., 6/14, p.31
LBJ orders closer scrutiny of prices following aluminum labor pact, 6/14, p.25
Metalworking wholesale price indexes (1957-59), 6/14, p.25
Steel pricing protection for period following placement of order suggested by Hopkins (ACF) at NAPA conference, 5/31, p.31

Product Development:
Product planners teamwork, manufacturing and legal departments, 2/8, p.34
Task forces tackle customer needs, Black & Decker, 6/14, p.64

Production:
Lead, zinc-Free World, expansion by 1968, 5/10, p.44
Ingot production by district, 1964, 3/8, p.27
Ingot output, '65 forecast, 1/4, p.41

Production Engineering Research Assn.:
Herf machine uses shop air, 6/28, p.19

Productivity:
Ackley (CEA): Government not easing up on its guidelines (forecasts economic outlook), 6/28, p.25
Aluminum price hikes following labor pact: Pressure on guidelines philosophy keeps building, 6/7, p.42
Aluminum pact: LBJ orders closer scrutiny of prices, 6/14, p.25
How does your productivity compare? Value added by manufacture per employee, Commerce and BDSA statistics, 1/25, p.25
LBJ repeats price warnings, steel cited, 2/1, p.25
Can government guideline work during steel talks: Industry-government talk different figures, 3/22, p.25
Steelmakers ask which figures do you use: CEA (1957-'64) or BLS, 4/12, p.25
Steel guideposts proposed by CEA: Settlement of 3% achieved without price increase (steelmakers and union reaction), 5/10, p.41

Steel-CEA study attacked by Republic's Patton at stockholder meeting, 5/17, p.28
Rucker productivity plan at Precision Tube: Labor relations improve as incentive plan pays off, 5/24, p.84

Productivity Gap: (STEEL Features):
1. How inefficient is your turning equipment? 2/15, p.57
2. Eight ways 'average' grinders lag technology, 3/1, p.35
3. Press builders stamp out costs three ways: Speed, accuracy, automation, 3/29, p.122
4. New routes to tapping, threading shortcut costs, 4/19, p.111
5. Is your boring and drilling equipment really good enough? 5/3, p.67
6. What you can gain by replacing average age milling machines, 5/31, p.43
7. Old cutoff equipment can slice into profits, 6/21, p.76

Profits: See Financial

Public Affairs:

STEEL Features:
Plastics dent auto metal markets, 4/26, p.43
Refractories: Push on for higher temperatures, 4/12, p.46
Solid lubricants: Specials ready for standard role, 5/17, p.44
Tracer control: Don't sound the death knell, 6/7, p.106
Trade relations — reciprocity, there's a difference, 5/3, p.61
Training program converts salesmen into marketers, P&W, 2/1, p.32
Welding trend: Move away from stick electrode remains major trend, 4/9, p.102
What metalworking executives expect in 2nd half, 6/28, p.52

STEEL Features: (Computer Systems):
1. How computers will reshape management team, 1/11, p.43
2. Computers: Sixth sense for decision makers, 1/25, p.49
3. Computers offer big strategies to small business, 2/8, p.106
4. Data communications: Electronic expressways, 2/22, p.58
5. Six steps in preparing for computers (installation), 3/15, p.95
6. Computers add science to art of management, 4/5, p.59
7. Man-computer teams add new dimension to design, 5/10, p.79

STEEL Features (How to grow with new technologies):
1. Benefits of adhesives hinge on shift to new approaches, 1/18, p.40
2. New methods, new markets expand range of stretch forming, 2/8, p.103
3. Rigorous conditions build need for ceramic coating of metals, 2/22, p.64
4. Parts made in one step via investment casting, 3/8, p.46
5. HERF: It's time for another look at spark, magnetic forming, 3/22, p.70
6. Automatic assembly, you know longer have to be 'big' to use it, 4/12, p.54
7. Ultrasonic metal forming inching toward full shop status, 4/26, p.48
8. Man-computer teams add new dimension to design, 5/10, p.79
9. Plasma coating: Tailored solution for more jobs, 5/24, p.81
10. Ultrasonic tests assure 'sound' parts, 6/14, p.55
11. Abrasives get bigger share of chipmaking business, 6/21, p.71

STEEL Features (Productivity Gap):
1. How inefficient is your turning equipment? 2/15, p.57
2. Eight ways 'average' grinders lag technology, 3/1, p.35
3. Press builders stamp out costs three ways: Speed, accuracy, automation, 3/29, p.122
4. New routes to tapping, threading shortcut costs, 4/19, p.111
5. Is your boring and drilling equipment really good enough? 5/3, p.67
6. What you can gain by replacing average age milling machines, 5/31, p.43
7. Old cutoff equipment can slice into profits, 6/21, p.76

Steel Founders' Society of America:

Temperatures:
Germanium resistance thermometer calibrates in cryogenic temperature range, 6/14, p.71
Immersion type pyrometers, taking steel temp., TO, 5/17, p.20
Temperature head controls vacuum degassing time, 1/18, p.52
Whiteroom required to superprecision grind (fuel injection pump), temperature control, 5/24, p.90

Threading:
Carbide chasers speed pipe threading, 3/1, p.40
Homemade attachment improves threading (modified turret lathe at Army Arsenal), 3/1, p.45

Tin Plate:
M&T plant in Australia for detinning tin plate scrap, 1/4, p.51

Titanium:
1964 Record shipments, 1/11, p.29
Columnar grains formed during nitriding impair corrosion resistance, 1/18, p.18
Flow and wetting of metal surfaces aided by titanium vacuum coat, TO, 6/7, p.34
Titanium forging method for components ('Poodle Dog' design for helicopter jet engine mount), 1/4, p.45
Titanium sandwich panels, new roll welding process (researched by Battelle and Douglas Aircraft), 3/8, p.33
Titanium sheets for Phantom II fighter, short run stamping, 3/22, p.61

Tool Show Section:
Short run stampers long on technology, quality, 3/22, p.61

Tool Steels:
Free machining stainless Type 203 EZ ups cutting speeds, tool life, 6/14, p.76
Hardening process increases part life in steel mill (coupling boxes and spindles), 4/12, p.110
Titanium carbide coatings vapor deposited, 3/22, p.83

Tool & Diemakers:
Double pay for overtime called inflationary by Wright (NTDPM), 6/7, p.42

Tools & Dies:
Ceramic dies improve hot extruded shapes, 3/22, p.69
Heading and upsetting combined in machine, wire extrusions, 4/12, p.31
Heated forging dies add forming capability, cut number of steps (IIT Research Inst.), 5/6, p.112
Jewelform: This press makes its own dies, 6/7, p.115
NC diesinking potential cited, 3/22, p.83
Plastic tooling (for metal forming), sales outlook, 6/21, p.33
Reinforcing plastic dies with steel wires and rods, 5/10, p.34
Standard dies tailored for short runs (Die-Namic concept) 3/22, p.62
Steel rule dies, Frigidaire, 3/22, p.67
Urethane blocks in a compound die solves stripping problem, 6/7, p.49

Tools (Cutting):
Ceramic tools trim cost of turning steel parts: D. P. Hunt, Carborundum Co., 5/31, p.48
Ceramic cutting tool outlook, TO, 3/8, p.19
Copperdyne diamond wheel on chipbreaker ups carbide tool output, 5/10, p.136
Cutting tool guide, conventional tracer-lathe to cut elliptical cones, TO, 6/21, p.19
Drilling tool picks up its cuttings and stores in receptacle, TO, 5/3, p.20
Shaw casting makes better cutting tools, 3/22, p.69

Tracer Control: See STEEL Features

Trade Conferences:
Allis-Chalmers exporter cites events that shape U. S. trade, 6/7, p.45
Canada-U. S., expanded trade forecast by speaker, 6/14, p.18

Trade Relations:
Trade relations managers: Reciprocity—trade relations, there's a difference, 5/3, p.61

Trading: See Marketing

Training:
Chicago firms look to joint training program for sharper supervisors, 1/25, p.56
Douglas training for assemblers under Manpower Development & Training Act, 6/28, p.28
Foreman's role in training stressed at Cleveland seminar, 5/17, p.33
Pratt & Whitney: Training program converts salesmen into marketers, 2/1, p.32
Timken maintains technicians via co-op training course at Tri-State College, Ind., 5/31, p.35
UAW-Tuma stresses skill training should be bargainable (points provision in Chrysler settlement), 2/8, p.122
Vocational training, Chamber of Commerce seeks slash in LBJ budget, 6/14, p.18

Transportation:
Auto-trucks, impact on industrial plant dispersion, 4/5, p.112
Detroit eyes novel transit system, electromagnetic track in overhead carrying tube, two passengers (Teletrans concept), 5/3, p.109
Jap rail line, fast service between cities, 3/15, p.52
Magnetic 'highway' may carry commuters, 2/22, p.33
Mass transit markets spending, next 15 years: Schaefer (Wabco) speaks at Detroit Economic Club, 1/25, p.29
Rapid transit, estimated markets next 15 years, 4/19, p.35
Rapid transit systems, where markets are developing, location and status, 4/12, p.28
Rapid transit, executive interest (public affairs) stressed, 4/26, p.28
Rapid transit: 40 systems by turn of century forecast by CTS Hyde, 5/24, p.33
Rapid transit train (Alcoa model), San Francisco, 6/28, p.36
San Francisco, computerized transit system, 4/12, p.28
Transportation planning, new direction needed: Paden, Midwest Research Inst., 6/7, p.132

Trucks, Trailers:
Stainless trucktrailer offers long life (Ohio Body Mfg.), 3/15, p.99

Tube Mills:
AMF-Thermatool, resistance tube welder has short seam, speed, 5/17, p.31
Refrigerator tube mill bridges speed, cleanliness gaps (Yoder mill at Franklin Appliance, Ont.), 3/1, p.44

Tubing: See Pipe, Tubing

Tungsten:
Foundries evaluate tungsten (substitute for molybdenum) for strengthening iron, 4/26, p.54
Tungsten composite 25 to 60 times stronger, 6/28, p.17
Tungsten welds get stronger, 3/15, p.101

Turbines:
298,000 lb stainless steel ingot start for rotorshaft forging, 3/22, p.77
Gas turbines provide total plant energy at American Meter, 3/22, p.31
U. S.-British firms study beryllium turbine engine parts, 6/21, p.31

U

Ultrasonics:
Article: Ultrasonic metal forming inching toward full shop status, 4/26, p.48
Article: Ultrasonic tests assure 'sound' parts, 6/14, p.55
Colored readout technique aids ultrasonic analysis of castings at Army's Rock Island Arsenal, 3/15, p.104
Metal parts deburred with combination ultrasonics - chemical etchant, 3/1, p.41
Pulse-Echo, ultrasonic test for flaws, 4/5, p.31
Pulse-Echo tech. identifies steels for Army, 6/7, p.141
Research labs widen use of ultrasonic devices, 6/7, p.141
Ultrasonic machine tools, clean pump nozzle, TO, 4/12, p.20
Ultrasonic tests material handling vacuum system, portable unit, 4/26, p.33
Ultrasonic test, mechanical maintenance jobs, 5/3, p.85
Ultrasonic test for structural-building welds (Lincoln Center), 3/29, p.18

University of Illinois:
Engineering college, new look, 3/8, p.18

University of Michigan:
Odiorne: Job hopping middle managers, how serious a problem, 4/26, p.29

Uranium:
Uranium foil elements cut reactor cost, 1/4, p.136

Used Tools: See Machine Tool Industry

V

Vacations:
Executive views vacation shutdown as useful, 5/24, p.34

Vacuum Furnaces:
AISI paper: Vacuum stream degassing, 5/31, p.26
Degassing time controlled by temperature head, English firm, 1/18, p.52
Square heat zone ups capacity, 2/8, p.49
Vacuum arc furnace melts 30 x 60 in. ingots (Lectromelt), 1/25, p.33
Vacuum furnace automatically converts powdered materials into hardened carbide (Firth Sterling), 4/19, p.51

Value Added by Manufacture: See Productivity

Valves:
Ball and cylinder valve needs no lube, TO, 6/14, p.20
Metal for valves, NASA, TO, 3/1, p.20
Plastic valves handle corrosive materials, 3/8, p.64
Pump valves for sea water service, aerospace alloy (Armco stainless) solves problem, 2/1, p.44

Vanadium:
Chlorination process for recovery of vanadium from converter slags (Russia), 4/5, p.72

Vapor Deposition:
New plastic films (Parylene) applied in heated vapor form (toughness), 2/22, p.18
Plating metal with tungsten via vapor phase, TO, 4/5, p.20
Polymeric film deposited from vapor phase, 3/1, p.46
Titanium carbide coat vapor deposited on tool steels, 3/22, p.83
Vacuum vapor line-pilot stage, J&L Graham Research Lab, 3/29, p.35

Vibratory Equipment:
Eriez gets ideas from suppliers' conference, 4/12, p.63
Damper system reduces long power transmission shaft vibration, 5/24, p.47

W

Wage-Price Guidelines: See Productivity

Wages:
1964 average hourly earnings in selected industries, 4/26, p.26
Double pay for overtime called inflationary by Wright (NTDPM), p.7, p.42
Metalworking overtime climbs to postwar high, 3/15, p.153

Warehousing, Distribution:
SSCI and members consensus: Regulars come first in case of steel strike, 4/19, p.41
Semiautomatic warehousing trend, TO, 5/24, p.35
Service center wholesaling gains in Europe, 3/8, p.29

Wastes:
Approaches (two) used in waste heat disposal for BOF and Kaldo units (English firm), 5/10, p.92

Water:
Nuclear power-salt water conversion process that also generates salable electricity (H. K. Ferguson), 2/15, p.29

Water Pollution:
Chicago area tightens pollution control to abate bacteria, 3/15, p.34
Indiana-Illinois officials meet with Celebreeze for pollution action, 2/15, p.19; deadline set, 4/26, p.17
Mahoning River mills pollution problem, pressure from federal government, 2/22, p.26
Nalco 390 series checks corrosion, fouling in open recirculating water system, 2/8, p.132

Waterways:
Engineers recommend canal construction, connecting Ohio River and Lake Erie, 3/8, p.28

Welded Steel Tube Institute Inc.:
Moves offices, B, 3/22, p.36

Welding (Arc):
Construction costs cut by three welding units, Kansas City, 4/19, p.110
Intense arc (halfway between EB and Heliarc (TIG) unit, TO, 2/8, p.36
Japanese variation of gas shielded arcwelding, TO, 4/19, p.35
Manual welding technique, 5/31, p.46
Marshall Space Center improves welds, TO, 2/1, p.19
Nuclear fuel vessel requires three welding methods, submerged arc, gas shielded and stick electrode, 4/19, p.116
Optical device controls weld arc, TO, 4/19, p.36
Porosity in Mig and submerged arc welds in "T-1" steel is acceptable, 3/22, p.86
Shielded arc tests weld wire mettle, pictured in construction of World's Fair Unisphere, 4/19, p.114
'Short arc' welder cuts tankbuilder's costs, 6/14, p.78
Submerged arc and MIG units cut welding time (glass lined storage vessels), 4/12, p.67
TIG AC (balanced wave) welding joins missile alloys, 3/22, p.83
Trim fastened with nylon, stainless studs, 2/15, p.66
Vertical welding (Linde) speeded by 'motionless' machine, 4/19, p.106

Welding (Diffusion):
Needed: Machines for diffusion bonding, 4/19, p.108

Welding (Electron Beam):
Sciaky officials explain: Electron beam welding fulfills 'industrial tool' role, 2/1, p.38

Welding (Explosive):
Advantages cited for explosive welding (Battelle's Carson), 3/1, p.30
Explosive welding's getting safer to handle, report at ASTME seminar, 4/26, p.59

Welding (Friction):
Flywheel cuts time in welding, 4/19, p.128

Welding (Plasma):
ASTME speaker, notes on plasma welding, TO, 4/5, p.20
Is plasma better than oxyacetylene, 4/19, p.122
Tough jobs economical via plasma welding, 3/22, p.68

Welding (Pressure):
Japanese Institute: Lining steel with titanium using two pressure methods—resistance and ultrasonic, TO, 4/19, p.36

Welding (Resistance):
Resistance tube welder has speed, short seam, 5/17, p.31

Welding (Roll):
New process cuts cost of titanium sandwich panels, 3/8, p.33

Welding (Spotweld):
Refractory metals cooled with liquid nitrogen, TO, 3/29, p.20

Welding (Stud):
Auto fastener market eyed by studwelders, 3/29, p.147

Welding (Thermochemical Reduction):
Tungsten welds, high strength, 3/15, p.101

Welding Show:
Automatic control of welding (x-rays, electromagnetics) predicted by Dr. McMaster, Ohio State Univ., 5/10, p.95
Automation trend (feature), 4/19, p.102
Automation, friction welder, other highlights, 5/3, p.28
Gatzek (conference speaker): Better arc control needed for rockets, TO, 4/26, p.20
Move away from stick electrode remains major trend in welding, 4/19, p.102

Wire:
Fine wires have glass coating, TO, 5/3, p.20
Small diameter beryllium wire, 3/15, p.35
Welding wire, shielded arc tests, 4/19, p.114

Wire Mesh:
Tungsten mesh heating elements, longer life in sintering and annealing, 3/22, p.28
Wire mesh forms furnace heating element, Lewis Research, 3/29, p.128

Worktables:
Boeing's 34 ft diameter worktable (Saturn parts) unusually accurate, 3/15, p.115

Work Force: See Employment

X

X-rays:
Instant x-ray inspection (Tokyo), TO, 2/1, p.20
Lockheed computer aids nondestructive test, reads x-ray films to detect flaws in welded seams, 1/25, p.17
Lockheed computer tech. cuts x-ray reader time, 4/12, p.51
Olin gage measures thickness of finished sheet, 4/26, p.18
Personnel subject to excessive dosages, better protection, 2/1, p.18
Thin film x-raying, diffraction tech., even when forming in vacuum, TO, 2/8, p.35
X-ray and TV test for line pipe welds, 1/18, p.48
X-ray diffraction camera, 1.5 million psi, 1/18, p.20
X-rays, electromagnetics automate weld control, 5/10, p.95

Y

Yugoslavia: See Foreign Markets

Z

Zero Defect Programs:
Parker-Hannifin: A positive approach to zero defects—pride in performance (employee-supplier-customer meeting), 5/31, p.51

Author Index

Hunt, Donald P., Carborundum Co., Ceramic Cutting Tools Bonded Abrasives Div.: Ceramic tools trim cost of turning steel parts, 5/31, p.48

MacDougall, Edwin R., Babcock & Wilcox Co.: Double drawing improves steel tubing quality, 4/26, p.62

Pollock, Charles, Norton Co.: Tests show best grit sizes for finishing and machining, 6/14, p.60

Richards, Thomas Z., Norton Co.: Tips on grinding refractory metals, 2/22, p.68

Wright, F. M., Pittsburgh Plate Glass Co.: Fiber glass reinforced plastics popping up in new areas, 5/24, p.87

COMPANY INDEX

A

Abar Corp.:
High speed quenching for vacuum furnace, IE, 4/26, p.114
Newly patented heating element for vacuum furnaces, IE, 1/25, p.111
Square heat zone ups vacuum furnace capacity, 2/8, p.49

Abrado Finish Corp.:
Vibratory finishers for small lots, IE, 1/4, p.231

Abrax Instrument Corp.:
Electric thermometers, self-calibrating, IE, 5/24, p.173

ACF Industries Inc.:
23 arcwelders apply 100 ft of welds in minutes, 5/3, p.28
Hopkins' plan to shortcut steel pricing policy (nominal price protection), 5/31, p.31
Railroad car baked by rotisserie method, automated oven heated by 2500 bulbs and quartz lights, 2/8, p.125

Accurate Diamond Tool Corp.:
Moves, B, 3/22, p.36

Ace-Sycamore Inc.:
Spotwelder for small parts, IE, 2/1, p.78

Acheson Colloids Co.:
Dry film lubricant resists weathering, IE, 5/10, p.144
Lubricant for cold chamber diecasting machines, IE, 6/28, p.112

Acme Chain Corp.:
Longer life for stainless roller chains (precipitation hardening) food and packaging machinery use, 3/8, p.63

Acme Eagle Corp.:
Merged, B, 4/26, p.36

Acme Quality Paints Inc.:
Chem-Grip process, conversion coatings on small lot basis, 4/12, p.67

Acoustica Associates Inc.:
Ultrasonic cleaning systems, IE, 4/26, p.116

Acton Laboratories Inc.:
Spectrometer for research in far infrared, IE, 6/28, p.112

Adams & Westlake Co.:
Buys Desco Metals, B, 4/26, p.36

Adhesive Engineering Co.:
Epoxy adhesives and coatings, short curing time, TO, 3/8, p.20
Underwater curing epoxies, bond-seal-coat, 1/18, p.41

Aerojet-General Corp.:
Oxygen and water from rocks, feasible, 5/31, p.19

Aeroprojects Inc.:
Ultrasonics help metal powder forming, 4/26, p.50

Airborne Accessories Corp.:
Instruments control process variables, IE, 5/17, p.111

Airborne Instrument Laboratory:
Superprecise laser yardstick a step ahead of gage blocks, 6/7, p.111

Air Products & Chemicals Inc.:
Aluminum tubing in shell aids production of helium from natural gas, 3/8, p.36
Builds oxygen plant, Granite City, B, 3/29, p.35
Builds industrial gas facility at Weirton, B, 5/24, p.52

Air Reduction Co. Inc.:
Builds oxygen-nitrogen plant, Fla., 5/3, p.36
Cryogenic piping for fluids, IE, 3/1, p.92
Is plasma better than oxy-acetylene: Paper given by Spies Jr., 4/19, p.122

Air Reduction Sales Co.:
Reorganizes into four divisions, B, 2/1, p.30

Ajax Magnethermic Corp.:
Builds roll foundry for Bethlehem, based on induction melt, 4/12, p.60
Vacuum systems economical, IE, 2/22, p.121
Vertical scanner hardens axles by induction, IE, 5/3, p.130

Ajax Mfg. Co.:
Machine automatically end forges housings, IE, 3/1, p.85

Alan Wood Steel Co.:
Expansion program ($15.5 million) plan aims at plate finishing and shipping facilities, 1/18, p.30
Oxygen melting facilities, 5/3, p.35
USW agreement, total job security, expands SUB, 1/18, p.25

Alco Products Inc.:
Now subsidiary of Worthington, B, 1/25, p.36

Alert Supply Co.:
Benefits of mineral traces cited for nickel salts in fluid form, IE, 3/1, p.92

Algoma Steel Corp. Ltd.:
Continuous casting unit ordered for dogbone shapes, 5/31, p.17

All Metal Distributors Inc.:
Formed, B, 6/7, p.52

All Metals Inc.:
Organized, B, 4/5, p.36

Allegheny Ladlum Steel Corp.:
Annual meeting: Hanley reports cost of ultimate steel labor settlement, 6/7, p.33
Contracts Dravo for basic oxygen steelmaking plant at Natrona, Pa., B, 1/25, p.36
Free machining stainless—Type 203 EZ passes rigorous tests, 6/14, p.76

Alliance Carolina Tool & Mold Corp.:
Formed, B, 5/24, p.52

Allied Chemical Corp.:
Nylon film resists Autoclave temperatures, IE, 4/12, p.116

Allied Engineering & Production Corp.:
High temp furnace, 2500° F, IE, 5/17, p.107

Allied Products Corp.:
Merges Acme Eagle, 4/26, p.36

Allis Co., Louis:
Forms Advanced Products Div., B, 5/3, p.36

Allis-Chalmers Mfg. Co.:
Appleton Works new name for Valley Iron, B, 2/1, p.30
Builds ore pelletizing plant, Minn., for U. S. Steel, 3/1, p.31
Expands Norwood, O., plant, 1/18, p.31
Extensiometer provides temper mill control, IE, 1/18, p.95
Fork truck, multispeed lift, IE, 5/10, p.142
Frame motors fan cooled, enclosed, 4/19, p.189
Fuel cells, experimental use, TO, 5/10, p.36
Induction motor (Versapac line of squirrel cage), 2/1, p.28
Infrared gas oven combines heating, drying, 3/8, p.31
Lift trucks, electronic drive control, IE, 5/17, p.108
Motors designed for dependability, life, IE, 3/29, p.172
Tractor loader uses various tools, 3/22, p.36

Allis-Chalmers International:
Exporter cites events that shape U. S. trade, 6/7, p.45

All-State Welding Alloys Co. Inc.:
Aluminum electrode, stable arc actin, IE, 5/17, p.108

Allsteel Press Co.:
Hydraulic press shipped on 14 flatcars, 2/8, p.126

Alpha Magnetics Corp.:
Permanent magnet can be switched, 2/8, p.113

Alpha-Molykote Corp.:
Solid lubricant coating extends tap life, 2/22, p.72

Alumi-Span Inc.:
Formed, B, 2/1, p.30

Aluminium Ltd.:
Federal judge backs acquisitions (fabricating facilities), 1/11, p.17

Aluminum Co. of America:
Aluminum sheet solves enameling problems, 5/10, p.49
Develops coiled sheet alloy, automakers use, 4/5, p.96
Installs 3rd potline at Warrick, B, 3/8, p.36
Litchfield: Annual report, speak on price outlook, 4/5, p.19
Price boost, coiled sheet, 2/22, p.18
Rapid transit train, prototype model, for San Francisco, 6/28, p.36

Alva Allen Industries:
Deep throat power punch, IE, 1/25, p.106

Alvey Conveyor Mfg. Co.:
Vacuum arms on dual head handler, sheet-leveler, IE, 1/11, p.87
Windshield handling conveyor, IE, 5/10, p.148

Amchem Products Inc.:
Automated prepaint coating line for GM, 6/14, p.33
Buys Sno-Flake Products, B, 2/8, p.52
Chemical coating-liquor finish by immersion process, IE, 4/26, p.111
Liquid Granodine coats both zinc and steel surfaces simultaneously, IE, 6/7, p.186
Liquid corrosion protection, IE, 2/22, p.125

AMF-Thermatool Inc.:
Resistance tube welder has speed, short seam, 5/17, p.31

Amerace Corp.:
Enters plastics field, Ind. plant, B, 6/14, p.36

American Brake Shoe Co.:
Consolidates divisions into new unit, Engineered Products Div., 1/18, p.32

American Can Co.:
Labor pact compared with steel firm, 3/29, p.26

American Chain & Cable Co. Inc.:
Mansaver Div. moves, B, 3/22, p.36

American Cyanamid Co.:
Dr. Bell addresses AMA: Market research-aid to new product development, 2/1, p.26

American Electric Fusion Corp.:
Flying cutoff saws square tubes, IE, 1/18, p.98

American Grease Stick Co.:
Lubricant for use on O-ring assemblies, IE, 6/14, p.127

American Hoist & Derrick Co.:
Buys Harris Foundry, (Harris Press & Shear), 1/4, p.52
Merger proposed with Poor & Co., B, 3/29, p.36

American Induction Heating Corp.:
Formed, B, 4/19, p.52

American Koyo Corp.:
Moves headquarters, B, 3/22, p.36

American Machine & Foundry Co.:
Combines liquid-conditioning operations, 1/11, p.36
Flywheel cuts time in friction welding, 4/19, p.128

American Metal Climax Inc.:
Joint ore project in Missouri with Homestake Mining, 2/22, p.35

American Metal Products Co.:
Buys Middletown Mfg., B, 5/10, p.52

American Meter Co.:
Gas turbines provide total plant energy, 3/22, p.31

American Monorail Co.:
Sold to May-Fran, B, 3/8, p.36

American Motors Corp.:
Marlin introduced, Abernethy (president) looks for new market, 2/15, p.97
Safety devices may win more sales, 6/14, p.103

American Pullmax Co.:
Automatic tracer controls, accurately cuts shapes, IE, 1/25, p.101

American Safety Equipment Co.:
Buys Acme Polishing, B, 3/29, p.36

American Solder & Flux Co.:
Zinc coat protects welds, IE, 5/3, p.135

American Viscose:
Pneumatic tensioner, IE, 3/8, p.102

American Zinc, Lead & Smelting Co.:
Moves offices, B, 6/7, p.52

Ametek Inc.:
Riehle Div.: Brinell tester for Cadillac (crankshafts), 1/18, p.32

Anaconda Co.:
Australian subsidiary, B, 4/26, p.35

Anaconda American Brass Co.:
Brassmaker anticipates customers' needs, 6/28, p.64

Anchor Steel & Conveyor Co.:
Hegelman: Customers aware of need to order equipment early, 2/8, p.33

Andrew Engineering Co.:
Servo table controlled by photoelectric eye, IE, 2/1, p.84

Anglo-American Corp.:
Steel-vanadium project, South Africa, 2/15, p.18

Anocut Engineering Co.:
Silicon controlled rectifiers boon to ECM, 5/3, p.18

Ampex Corp.:
System frees computers from cardtape conversion, IE, 6/28, p.107

Apex Trading Corp.:
Formed, B, 5/3, p.36

API Inc.:
Strip hardness tester in fast cycle annealing, 6/21, p.80

Applied Lasers Inc.:
Laser welds, drills precision holes, IE, 5/3, p.137

Arcee Foundry:
Investment casting method (lost wax, ceramic shell) for Saturn heat shield, 3/22, p.31

Arcos Corp.:
Welding wire feeder, IE, 3/15, p.170

Aremco Products Inc.:
Ceramic cement (Cerramabond), IE, 5/31, p.94

Armco Steel Corp.:
Armco 15-5 PH stainless has improved ductility, 5/24, p.49
Armco 17-4 PH stainless (aerospace) for pressure pump valves, sea water service, 2/1, p.44
Carbide chasers speed pipe threading, 3/1, p.40
Consolidates industrial engineering services, B, 6/28, p.36
Continuous casting via curved molds debuts at Sand Springs, Okla., Wks., 5/17, p.35
Curved mold (D-M-B) unit, Sand Springs, Okla., Wks., 6/7, p.136
Curved mold unit described by Burcham at AISI, 5/31, p.27
Double-arm stacker speeds stockpiling, Houston Wks., 3/15, p.51
Expansion, Middletown Works, B, 5/24, p.52
Harmon (economic analyst) study shows ingot yield decline, 2/22, p.25

Armour & Co.:
Buying B-L-H, 4/19, p.52
Forms Armour Abrasives, 1/11, p.36

Armstrong Co.:
Adhesive bonds vinyl-metal laminates, IE, 2/8, p.184

Arno Adhesive Tapes Inc.:
Strapping tape meets tensile strength needs, IE, 2/8, p.182

Arwood Corp.:
Investment casting tech., 3/8, p.48

Assembly Engineers Inc.:
Co-Check X and Y measuring unit, 3/1, p.42

Assembly Products Inc.:
Changes name to API Instruments, 1/25, p.36
Load Sentry protects motors against overloads, IE, 1/11, p.95

Associated Spring Corp.:
Buys Bowman Products, B, 1/4, p.52

Astrosonics Inc.:
Ratio meters measure stretch, shrink, slippage of materials during fabrications, IE, 2/22, p.117

Atherton & Co.:
Automatic palletizer, 18 bags in minutes, IE, 3/15, p.176

Atkins Saw Co.:
Blade pack reduces packaging cost, 3/8, p.58

Atlas Press Co.:
Lathe-14 in., four features, IE, 5/24, p.164

Atlas Steels Co.:
Curved mold, continuous slab casting unit ordered from Concast, 5/24, p.51
Curved mold unit casts 5 in. slabs (article), 6/7, p.116
Curved mold unit (AISI report), 5/31, p.27

Austenal Co.:
Investment casting, new tech., 3/8, p.48

Automatic Electric Co.:
Package combines corrugated box and polyurethane foam, 6/28, p.59

Automatic Sprinkler Corp. of America:
Buys Badger Fire Extinguisher, 4/19, p.52
Buys Safety Homes, B, 2/8, p.52

Automation Industries Inc.:
Sperry Products: 40 ft billets checked at production speeds, IE, 6/7, p.179
Sperry Products: Ultrasonic analysis system with colored readout for Ordnance castings, 3/15, p.104

Avco Corp.:
Acquiring Bay State Abrasives, 2/22, p.35
Silicon carbides and copper combination (photomicrograph) for surface of disc brakes, 1/4, p.139

Avnet Electronics Corp.:
Changes name, Avnet Inc., B, 1/25, p.36

B

Babcock & Wilcox Co.:
Buys Standard Refractories Ltd., B, 3/22, p.36
Furnace to heat treat huge nuclear vessels, 5/24, p.49
Large package boiler minimizes steam costs, IE, 3/1, p.84
Steel tubing, double drawing improves quality: E. R. MacDougall, 4/26, p.62
Transfer machine works cylinder heads, 1/18, p.31

Bacharach Industrial Instrument Co.:
Buys Johnson-Williams, B, 3/22, p.36

Bailey Meter Co.:
Multi-Computer control, IE, 1/4, p.232

Baker Bros. Inc.:
20 station transfer machine speeds output of disc brake calipers, 6/14, p.75
Automatic, overhead, transfer machine (brake discs), IE, 3/1, p.91

Baldwin-Lima-Hamilton Corp.:
Armour may buy, B, 4/19, p.52

Bannock Steel Corp.:
Buys Marsh Steel & Aluminum, B, 6/28, p.36

Barden Corp.:
Buys American Powdered Metals, B, 4/12, p.35

Barden & Oliver Inc.:
Carbide tooling, 6/21, p.78

Barnes Drill Co.:
Special machine displays flexibility, IE, 2/22, p.117
Special for crankshaft builder, IE, 4/26, p.111
Trunnion unit works axleshafts, IE, 5/31, p.94
Unit drills, spotfaces, taps, IE, 4/5, p.114

Barnes Engineering Co.:
Infrared camera detects hot spots in plant facilities, 5/3, p.80

Barnes Works, W. F. & John:
Six spindle faces valve seats, gun bores stem holes, IE, 4/26, p.116
Transfer machine for B&W, 1/18, p.31
Work fixtures up efficiency of rotary table machine, IE, 1/18, p.90

Basic Inc.:
BOF refractory brick-dolomite grain, IE, 6/21, p.124

Basic Products Corp.:
Roller hearth furnace for Stellite, IE, 1/25, p.110

Basic Refractories & Chemicals:
Flotation equipment removes impurities from a magnesite ore, 4/12, p.48

Bausch & Lomb Inc.:
Helium neon laser, IE, 4/26, p.120
Linear measuring unit aids machine tools, IE, 3/8, p.101
Spectrograph offers more photographic speed, IE, 2/8, p.178

Bay State Abrasive Products Co.:
Acquired as a division by Avco, 2/22, p.35
Copperdyne diamond wheels for chipbreaker grinding, 5/10, p.136

Beals, McCarthy & Rogers Inc.:
Customers get data transmission equipment, 2/22, p.58

Beaver Precision Products Inc.:
Recirculating bearings, IE, 2/15, p.118

Beckett-Harcum Co.:
Solenoid poppet valves, IE, 1/25, p.102

Behr-Manning: See Norton Co.

Bell Inc., F. W.:
Magnetic checks metals, coatings, flaws, IE, 5/24, p.163

Bell & Howell Co.:
Automatic self-threading projector, IE, 2/22, p.125
Lincoln address: New look for packaging engineer, 5/17, p.55
Percy: Free trade still a distant goal, predicts 1980 overseas profits, 5/3, p.18

Bell Aerospace Corp.:
Defense grant for advanced materials research, 4/5, p.17

Bell Telephone Laboratories:
Magnetic films plated on wire substrate for memory systems, 1/18, p.20

Bel-Ray Co. Inc.:
Rust preventive resists salt water, IE, 6/21, p.134

Benchmaster Mfg. Co.:
Machine feeds measured flat, contoured strip, IE, 5/24, p.176
Punch presses: Master Quality and Economy lines, IE, 4/12, p.121

Bendix Corp.:
Buys United Geophysical, B, 6/7, p.52
Contouring system has parabolic interpolation, IE, 3/1, p.90
Disc brake calipers speeded by 20 station transfer machine, 6/14, p.75
Gage measures roundness, IE, 4/5, p.120
Magnetic tape contouring NC for $10,000, 3/22, p.27
Proficorder, IE, 5/31, p.96

Beryllium Corp.:
Beryllium sheets rolled directly from ingots, 2/22, p.33
New beryllium copper alloy is free machining, 5/3, p.72

Besly-Welles Corp.:
Automated salt bath, heat treat system, 6/14, p.59

Bethlehem Steel Corp.:
Burns Harbor plant, first unit completed, 2/1, p.29
Changes name of Metallurgical Coatings section to Sheet & Tin Mill Product Research, B, 2/15, p.32
Chromium-coated sheet steel developed, 5/24, p.51
Computerized communications relay system (customer order entry), 2/8, p.52
DC substation gets rugged test in coal field, 4/5, p.74
Hot rolled sandwich panels, 3/8, p.33
Hot slabs shipped via 500 mile rail route, 5/17, p.33
Lackawanna plant gets 3rd oxygen unit, 5/10, p.51
Lackawanna plant expansion, 6/14, p.33
Merges Bethlehem Steel Co. and Bethlehem Limestone, 1/4, p.51
Ore pellets shipped from Canada's Port of Sept Isles (don't freeze), 2/22, p.20
Power cables in steel plant have ladder support system, 3/15, p.105
Rod mill constructed at Sparrows Pt., 5/3, p.35
Roll foundry based on induction (Ajax), 4/12, p.60
Shipping tag, laminated Mylar, 3/8, p.58
X-ray and TV (NDT) testing of line pipe welds, 1/18, p.48

Binks Mfg. Co.:
Airless system sprays foams, coatings, IE, 5/24, p.166
Extractor prevents paint rejects caused by improper air regulation, IE, 5/17, p.111
Gun atomized paint, hydraulic pressure, IE, 2/15, p.119
Spray gun for industrial painting withstands abrasives, IE, 3/15, p.176

Bissell Inc.:
Buys Wood Shovel, B, 1/25, p.36

Black & Decker Mfg. Co.:
Task forces tackle customer needs, product development, 6/14, p.64

Black Clawson Co.:
Sells Canadian Sumner Iron Wks., 2/22, p.36

Black-Clawson International Ltd.:
Scott addresses East-West trade session in New York, 5/24, p.45

Blackstone Corp.:
Ultrasonic cleaning unit, IE, 3/29, p.170 and 4/19, p.183

Blaw-Knox Co.:
Automated foundry sand handling system, 5/10, p.49
Compact straightener has pressure loading, IE, 2/8, p.184

Bliss & Laughlin Industries:
Buys Goldblatt Tool, B, 4/19, p.52

Bliss Co., E. W.:
Builds lead extrusion press for Goodyear's hose plant, Ill., 6/7, p.52
Coil tilter aids in storage, IE, 5/3, p.133

Bodine Electric Co.:
Gear motor, overhung loads, IE, 5/17, p.102

Boeing Co.:
34 ft diameter worktable-accurate (for Saturn vehicles), 3/15, p.115
AeroSpace Div., self-lubricating bearings and gears, 3/15, p.101
Eddy current test, aluminum hydraulic fittings, 6/7, p.129
Giant torture machine tests SST wing pivot, 5/17, p.54
Optical tooling instrument sets 3 lines-of-sight, 5/3, p.36

Boggis Co., Henry P.:
Cutter grinder, relieving fixture displayed, IE, 3/22, p.129

Boice Gages Inc.:
Gaging apparatus, accuracy, IE, 3/22, p.130

Borg-Warner Corp.:
Combines departments to form B-W Thermoelectrics, B, 3/1, p.32
Marbon Chemical Div., develops sports car (960 lb), Centaur-CRV, vacuum formed body, 1/18, p.78
Marbon Chemical: ABS plastics, 3/29, p.33

Boston Gear Works:
Speed reducer design, 895 mounting options, IE, 4/26, p.114

Bradley & Vrooman Co.:
Roll coat vinyl, IE, 6/14, p.127

Branson Instruments Inc.:
Sold, B, 1/25, p.36
Ultrasonic probe checks hardness (electromechanical principle), 3/8, p.104

Bridgeport Brass Co.:
Copper, nickel, silicon alloy hardenable after severe forming (contact springs and other electrical products), 2/1, p.46

Bridgeport Machines Inc.:
Machine traces directly from drawing, IE, 5/7, p.99

Bridgeport Metal Goods Mfg. Co.:
Trick halves riveting cost (fastening nameplates on curved shells of flashlights), 2/8, p.112

Brown & Sharpe Mfg. Co.:
Hydrotape machine drills, bores, taps, mills, IE, 4/26, p.107

Sharpe sees speedup in technological change, speaking at dedication of Precision Park, 1/25, p.35
Signal Light Amplifier for automatic gaging, sorting, IE, 2/1, p.77
Ultramatic, a No. 2 screw machine improved, IE, 4/19, p.192

Brush Instruments: See Clevite

Budd Co.:
Stainless steel in construction of railway cars: Study benefits all stainless users, 1/25, p.60
Ultrasonic tester built for North American, Space Div., 6/14, p.55

Buhr Machine Tool Co.:
In-line transfer machine machines diesel engine cylinder heads for Chrysler-Cummings Ltd., IE, 6/14, p.116

Bullard Co.:
Automatic N/C (Templa-Turn) on chucking machine, 1/25, p.33

Bunker-Ramo Corp.:
Contour control unit for turret lathe, IE, 3/1, p.82
Miller combined with Gorton NC, 4/26, p.108

Burroughs Corp.:
Accounting machine, computerlike ability, IE, 5/10, p.145
Office computer now used on shop floors, direct order invoicing, 2/8, p.34
UAW seeks whitecollar vote, Detroit, 6/14, p.29

Bux-Shrader Magnetic Products:
Magnetic drill bases operate in narrow space, IE, 1/25, p.111

C

Cadmet Corp.:
Ceramic cores up yield of investment castings, 1/25, p.35

Calumet & Hecla Inc.:
Forms Alamet Div., B, 4/12, p.36

Cammann Mfg. Co.:
Disintegrator unit, IE, 3/22, p.136

Canadian Aviation Electronics Ltd.:
Buys Canadian Sumner, B, 3/8, p.36

Canfield Steel Corp.:
To erect sheet coil electrogalvanizing mill at Gary, B, 3/8, p.36

Carborundum Co.:
Abrasive cutoff equipment, 6/21, p.76
Builds geodesic dome to house silicon carbide grain, 4/26, p.36
Buys Basic Carbon and Falls Industries, B, 1/25, p.36
Ceramic tools trim cost of turning steel parts: Donald P. Hunt, 5/31, p.48
Computer aided marketing plan, 3/29, p.31
Denison press cuts labor costs, sharpening stones for steel tools, 1/18, p.88
Forms new company with Climax Molybdenum, 5/31, p.36
Purchasing reorganized, 6/21, p.33
Sprayable ceramic fiber insulation, IE, 1/4, p.230
"Whiskers" available in quantities (crystal fibers), 2/8, p.49

Carpenter Steel Co.:
Stainless steel new (Custom-445) is strong, ductile, 2/15, p.112
Stainless steel new (heat treat Type 416), good machining material, 5/3, p.80

Carrier Corp.:
Horizontal welding machine tipped on edge (space saving), 2/15, p.60

Case Co., J. I.:
Reactivates Rock Island Wks., 5/24, p.52

Casting Engineers Inc.:
Precision investment cast parts, new service, 3/8, p.47

Castle & Co., A. M.:
Handling system reduces order selection time, cantilevered racks, storage trays, and Sideloader truck (tubular and bar stock), 3/22, p.81

Caterpillar Tractor Co.:
Blackie: Conclusions on Moscow visit, 1/18, p.17
Builds 1 million sq ft foundry, B, 1/25, p.35
Builds at York, Pa., to house Consolidated Screw Div., 4/5, p.36
Diamond wheel test program, 4/19, p.36
Predicts 'total energy' plants by 1970, generating electrical power on-site, 2/8, p.34
Welder makes use of friction generated between rotating surface and one held in fixture to bond the parts, IE, 5/10, p.137

Ceco Corp.:
Buys Milton Steel Div., B, 6/28, p.36
May install continuous casting facilities at Lemont, Ill., 3/29, p.35

Century-Detroit Corp.:
Hydrostatic table for toolroom, IE, 5/3, p.134

Century Sales Corp.:
Beyer, dual spindle, gun driller, IE, 3/22, p.123
Eight spindle gun drill, IE, 6/28, p.108

Cerro Sales Corp.:
New filler—Cerrobend (R) for bends in thin walled shapes, 1/4, p.47

Chase Brass & Copper Co.:
Contracts for bronze strip for production of pennies, 4/12, p.35

Chemetron Corp.:
Buys McGean Chemical, B, 6/7, p.52
National Cylinder builds air separation plant, Natrona, Pa., 5/3, p.36
National Cylinder expansion, Sharon, Pa., B, 6/21, p.36
Tube Turns: Adhesive joints process piping, 6/28, p.58

Chemical Contour Co.:
Merged into Automation Industries, B, 2/22, p.36

Cheston Co.:
Electrical resistance unit heats cold steel stock to forging temp. in seconds, 3/22, p.29

Chicago Bridge & Iron Co.:
Constructs Kaiser BOF, moved to permanent position from charging area, 6/28, p.66d

Chrysler Corp.:
Air conditioner, mixed air principle, 6/28, p.91
Buys Deluxe Die Works, 4/5, p.96
Buys Lone Star Boat Co., and outboard engine facilities of West Bend Co., 5/31, p.81
Capital expansions listed, 4/5, p.95
Computerized quality control checks, 2/15, p.98
Computer forecasts sales, TO, 6/14, p.19
Co-op with Labor and Commerce to train auto mechanics, 3/29, p.148
Cycleweld adhesives for systems assembly, 3/8, p.60
Dodge Dart production in Spain, 2/1, p.66
Foundry set for 1966 (Huber Avenue), will have four molding lines, Swedish electric furnaces, 2/8, p.116
Indianapolis foundry expanded, 4/12, p.36
Lyons plant office workers in UAW, 4/19, p.170
Nonglare enamel, 4/26, p.106
Townsend: Economic fluctuations to end, report to NAPA, 5/24, p.33
UAW and company hold early retirement training program, 5/31, p.82

Chrysler Canada Ltd.:
Buys Young Spring & Wire Ltd., 1/11, p.36

Cincinnati Lathe & Tool Co.:
Cintimatic NC turret drill used at Soroban Eng., 4/12, p.66
Eight spindle Cintimatic, adds productivity to line, IE, 3/1, p.81
Vertical knee and column milling machine (Cinmaster), IE, 1/25, p.108

Cincinnati Milling Machine Co.:
Cutter and tool grinder, changes improve performance, IE, 2/22, p.117
Electrodyne electrolytic grinder, challenger to traditional metal removal methods, 5/17, p.99
Electrolytic grinder straddles work, IE, 6/14, p.115
Expands facilities in U. S., abroad, 3/8, p.35
Grinder accuracy for valve spools (for Racine Hydraulics), 3/8, p.60
Hydroform, a fluid forming method for short and long runs, 3/22, p.64
Microcentric grinders for bearing race ODs, IE, 6/28, p.110
Surface grinding wheels overcome warpage, burning, IE, 5/17, p.104
Telematic II, machine tool cycle system, IE, 3/29, p.161
Tracer control, don't sound the death knell (onrush of NC effect): Kratohvil, 6/7, p.106
Traveling column millers, NC and tracer controls, IE, 2/15, p.113
Twin Grip centerless grinders, greater rigidity, 3/1, p.34

Cincinnati Shaper Co.:
Compacting press, 400 tons, IE, 3/15, p.173
Shear cycles automatically, IE, 3/22, p.124

Clair Mfg. Co. Inc.:
Abrasive belt option to finisher, IE, 6/7, p.190

Clark Equipment Co.:
Industrial Truck Div. opens Akron sales depot, B, 5/31, p.36
Metalizing counteracts wear on bearings, 1/18, p.50

Cleereman Machine Tool Corp.:
Special replaces entire line of drilling machines, IE, 4/5, p.120

Cleveland Automatic Machine Co.:
Pushbutton control for hot chamber, diecaster, IE, 5/10, p.151

Cleveland Cap Screw Co.:
Cold forges large bolt sizes, IE, 6/14, p.126

Cleveland-Cliffs Iron Co.:
Equipment contract to A-C, Empire mine, B, 6/7, p.52

Cleveland Crane & Engineering Co.:
Carrier (Telestack) automates material handling, 3/29, p.171
Mechanically operating long shear, IE, 4/26, p.107
Press brake drive, Steelweld Div., IE, 4/12, p.114
Shrink fitting an aluminum tank inside steel shell, 2/22, p.72

Cleveland Twist Drill Co.:
Drill delivers oil to cutting edges, IE, 5/10, p.140

Cleveland Vibrator Co.:
Electric-Magnetic feeder uses but does not transmit vibration, IE, 6/14, p.117

Cleveland Worm & Gear: See Eaton Mfg.

Clevite Corp.:
Brush Instruments: Modular concept for assembly of recording instrument, IE, 4/5, p.118
Brush Instruments: Specimen calibrates finish indicators, IE, 6/7, p.188
Cotabish: Don't overlook role of foreman in training, 5/17, p.33

Climax Molybdenum Co.:
Molybdates, corrosion inhibiting pigments, offer advantage to paint users, 6/21, p.122

Clow & Sons Inc., James B.:
Buys Anesite Co., B, 3/22, p.36
Reorganizes, four divisions, B, 2/15, p.32

Coldwater Metals Co.:
Buys Coldwater Brass, B, 6/7, p.52

Collins Machinery Corp.:
Pipe threader, 6 in. capacity, IE, 2/22, p.122

Columbus Coated Fabrics Co.:
Films for laminates, new line, IE, 3/15, p.168

Colorado Fuel & Iron Corp.:
Kaowool ceramic fiber blanket extends muffle tube life of furnace roof, 2/8, p.176

Combustion Engineering Inc.:
Installs gigantic furnace, Nuclear Components Div., Tenn. plant, 3/22, p.33

Commercial Tool & Die Co. Inc.:
Miter, chop saw, IE, 4/5, p.114

CompuDyne Corp.:
Three axis control combined with NC mill, IE, 5/17, p.100

Computer Usage Co.:
Glaser forecasts more user oriented computers, 1/25, p.18

Concast Inc.:
Curved mold, continuous slab casting unit for Atlas Steels, 5/24, p.51

Conco Engineering Works Inc.:
Buys Entech division, B, 2/15, p.32

Conforming Matrix Corp.:
Spray paint guns travel on cam track, IE, 2/15, p.120

Consett Iron Co. Ltd.:
Waste heat disposal, two approaches used, 5/10, p.92

Consolidated Aluminum Corp.:
Boosts New Johnsonville, Tenn., plant capacity, 4/5, p.35
Price raise on some aluminum sheet products, 2/15, p.17

Consolidated Baling Machine Co.:
Overhead loading, feature of baling machine, IE, 3/8, p.106

Consolidated Electrodynamics Corp.:
Moves Analytical & Control Div., B, 2/1, p.30
Thin film thermocouple, TO, 4/26, p.20

Container Stapling Corp.:
Bottom stapler handles triple wall containers, IE, 4/5, p.123

Continental Machines Inc.:
Hydraulic power units, IE, 5/24, p.167

Continental Motors Corp.:
Two spindle boring machine boosts output of aluminum aircraft engine crankcases, 5/31, p.35

Controls Co. of America:
Overseas operations guided by European 'board,' 5/10, p.45
Solid state control outlook, TO, 6/7, p.35

Cooke Vacuum Products Inc.:
Formed, B, 5/3, p.36

Copperweld Steel Co.:
Buys continuous casting unit (Birdsboro), 4/12, p.35
Expands plant facilities, B, 1/18, p.32

Corhart Refractories Co.:
Melts refractory materials and fusion casts them, Louisville plant, 4/12, p.49

Crane Co., H. W.:
Let suppliers help in analyzing troublesome parts, 6/28, p.58

Crane Packing Co.:
Lapmaster, portable bench model, IE, 4/5, p.115

Cross Co.:
Automatic assembly field, 1/4, p.212
Automatic assembly (transmission carrier components), 4/12, p.54
Special stresses changeover, accuracy, IE, 6/28, p.107
Transfer-Matic, rear axles assembled automatically, 2/22, p.100

Crown Industrial Products Co.:
Petroleum based lubricant, 'open chain oil,' IE, 6/28, p.108

Crucible Steel Co. of America:
Expands ceramic magnet plant, B, 6/21, p.36

Cummins Engine Co. Inc.:
Jointly owned firm, Jaguar-Cummins Ltd., 5/24, p.51
Solid lubricant coating for tapping machines, 2/22, p.72

Curtis Mfg. Co.:
Buys Consolidated Iron - Steel Mfg., 3/8, p.36

Curtiss-Wright Corp.:
Marquette Div., precision clutch line, IE, 3/22, p.137

Custom Machine Inc.:
Ultrasonic unit inspects tubes, bars, IE, 3/29, p.174

Cutler Federal Inc.:
Buys Robeson Cutlery, B, 6/7, p.52

Cutler-Hammer Inc.:
AIL Div.—Two tape, N/C guides turret punch press, 6/14, p.73
Belt weighing scale, IE, 2/1, p.79

Cyclops Corp.:
Empire Reeves expands galvanizing facilities, Dover, O., 5/31, p.35
Was Universal-Cyclops; divisions listed, 5/10, p.52

D

Darlington Mfg. Co.:
NLRB ruling on plant closing due to unionism, 4/5, p.17

Dayton Perforators Inc.:
Ball lock punch gages displayed, IE, 3/22, p.127

Decker Corp.:
Displacement transducer resolves minute dimensional changes, IE, 5/24, p.164
Microdifferential pressure transducer, IE, 3/29, p.166
Transducer measures pressure differentials, IE, 5/31, p.96

Deere & Co.:
Parts finish bored, 5/24, p.86

Deere Chemical Co., John:
Sold, B, 5/3, p.36

DeHoff Corp.:
Gun drill unit, 3 in. diameter, IE, 5/24, p.170

Delcon Corp.:
Ultrasound detector for mechanical maintenance jobs, 5/3, p.85
Ultrasonic-sensors convert vibrations into sound, 6/14, p.57

Delta Electric Co.:
Sold, B, 1/4, p.51

Delta Sonics Inc.:
Forms Inspection Systems Inc., B, 6/14, p.36
Metal parts deburred with combination of ultrasonics and chemical etchant, 3/1, p.41

Deluxe Die Works:
Sold to Ford, 4/5, p.96

Demag-Mannesman-Boehler:
Builds continuous casting units, 6/7, p.136

Denison Engineering Co.:
Compacting press for Carborundum (sharpens stones for steel tools), 1/18, p.88

Detroit Broach & Machine Co.:
Broacher has twin indexing stations, IE, 4/12, p.118
Tracer lathe simplifies gear machining, IE, 3/15, p.167

Detroit Filter Corp.:
Automatic indexing filter, Cyclematic, IE, 2/22, p.121

Detroit Hoist & Machine Co.:
Electric hoist line reduces frame components, IE, 1/11, p.90

Detroit Lime Co.:
Vertical kiln to make lime for BOF shops, 3/22, p.78

Detroit Steel Corp.:
Coke battery (70 oven), Portsmouth Div., 1/4, p.51

Deutsch & Sons Inc.:
Metal forming with plastic tooling, conference report, 6/21, p.33

DeVlieg Machine Co.:
Numerical control usage, 3/22, p.17

Di-Acro Corp.:
Punch press without distortion, IE, 3/29, p.168

Diamond Alkali Co.:
Acetal copolymer, IE, 5/3, p.137
Self-setting foundry binder (Exobond) for large castings, 5/10, p.138

Diamond Machine Tool Co.:
Stamping press has 18 x 28 in. bed, IE, 2/22, p.120

Diamond Power Specialty Corp.:
Soot-blower control panel shows solid state benefits, IE, 1/4, p.231

Dickerman Mfg. Co., E. E.:
Hydraulic press feed design, IE, 3/1, p.88

Disogrin Industries:
Urethane seals, packings line, IE, 2/15, p.119

Diversey Corp.:
Additive ends water spotting, IE, 2/8, p.181

DoAll Co.:
Automatic downfeed for surface grinders, IE, 3/29, p.168
Power bandsaws, new equipment, 6/21, p.78
Solid state ultrasonic cleaners, IE, 4/26, p.112

Dodge Mfg. Corp.:
Hydroil drives shaft mounted, IE, 5/24, p.168
Self-aligning pillow block with seals, IE, 5/10, p.148
Spring loaded adjustable speed V-belt drive, IE, 4/19, p.185

Doehler-Jarvis: See National Lead

Dominion Foundries & Steel Ltd.:
Expansion plans, $120 million plant, mine improvements, 5/10, p.50

Donray Products Co.:
Packaging concept using foamed polyethylene makes cushioning, 5/31, p.36

Dorr-Oliver Inc.:
Bonding dissimilar materials: Ceramic-metal composite takes heat and pressure, 3/15, p.106

Dorsey Gage Co.:
Hole gages tailored to special needs, IE, 3/22, p.126

Dosco Steel Ltd.:
Constructing two steel rolling mills, Que., 3/22, p.35

Douglas Aircraft Co. Inc.:
Bid to Highways Div. for study of transportation needs (Gov. Brown's program for applying space knowhow), 1/11, p.19
Contour milling plant enlarged, B, 6/21, p.35
Training program for assemblers under MDT Act, 6/28, p.28
Unit simulates sun in space, TO, 2/8, p.36

Dow Chemical Co.:
Cleaning solvent, chlorinated hydrocarbon, meets NASA specs, IE, 3/15, p.169
Conversion of burning operations from natural gas to MAPP gas speeds metal cutting, 6/7, p.126
Customer service NC at Precision Fabrication Services, Denver, 6/28, p.35
Expands Louisiana plant, B, 2/22, p.36
Metal dept. merged, B, 6/21, p.36
Polypropylene lines added, B, 3/8, p.35

Dow Corning Corp.:
Adhesive/sealant (fluorosilicone rubber type), 1/18, p.41
Alpha - Molykote, multipurpose grease, IE, 5/24, p.164
Machine evaluates boundary lubricants, bearing materials, IE, 6/7, p.188
Silicone adhesive, pressure sensitive, IE, 3/8, p.111
Silicone rubber sealant cures in deep sections, IE, 5/10, p.138

Dowd Box Co. Inc., Charles:
Corrugated boxes coated and impregnated with Saran latex, IE, 1/18, p.95

Dravo Construction Ltd.:
Dravo-Lurgi traveling grate pelletizing machine for Canadian plant, 2/8, p.130

Dravo Corp.:
May buy Gibbs & Hill, B, 4/19, p.52

Dreis & Krump Mfg. Co.:
Brakes, bending units, new lines, IE, 6/21, p.124
DeWolfe views vacation shutdowns as useful, 5/24, p.34

Drill Draulic Inc.:
Hydraulic power feed unit, IE, 1/18, p.97

Drillmation Co. Inc.:
Automatic workholding fixture, IE, 1/25, p.102
NC bore drilling machine (jet heat exchanger), 3/8, p.58

Du Pont de Nemours & Co. Inc., E. I.:
Fluoropolymer enamel, color retention, IE, 3/15, p.175
Heat exchanger tubes of Teflon, 6/7, p.47

Duo-Fast Fastener Corp.:
Box stapling, long handle, IE, 6/14, p.128

Dyna Corp.:
Gear reducer for small applications, IE, 3/29, p.177
Variable speed unit, transmission combined, IE, 6/14, p.126

Dynamic Precision Controls Corp.:
Continuous path control, magnetic tape system, IE, 6/14, p.124

Dynex Co.:
AF hydraulic power systems actuates Dynabrator (drill), 3/8, p.53

E

Eastman Chemical Products Inc.:
Eastoflow packaging tech., 4/12, p.29
Packaging film pours on, flow coating, 6/14, p.58

Eastman Kodak Co.:
Auto-Processor for engineering drawings, 1/18, p.50

Eaton Mfg. Co.:
Auto air conditioners restyled, 6/28, p.91
Capital expenditures for new plant-equipment, 4/12, p.35
Cleveland Worm & Gear: Integral motor shrinks variable speed drive, IE, 6/14, p.126
Dyna-Sheave drive, motion control device, IE, 3/1, p.82
Eddy current clutch shaft mounted, IE, 1/11, p.91

Eclipse Air Brush Co.:
Electrostatic gun prevents arcing, IE, 2/1, p.79

Economy Engineering Co.:
Machines serve fastener industry, IE, 4/12, p.112

Edie & Co., Lionel:
Reinfret: LBJ won't let steel strike surpass two weeks, 3/1, p.17

Efficient Industries Corp.:
Polystyrene patterns efficiency, 3/1, p.42

Ekstrom, Carlson & Co.:
Adapter converts single spindle unit to three, IE, 4/12, p.114

Elcometer Instruments Ltd.:
Hand held instrument checks metal composition, hardness (Ferro is U. S. agent), 2/8, p.176

Eldorado Tool & Mfg. Corp.:
Mega-Matic gundrill, no separate control console, IE, 3/29, p.162

Electric Boiler Corp. of America:
Diaphragm pump needs no packing, IE, 1/11, p.92

Electric Storage Battery Co.:
Battery discharge indicator, static type, IE, 5/31, p.99
Builds plant, Sumpter, S. C., B, 1/18, p.32
Static inverters, IE, 2/8, p.180

Electro-Arc Mfg. Co.:
Disintegrator removes broken taps, tools, IE, 2/22, p.125

Electrofilm Inc.:
Solid film lubricant sprayed on plug valve part, 5/17, p.44

Electro-Mechano Co.:
Attachment called drill cleaning timer for deep holes, IE, 5/3, p.136

Electro-Optical Systems Inc.:
Buying Applied Optics, B, 4/26, p.36

Electronic Specialty Co.:
Buying Inter'l Heater, B, 5/10, p.52

Electronics & Alloys Inc.:
Plasma arc furnace, IE, 3/29, p.175

Elox Corp. of Michigan:
Benefits listed for EDM power supplies, IE, 3/29, p.170
Unit impregnates metal with tungsten carbide, IE, 2/8, p.179
Vertical knee and column EDM machine, IE, 5/17, p.100

Eltra Corp.:
Prestolite Div., Ignition unit improves sparkplug life for cars, 3/8, p.86

Elwell-Parker Electric Co.:
Industrial trucks scheduled for show, IE, 4/26, p.113

Emerson Consultants Inc.:
Fremont speaks at Plant Eng. & Maintenance Conference on industrial relations execs, professional losers, 3/15, p.44

Emerson Electric Co.:
D-1 line motors, IE, 3/29, p.177
Position readout fits machine tools (U. S. Electrical Motor Div.), 2/1, p.83
Standard system for digital control of sequential operations, IE, 2/15, p.123
Transducer measures pressure differentials, IE, 3/15, p.173

Empire Iron Mining Co.:
Expansion program, Palmer plant, pellet production, 5/10, p.51

Empire-Reeves: See Cyclops Corp.

Engelhard Industries Inc.:
Resistance thermometers improved, TO, 6/7, p.36

Enthone Inc.:
Liquid concentrate (Enthox) for phosphate coatings on steel, IE, 1/4, p.234
Liquid rinse tank additive (Entek) improves drying action, IE, 5/31, p.100

Epoxy Products Inc.:
Alkaline deruster, one step, IE, 6/7, p.180

Erie Mining Co.:
Enlarging taconite pellet plant, Hoyt Lakes (owners of project), 3/22, p.33

Eriez Magnetics:
Coolant cleaner, filter comb, 6/21, p.33
Firm gets bonus from suppliers' conference, 4/12, p.63

Esco Corp.:
Freel's reaction to demonstration of snag grinding (feed pressure boost aids foundry belt grinding), 2/1, p.36

Essex Qiew Corp.:
Installs automatic molding presses, Plastic Div., B, 3/1, p.32

Evert Container Corp.:
Magnetic contactor, electronic control in packaging, 1/18, p.50

Ex-Cell-O Corp.:
Buys Amco Mfg., B, 6/28, p.36
Continental, Viso, Willey's Carbide display milling cutters, IE, 3/22, p.129
ECM applied to deburring, IE, 5/31, p.97

Exomet Inc.:
Benefits added to exothermic annealing kits, IE, 6/14, p.116

F

FMC Corp.:
Polypropylene straps, heat seal cut packaging costs, American Viscose Div., 6/21, p.87

Falstrom Co.:
Spotwelding gun, 2500 spots per hour joins 20 gage mild steel, IE, 6/28, p.111
Tig welding torch (Flex-i-torch), IE, 4/5, p.114

Fansteel Metallurgical Corp.:
Buys Airtek Dynamics, B, 1/25, p.36

Farrand Controls Inc.:
Inspection machine, fast readings, IE, 3/1, p.88

Farrel Corp.:
Automated roll grinder, IE, 6/21, p.123
Extrusion press for aluminum, copper, brass, IE, 3/8, p.102
Vertical boring mill redesign, IE, 4/12, p.112

Farrell-Cheek Steel Co.:
$1.36 million improvement program (Phase One), 1/4, p.51

Farrell Mfg. Co.:
Sold to Milwaukee Boiler, 1/4, p.52

Fastener Engineers Inc.:
Wire drawing machine, IE, 5/10, p.143

Fawick Corp.:
High torque pneumatic clutch of drum type, IE, 4/19, p.192
Shuttle valve serves pneumatics, hydraulics, IE, 3/29, p.174

Federal - Mogul - Bower Bearings Inc.:
With merger of Sterling Aluminum company is now Federal-Mogul Corp., 5/10, p.52

Federal Products Corp.:
Air bearing tables check circular geometry, surface plates, IE, 4/5, p.121

Felt Products Mfg. Co.:
Dry film lubricant, to 2400 F, IE, 5/24, p.166

Ferguson Co., H. K.:
Salt water conversion process based on nuclear power that also generates salable electrical power, 2/15, p.29

Ferrotherm Co.:
Helically wound fins brazed on tubing, IE, 6/7, p.185

Finkl & Sons Co., A.:
Arc furnace: Lesson from converter experience expands electric furnace charge, 2/22, p.75
EDP lubrication system, 3/15, p.117
Supervisors, joint training program, 1/25, p.56
Trunnion forging weighs 12 tons, B, 4/19, p.52

Fisher Scientific Co.:
Sample size lowers thermal analysis cost, IE, 3/15, p.168

Flinn & Dreffein Engineering Co.:
Builds heat treat furnace for huge nuclear vessels, 5/24, p.49
Builds gigantic furnace for Combustion Eng., Tenn. plant, 3/22, p.33

Floyd Drives Co.:
Variable mechanical drive control, IE, 1/11, p.88

Ford Motor Co.:
Adds duplexing furnaces, Dearborn foundries, B, 1/18, p.32
Automatic assembly reported by Ponta, 3/15, p.150
Brazilian plant to build Galaxie models, 5/17, p.82
Capital expansion funds, 5/31, p.82
Comet Cyclone Sportster (Lincoln-Mercury), tomorrow's look, 1/11, p.76
Czechoslovakia visited by Emery Dearborn, investigates feasibility of buying forgings-castings for tractors, 2/22, p.99
Expands four foundries ($30 million), 4/5, p.35
Fastener problems solved, 3/32, p.84
Foundry sand reclaimed by fluidizing unit, TO, 4/19, p.36
Ford predicts '65 sales, 4/26, p.18
Foundry cupola, computer control, 6/7, p.166
How Ford rates new technologies (Marvin Katke), 2/8, p.161
Iacocca, Frey vice presidents, Car-Truck Group, pics., 2/1, p.66
Mustangs sold in first year of existence, 4/5, p.95
Oxygen furnace, 614 heats before relining, TO, 3/8, p.20
Radio warns drivers of highway hazards, 5/31, p.82
Steering concept (wrist twist) on Mercury, 3/22, p.112
Taunus 12M car (Belgium), 100,000th built, 4/5, p.96
TV sets (small) for cars tested, 1/25, p.86

Ford Motor Co. Ltd.:
Centerless grinds two parts at once; steering linkage parts at Basildon, England, plant, 6/21, p.79

Ford Motor Co. of Canada Ltd.:
May shift purchasing to U. S., 3/1, p.19

Formsprag Co.:
Overrunning clutch series, IE, 3/1, p.86

Forster/Hoover Electronics Inc.:
Eddy current inspector, IE, 5/31, p.94

Fort Howard Steel & Wire:
M'crodraw process, tolerances held in cold drawing steel bars, 6/21, p.31

Fosco Inc.:
Lubricant (Powax 1) for steel mill, IE, 6/14, p.116

Fostoria Corp.:
Computers in infrared systems, TO, 5/24, p.36

Fox & Co. Ltd., Samuel:
Temperature head controls vacuum degassing time, 1/18, p.52

Fox Grinders Inc.:
Medium duty machine, off-hand sagging, IE, 5/31, p.100

Foxboro Co.:
Builds instrumentation system facility, B, 3/29, p.36

Franklin Appliance Div.: See Studebaker

Fraser-Nelson Shipbuilding & Dry Dock Co. Inc.:
Changes name to Fraser Shipyards, 1/25, p.36

Fried Steel Equipment Mfg. Corp.:
Equipment supports sheets for close tolerance shearing, IE, 6/21, p.135

Fry & Associates Inc., George:
Field sales forces, inadequacy is major weakness, 6/14, p.29
Steele: How managers can keep pace, 5/24, p.34

Furane Plastics Inc.:
Epibond adheres to steel surfaces covered with oil film, 1/18, p.41
Epoxy coat covers sharp part edges, IE, 5/17, p.100

Fusion Inc.:
Continuous belt oven speeds soldering, IE, 3/8, p.106
Two step brazing unit (steel chair frames), IE, 6/21, p.124

G

Gardner-Denver Co.:
NC drill for small holes, IE, 3/1, p.85

Gardner Machine Co.:
Vertical spindle, disc grinders, IE, 6/7, p.179

Gast Mfg. Corp.:
Motor mounted vacuum pump/air compressor, IE, 4/26, p.119
Pump serves for pressure, vacuum, IE, 3/15, p.168

Gate City Steel Co.:
Expands Omaha plant facilities, B, 6/21, p.35

Gauer Metal Products Inc.:
Machine deburrs metal up to 20 in. wide, IE, 3/1, p.87

Geartronics Inc.:
Buys Nashoba Eng., B, 2/22, p.36

General American Transportation Corp.:
Hydraulic press shipped on 14 flatcars, 2/8, p.126
Plastic instrument panels injection molded for Cadillac, cover pic, 4/26.

General Binding Corp.:
Shipping tag-laminated Mylar, 3/8, p.58

General Corrugated Machinery Co. Inc.:
Case sealer-gluer (Genie), IE, 1/25, p.109

General Dynamics Corp.:
Convair develops forming tech., 3/8, p.33
Forms Stromberg-Carlson (merger), B, 1/25, p.36
NC used to shot peen structural parts for F-111 tactical fighter, 3/15, p.102

General Dynamics/Astronautics:
Researchers find some weld porosity is acceptable (Mig and submerged arc welds), 3/22, p.86

General Dynamics/Ft. Worth:
Spark, magnetic forming, new tech., 3/22, p.70

General Electric Co.:
Alloy (Carboloy Grade 320) tailored for finish machining, 6/14, p.33
Auto fuel gage features air core magnetic circuit, 4/12, p.94
Automatic programer, furnace control, IE, 3/8, p.102
Automatic programer prepares punched tape, IE, 5/17, p.107
Cleveland facility to chemically purify tungsten ores, B, 3/1, p.32
Cleveland refractory metals plant installs recrystallization furnace, 3/29, p.36
Computer (small) for localized data processing, rental fee, IE, 3/29, p.178
Data Loggers, IE, 5/3, p.130
Electroformed aluminum shells (mirrors), TO, 5/24, p.34
Electronic rectifiers manufacturing aided by spiral staircase, 1/4, p.226
Elects Roche president, 6/7, p.34
Fluid logic amplifiers, 4/12, p.35
Furnace control, automatic-portable, IE, 6/21, p.130
Graphite coat cuts chemical reactivity, 3/15, p.119
Kinematic dc motor for machine tool field, 3/15, p.49
Lockton: Foreign investment reply to government action, 2/22, p.18
Magnetic superconductor, iron filing experiment, 3/15, p.120
Miniature precision motor (toothbrush), materials key to design, 1/4, p.136
Motor line smaller, lighter, IE, 6/28, p.108
NC retrofitting service, 3/22, p.28
Permanent magnets, more jobs visualized, IE, 6/14, p.120
Phillippe: Ten year capital equipment market $375 billion, 2/8, p.33
Phillippe speaks at European Management Conference, 6/28, p.17
Profilometer checks gear teeth surface, TO, 4/26, p.20
Silicon controlled rectifiers exhibited, IE, 2/8, p.182
SCR drives of 1-15 hp, price breakthrough, IE, 4/19, p.184
SCR, 20% higher power handling, 3/15, p.49
Silicone die lubricant, 3/8, p.33
Silicone, flameproof, rubber foams into thermal shield, 6/28, p.35
Silicone rubber foam series, IE, 6/28, p.115
Sodium lamp field tested (Lucalox ceramic), 3/1, p.80
Sorption pump provides ultraclean rough pumping of vacuum systems, 6/7, p.47
Space vehicle re-entry, temperature control experiments, 4/12, p.33
Tape inspection machines, Waynesboro, Va., 3/22, p.84
Welder trainees use TV-like teaching machine, 4/19, p.45

General Extrusions Inc.:
Fluted tubing twisted into spiral shapes, 4/19, p.51

General Motors Corp.:
Allison Div. assumes defense contracts of Cleveland Army-Tank plant, 5/10, p.52
Areas where research paid off: Bearings, punched magnetic ferrites, electrodeposition of primers, Hovair air flotation unit, etc., 4/26, p.94
Ammonia substitute for gasoline, TO, 1/25, p.19
Autodom economy viewed optimistically by Gordon and Donner, 2/22, p.27
Automates prepaint treatment, B-O-P Wilmington plant, 6/14, p.33
Building a foundry adjacent to Central Foundry Div.'s foundry east of Defiance, O., 3/22, p.35
Cadillac: Brinell tester assures quality crankshafts, 1/18, p.32
Computer-DAC-1 (Design Augmented by Computers) editorial on 5/3, p.31 and story on p.78
Computer design for instrument circuits, 5/10, p.126
Central Foundry Div. lab to develop new casting applications, B, 3/8, p.36
Chevrolet's tilting steering wheel, 4/26, p.94
Chevy II is GM's problem car, 5/24, p.137
Consolidates New Departure-Hyatt Bearings, Sandusky, Ohio, headquarters, 1/18, p.32
Delco consolidation, B, 2/8, p.51
Disc brake substitute sought, carbon seamless tubing spin-formed into brake drum shape, 6/14, p.104
Fisher Body, N/C for stamping operations, 1/4, p.212
Fisher Body, NC welding, Grand Rapids plant, 2/15, p.98

GMC tells why fleet costs soar, 5/24, p.137
Germanium semiconductors surface protected by thin film, 5/24, p.137
Gordon to retire in May, 1/25, p.86
Nuclear thermionic converter, heat changed to energy, 4/19, p.170
Oldsmobile cold extrudes rear axleshafts, 2/1, p.65
Researchers dev. portable testing device to rate how smoothly automatic transmissions shift, 6/14, p.104
Researchers find air injection works as smog reduction agent, 6/14, p.104
Smog research finds formaldehyde is villain, 6/28, p.92
Skylark Gran Sport car beamed at 'under 35 age group', 1/25, p.17
Stock distribution, bonds and cash to salaried employees, 2/1, p.66
V-8 aluminum engines for small cars eliminated, may be used in GM Vauxhall (England), 4/5, p.96

General Precision Inc.:
Data stored in wire cloth, TO, 5/24, p.35

General Refractories Co.:
Builds plant, Warren, Ohio, B, 1/18, p.32
Refractory plant for Argentina, 1/4, p.51

General Time Corp.:
Westclox uses zinc barrel plating, 5/31, p.46

Giannini Controls Corp.:
Cramer Presstakers, assembles small pinions, gears, IE, 6/7, p.184
Cramer Div. new shaving machine speeds gear production, 1/11, p.31
Gear shaver, IE, 3/22, p.126
Nucleonic thickness gage, IE, 3/15, p.171
Self-tuning ultrasonic cleaner, IE, 2/8, p.182

Giannini Scientific Corp.:
Plasmadyne Div.-electric arc metallizing system hikes deposition rates, 5/3, p.33
Plasma coating, tailored solution for more jobs, 5/24, p.81
Portable console controls plasma spray, IE, 4/26, p.112

Gilman Inc., Russel T.:
Slide assembly component, IE, 2/1, p.78

Gisholt Machine Co.:
Changes name, B, 4/26, p.36
Forms Goldberg-Emerman Corp., 2/22, p.36
Unit machines casting couplings, IE, 3/15, p.168

Glass-Tite Industries Inc.:
Changes name to GTI Corp., 5/17, p.36

Goodman Mfg. Co.:
Shaker conveyor expands, retracts, IE, 3/8, p.106

Goodrich Industrial Products Co., B. F.:
Adhesives, four performance on F-111, Plastilock, 6/14, p.58

Goodyear Aerospace Corp.:
Computer aids accident prevention, auto driving simulator test, 1/25, p.86

Goodyear Tire & Rubber Co.:
Develops wheel and tire for Lunar Mobile Lab, moon missions, 2/8, p.129

Gorton Machine Co., George:
Contouring control for miller, IE, 4/26, p.108
Mastermil, swivel head turret type miller, IE, 4/19, p.187
Profiler-Duplicator suited to changing needs, IE, 3/29, p.162

Govro Nelson Co.:
Features of second operation machine, IE, 4/5, p.113

Graham Transmissions Inc.:
Worm gear reducer added to drives, IE, 4/12, p.121

Granite City Steel Co.:
Basic oxygen furnace shop built by Koppers, 3/15, p.51
Computer controlled hot strip mill (Mesta contract), 3/15, p.51

Grav-i-Flo Corp.:
Unit speeds deburring of small, complex parts, IE, 2/8, p.183

Gray Co., G. A.:
Exhibits at Machine Tool Show: Horizontal boring mill, vertical boring mill, Handymill-position readout, IE, 5/31, p.93

Great Lakes Chemical Corp.:
Molybdenum ore find in California comfirmed by Hales (president), 2/8, p.34

Great Lakes Steel Corp.:
AISI addressed by Miltenberger: Hydrochloric acid pickling, 5/31, p.26
Recording system frees engineers from mill checkout task, 3/1, p.43
Vertical kiln to make lime for BOF, 3/22, p.78

Great Lakes Supply Co.:
Permanent magnet can be switched (lifting or iron handling), 2/8, p.113

Grede Foundries Inc.:
Buys Engineering Castings, B, 5/10, p.52

Greenerd Press & Machine Co. Inc.:
H series of open gap hydraulic presses, IE, 6/14, p.116

Greenlee Bros. & Co.:
Efficiency feature of 38 station transfer machine, IE, 2/22, p.116

Gregory Industries Inc.:
Nelson Stud Welding: Trim fastened with nylon, stainless for automotive, appliance markets, 2/15, p.66
Nelson Stud Welding in auto fastener market, 3/29, p.147
Nelson studwelder feed automatic, IE, 6/24, p.118

Grumman Aircraft Engineering Corp.:
Apex Router, new machine tool moves head seven ways, 5/3, p.27
Electrochem milling process investigated for refractory alloys in re-entry vehicles, 3/8, p.56
Fiberglass structurals for aircraft displayed, 3/15, p.33

Guild Metal Joining Equipment Co.:
Joining machine for short pipe lengths, IE, 4/5, p.123

Gulf & Western Industries Inc.:
Automatic chrome plating of plastic parts, 2/15, p.65
Buys Lenape Hydraulic, B, 4/12, p.35
Buys Miller Mfg., B, 1/4, p.52

H

Halstead & Mitchell Co.:
Tube expander made of two machines, 6/7, p.47

Halstead Industries:
Missouri Pacific and Illinois Central to ship long copper tubing, railroad cars joined end to end, 4/5, p.35

Hamilton Watch Co.:
Forms Precision Metals Div.: Leon Hurwitx describes the division's evolution, 6/14, p.28

Hanna Co.:
Joint training program for better supervisors, 1/25, p.57

Hanna Mining Co.:
Pellet process, pilot plant for Minn., joint project, 2/15, p.30

Hanover Tool Co. Inc.:
Changes name, B, 6/14, p.36

Hansford Mfg. Corp.:
Die handler, open to platen, IE, 4/12, p.116

Hanson-Van Winkle-Munning:
Zinc plating process (Pyrozinc B) used at Westclox, 5/31, p.46

Harbison-Walker Refractories Co.:
Analog computer computes heat flow through refractory furnace wall, 4/12, p.48
Mexican joint ventures, 3/8, p.35
Nucon refractory used in open hearth roof, 4/12, p.46

Hardinge Bros. Inc.:
Automatic unit for low cost bar and second operation work, IE, 3/29, p.162

Harper Electric Furnace Corp.:
Furnaces, kilns modernized, IE, 5/17, p.100

Finke: Computer systems (number) by end of '65, 5/31, p.29
Ion sputtering tech. for making thin film coatings, seek new applications, 1/4, p.45
Network to control buildings miles apart (one-man central console), 1/11, p.31
Small computers emphasis, IE, 2/22, p.115
Switch-display matrix, IE, 3/1, p.84
Wishart predicts sales in next decade, 3/8, p.17

Hooper Ball & Bearing Co.:
Renames Stubnitz Div., B, 4/19, p.52

Houdaille Industries Inc.:
Buys Di-Acro, B, 2/22, p.36

Houghton & Co., E. F.:
Multipurpose gear oils, IE, 6/14, p.118
Oil reduces vane wear in hydraulic pumps, IE, 5/17, p.106

Howie Corp.:
Fluid logic controls repetitive operations, IE, 5/10, p.146

Huber, Hunt & Nichols:
Builds continuous casting machine for Armco, new design, 5/17, p.35
D-M-B continuous casting unit for Armco, 6/7, p.136

Hughes Aircraft Co.:
Vacuum Tube: Monitor checks weld quality, IE, 2/22, p.116

Hughes Tool Co.:
Executive helicopter, pic., 6/21, p.36

Hughson Chemical Co.:
Chemlok 220 adhesive coats strip, 1/18, p.40
Dalgl'sh: Adhesive classification needed, 1/25, p.19

Hull Co. Inc., R. O.:
Aqueous solution deburrs and polishes steel surfaces, 5/31, p.54

Hunt Foods & Industries Inc.:
Negotiates for Eastern Can Co., B, 3/1, p.32

Huntingdon Industries Inc.
Boxmaking simplified, leases Xpediter system, 5/10, p.89

Hupp Corp.:
Fannon Products unit: Infrared gas oven combines heating, drying, 3/1, p.31

Hy-Pac Hydraulics Inc.:
High pressure pump bends stainless tubing, IE, 4/5, p.118

I

Illinois Central Industries Inc.:
Buys Chandeysson Electric, B, 6/7, p.52

Imperial Smelting Processes Ltd.:
Lead-zinc smelter, new process for U. S. firm, 1/18, p.31

Indiana General Corp.:
Magnetic modules, 6/14, p.59

Industrial Metal Protectives Inc.:
Zinc paint combines with Teflon, 3/8, p.64

Industrial Supplies Inc.:
McCalla gives tips on contract buying, 2/8, p.44

Industrial Tectonics Inc.:
Buys American Ball Bearing, B, 3/1, p.32

Industrial Timer Corp.:
Merged, B, 4/26, p.36

Industrial Tool & Diecasting Co. Inc.:
Alloy (Hi-Flo) aids castings (lighting fixtures), 3/8, p.64

Industrial Welding Equipment Co.:
Electronic device makes wire feeders more efficient, IE, 2/8, p.186

Informatics Inc.:
Dr. Bauer forecasts growth rate of data communications, 2/8, p.33

Infra Red Systems Inc.:
Infrared oven can rotate work, IE, 6/7, p.183

Ingersoll Milling Machine Co.:
Steel saw for service centers, 6/21, p.76

Ingersoll-Rand Co.:
Hydra-Boom mounted breaker for pit cleanup, IE, 3/29, p.164

Inland Steel Co.:
Automatic structural beam welding line nears completion, Indiana Harbor Wks., 3/22, p.35
Building research center, Indiana Harbor Wks., 6/21, p.35
Mill heat treating process strengthens sheet steels, 2/15, p.31

Insco Corp.:
Speed reducer capacity, ¼ hp, IE, 4/26, p.119

Instron Corp.:
Strain gage extensometer, IE, 1/18, p.98
TT-D instrument tests tension, compression, IE, 3/29, p.176

Intalco Aluminum Corp.:
Aluminum reduction plant in Bellingham, Wash., joint venture of Amax, Pechiney, Howe Sound, 2/8, p.51

Interlake Steel Corp.:
Head for nylon strapping automatic, IE, 5/31, p.96

International Business Machines Corp.:
Computer (mathematical) tech. reduces trim scrap, dev. by Gilmore and Gomory, 2/15, p.67
Computers exchange data via network across nation, 5/24, p.91
Console offers instant access to plant data, cover pic, 1/11, p.42
Dr. Roupin (mathematician) dev. equation to measure stress penetration in structures, TO, 2/22, p.20
Prepares sign illustrated for Manned Spacecraft Center, TO, 2/15, p.20
Superplasticity: Metals draw almost as easily as hot plastic (via heated vacuum die), 6/14, p.66
System 360 modified with Models 65 and 75, 6/7, p.36

International Electronic Research Corp.:
Buys Henderson Co., B, 6/7, p.52

International Harvester Co.:
Angular OD grinder, two steps only, 2/1, p.43
Capital investment abroad, 3/29, p.18
Evans: How to grow with new technologies, 1/4, p.124
Ultrasonics tests heats of steel for cleanliness, 6/14, p.56
Urethane solves stripping problem at Chicago Tractor Wks., 6/7, p.49
Whiteroom for superprecision machining (fuel injection pump), temperature control, 5/24, p.90

International Nickel Co.:
Alloy joins race for coinage market, 5/3, p.28

Ipsen Industries Inc.:
Furnace heats, quenches ton per hour, IE, 1/11, p.87
Licenses Canadian GE, heat treat line, 5/10, p.52

Isocyanate Products Inc.:
Rigid urethane foam insulates, shares load, IE, 6/21, p.135
Urethane resin foam resists combustion, IE, 3/8, p.112

I-T-E Circuit Breaker Co.:
Substation gets rugged test in coal field environment, 4/5, p.74

J

Jarvis Corp.:
Forms Cutting & Machine Tool Group, B, 2/22, p.36

Jernsberg Forging Co.:
New system (bulk storage and dispensing of forging oil) saves $10,000 yearly, 1/18, p.30

Jetcut Corp.:
Cutting machine is interchangeable, 2/22, p.36

Johns-Manville Corp.:
Plastic valves for pipes handling corrosives, 3/8, p.64
Short run tools handle demanding production jobs (titanium heat shields for Phantom fighter), 3/22, p.60

Johnson Bronze Co.:
Bearings made of 20% tin-aluminum clad steel, 4/12, p.31

Johnson Mfg. Corp.:
Automatic metal cutoff saw, IE, 2/15, p.116

Jones & Lamson: See Waterbury Farrel

Jones & Laughlin Steel Corp.:
Aliquippa Wks.: Unit conditions air to close tolerance in spectrograph room, 3/15, p.118
Annual report, record income, 3/29, p.18
Building $55 million steel mill, Illinois River, rumored, 4/26, p.33; report confirmed, and other facilities at Cleveland, Aliquippa, 5/3, p.35

K

KSM Products Inc.:
Fasteners-auto market, studwelding approach, 3/29, p.147

Kaiser Aluminum & Chemical Corp.:
Capital spending slated, 6/7, p.43
Licenses Temroc for Kalcolor anodizing, 5/31, p.36
Refractories Div. facilities, Frostburg, Md., B, 3/8, p.36
Refractories Div., new alumina base bricks, 3/15, p.116

Kaiser-Nelson Steel Corp.:
To dismantle annealing gas plant, U. S. Steel's Cuyahoga Wks., B, 3/1, p.32

Kaiser Refractories:
Expands facilities, Moss Landing, Calif., 6/28, p.33

Kaiser Steel Corp.:
Employee-management communications program pays off, 3/15, p.100
Sharing Plan earnings, 3/8, p.29; 4/5, p.35; 4/12, p.26; 5/10, p.51
Western Steel Market Annual report, 6/28, p.29

Kaman Aircraft Corp.:
Silicon in iron, neutron activation analysis, 6/7, p.120

Kamweld Products Co.:
Cold chamber diecaster, IE, 6/21, p.134

Kansas City Structural Steel Co.:
Glen Smith: Three welding units cut construction costs, 4/19, p.110

Kaufman Mfg. Co.:
Head unit drills, taps various parts, IE, 1/18, p.88

Kaufmann Tool & Engineering Corp.:
Parts formed on dual roll bender, 3/22, p.67
Urethane solves stripping problem, 6/7, p.49

Kaydon Engineering Corp.:
Expansion program, B, 1/18, p.32

Kearney & Trecker Corp.:
Milwaukee-Matic typifies machining center concept, 5/31, p.42

KeepRite Products Ltd.:
Buys Unifin Ltd., B, 1/25, p.36

Kendale Washer & Stamping Co.:
Buys Argosy, B, 4/12, p.35

Kennecott Copper Corp.:
Molybdenite deposit dev. in British Columbia, 2/22, p.18

King-Seeley Thermos Co.:
Deburring units on display, IE, 3/22, p.125

Kinkead Industries Inc.:
Buys Warrenville Window & Door, 6/28, p.36

Kleenkote Co.:
Core binder additive reduces oven bake time, IE, 5/17, p.101

Klingelhofer Corp.:
Circular sawing, 6/21, p.76

Koebel Diamond Tool Co.:
Sets of dressing tools for Ford Ltd.'s centerless grinder, 6/21, p.79

Koehring Co.:
Hot chamber diecaster-automatic at HPM Div., IE, 1/25, p.101
Merged with Prodex, B, 2/22, p.36

Kolene Corp.:
Salt bath removes resistant coatings (chemical oxidation system), 3/29, p.128

Koppers Associates:
Builds steel mill in Turkey, 5/24, p.51

Koppers Co. Inc.:
Basic oxygen furnace shop contract for Granite City Steel, 3/15, p.51
Buys Hardinge Co., B, 1/25, p.36
Lamtex Industries: Hystran (plastic), 3/29, p.160

Koppy Tool & Die Co.:
Mechanical coil joiner for autos, 3/29, p.148

Korad Corp.:
Laser systems operate at room temperature, 5/3, p.80

Krautkramer Ultrasonics Inc.:
Ultrasonics detect weld defects, 6/14, p.55

Kress Corp.:
Red rust preventive oil protects machine tools, IE, 3/1, p.82

L

Ladish Co.:
Rocket motor case segments fabricated from high strength alloy steels without welds, 4/19, p.35

Lake Ontario Steel Co. Ltd.:
Continuous casting machines, Whitby, Ont., plant, 5/3, p.86

Lamb Co., F. Jos.:
Dial index machine, new features, IE, 2/8, p.182
Palletized transfer unit, air gaging, IE, 3/8, p.104
Trunnion machine finishes rear axleshafts, IE, 4/12, p.114
Valve cover faces, spring bosses, and cylinder iron heads milled on special machine, IE, 5/10, p.138

Lamtex Industries:
Hystran mesh, filament wound tubing, defense know-how turned into profit, 3/29, p.160

Landers, Frary & Clark:
Renames Dorset Div., B, 3/8, p.36

Landis Machine Co.:
Internal thread gage, IE, 6/7, p.183
Tapping, threading equipment, 4/19, p.111
Thread cutting machine-bar stock, IE, 1/4, p.228

Lapointe Machine Tool Co.:
Buys Espen-Lucas Machine Wks., B, 1/25, p.36
Plant established, Mountain View, Calif., B, 6/21, p.35

Latronics Corp.:
Infrared pyrometer, noncontact type, IE, 3/29, p.176

Lear Siegler Inc.:
Vac-U-Lift, hydraulic system handles heavy plates, sheets, 4/12, p.111

LeBlond Machine Tool Co., R. K.:
Hollow spindle lathe fills two needs, IE, 2/8, p.177
Threading option for Tape-Turn II lathes, IE, 3/15, p.170

Leckenby Co.:
Was Leckenby Structural Steel, 5/10, p.52

Lectromelt Furnace: See McGraw-Edison

Leeds & Northrup Co.:
Bernard Blum: Dynamic control method ups BOF production, 5/10, p.90

Lees-Bradner Co.:
Cincinnati Acraset system (box over grinding operator's shoulder), 1/18, p.51
Machine hobs coarse pitch gears, IE, 5/3, p.129

Leis Co. Inc., A. F.:
Stock pushers, IE, 3/15, p.169

Le Maire Machine Tool Co.:
Automatic recentering and drilling machine processes pinions in pairs, 4/5, p.36
Index machine, fast changeover feature, IE, 6/28, p.110

Lennox Industries Inc.:
Machining of forged bar automatic, 4/12, p.36

Lepel High Frequency Laboratories Inc.:
Fixturing featured for induction heaters, IE, 3/8, p.103

Le Tourneau Inc., R. G.:
Chipbreaker changes to Copperdyne diamond wheel, ups carbide tool output, 5/10, p.136

Levin & Son Inc., Louis:
Small machine cuts cost of radius turning, IE, 3/15, p.171

Lewis-Shepard Products Inc.:
Rider truck for narrow aisles, IE, 6/21, p.133
Truck for small order picking, IE, 3/8, p.110

Lewis Welding & Engineering Corp.:
Injection molding line, 1/4, p.226

Lincoln Engineering Co.:
Name change, B, 5/10, p.52

Lindberg/Hevi-Duty Marketing Services:
Electric gantry oven treats aluminum tubing, IE, 2/1, p.82
Tube furnaces (contrast) large and small, pic., 1/18, p.54

Linde Div.:
Automatic Mig and submerged arc units for fabricating glasslined storage vessels, 4/12, p.67
Ceramic coating of metals, rigorous conditions build need for, (LC-9), 2/22, p.64
Flame plated coating resists wear, shock, 3/22, p.31
Hand torch (Oxweld C-77) cuts 12 in. steel, IE, 4/12, p.118
Liquid oxygen plant in Minn., Mesabi Range, B, 1/18, p.32
On-site nitrogen plant operates unattended, 4/5, p.33
Plasma torch life lengthened by pitted insert, TO, 5/31, p.20

Salt bath method removes coatings where not wanted, 3/29, p.126
Short arc welder, new tech., 6/14, p.78
Vertical submerged arc process introduced at welding show, 4/19, p.106
Welding units include gear shift wire feeder, IE, 4/19, p.186

Ling-Temco-Vought Inc.:
Pneumatic All Terrain Amphibian for military, 5/3, p.110

Link-Belt Co.:
Automated material handling system designed for Polaroid, 5/31, p.52
Pre-engineered conveyors (Quik-Line), 2/22, p.116
Trade relations manager (Kurz), what the position means, 5/3, p.61

Litho-Strip Corp.:
Electrogalvanizing line, B, 2/1, p.29
Process gives strip two colors at once, 3/15, p.49

Littell Machine Co., F. J.:
Double cone reel has overhead suspension, IE, 4/12, p.114

Litton Industries Inc.:
Merges Hewitt-Robins, 2/8, p.52
Thornton: More big industrial firms needed, 6/21, p.17

Livernois Automation Co.:
Bland lubricator and destacker displayed, IE, 3/22, p.126

Livingston Electronic Co.:
Battery developed to operate at —100° F, 4/26, p.106

Lockformer Co.:
Spiral pipe machine automatic, IE, 4/26, p.115

Lockheed Aircraft Corp.:
Computer tech. cuts x-ray analysis time, 4/12, p.51

Lockheed-California Co.:
Aquatic jet engine to propel ships, 3/15, p.36

Lockheed-Georgia Co.:
Computer aided design, research center, Georgia, 3/22, p.35
Management information system demonstrated (InterLoc), 3/29, p.31
Service for Southeast industry, 5/31, p.18
Winfield speaks at Plastics for Tooling conference, 6/21, p.17

Lockheed Missiles & Space Co.:
Automatic computerized method of reading x-ray films to detect flaws in welded seams, 1/25, p.17
Submicron oxide powders lead to strong alloys, report by Goetzel and Steinvert at powder metallurgy conference, 6/21, p.82
Table features pays off in machining methods, 5/24, p.86

Loctite Corp.:
Adhesive-packaging easy with Mixer-Cup, IE, 4/12, p.117
Cyanoacrylate adhesive bonds to most materials, IE, 5/17, p.112

Lodge & Shipley Co.:
Unit frees NC machines from toolsetting, IE, 2/8, p.177

Lone Star Boat Co.:
Sold to Chrysler, 5/31, p.81

Long Beach Oil Development Co.:
Pump valves (stainless) for sea water service, 2/1, p.44

Lord Mfg. Co.:
Titanium forging method (joint development with Wyman-Gordon), 1/4, p.45

Lubrx Products Inc.:
Soluble oil, IE, 1/11, p.90

M

3M Co.:
Filament tape for packaging resists weathering, IE, 3/15, p.175
Microfilm continues to displace paperwork, 5/24, p.100
Nuclear Products Project, new forming process (intricate shapes from hard-to-fabricate metals), 1/4, p.47
Power unit assists belt grinding, foundry metals, 2/1, p.36

M&T Chemicals Inc.:
Australian plant to aid tin conservation, 1/4, p.51

MAC Valves Inc.:
Investment castings, parts in one step, 3/8, p.48

Magnaflux Corp.:
Nondestructive testing equipment, IE, 3/22, p.124
Penetrant inspection method for nondestructive testing, 6/7, p.130
Ultrasonic tester (Pulse Echo) for surface flaws, IE, 1/18, p.89 and 4/5, p.31
Ultrasonic welding test (Lincoln Center structures), 3/29, p.18
Ultrasonic welding tests, 6/14, p.55

Magnetic Equipment Div.:
See Indiana General Corp.

Magnetic Industries:
Nonelectric tester checks cracks in metal parts, IE, 2/15, p.114

Magnetic Metals Co.:
Tool steel stabilizer unit, 6/28, p.58

Magnetool:
Magnetic hand feeders for punch press, IE, 6/28, p.108

Magnus Chemical, Div.:
Mechanical agitation cleans parts, IE, 2/8, p.178

Maintenance Welding & Metal Works Inc.:
Metalizing with stainless steel powder (bronze shaft), 2/15, p.60

Manco Mfg. Co.:
Hydraulic shear fits continuous casting, IE, 6/28, p.128

Manufacturers Engineering & Equipment Corp.:
Electrolytic trace oxygen analyzer, IE, 4/26, p.108

Marathon Electric Co.:
Straighter wire in welding unit cuts costs, 4/19, p.125

Marbon Chemical: See Borg-Warner

Marconi Co.:
Radar methods measure steel strip temper, 2/1, p.46

Maremont Corp.:
R&D programs assist in research management, TO, 4/26, p.19

Marquardt Corp.:
Albom reports on diffusion bonding, machines needed, 4/19, p.108

Martin Co.:
Balanced wave (TIG AC) welding joins missile alloys, skin fabrication, 3/32, p.83
Defense research with Univ. of Denver on high energy heat forming, 4/5, p.18
Welds made in tungsten, high strength, Martin-Orlando Div., 3/15, p.101

Martin Marietta Corp.:
Forms operating units for lime, cement, refractory lines, B, 6/21, p.36

Master Chemical Corp.:
Trim-Sol, cutting fluid, IE, 1/11, p.93

Materials Research Corp.:
Electron beam gun cuts thin film costs, IE, 4/12, p.112
Field iron microscope, IE, 2/15, p.113
Melting furnace suits experimental work, IE, 2/1, p.82
Precious metal in high purity form, IE, 3/8, p.112
Rotary seal for vacuum, IE, 1/4, p.232
Vacuum seal permits linear stroke, rotation, IE, 6/28, p.114
X-raying thin film (even when being formed in vacuum), TO, 2/8, p.35

Mather Spring Co.:
Changes name to Mather Co., B, 1/18, p.32

Maurer Inc., J. A.:
Aerial camera - aluminum part cheaper through precision casting, 5/17, p.58

May-Fran Mfg. Co.:
Buys American Monorail, B, 3/8, p.36
Conveyorized heat treat furnace for Vulcan Rivet, 1/18, p.51

MB Electronics: See Textron Electronics

McDonnell Aircraft Corp.:
Throwaway paint trays, 2/1, p.43

McDowell - Wellman Engineering Co.:
Flying saucer balling disc, pelletize, mix, blend, 4/26, p.112

McGraw-Edison Co.:
Lectromelt: Vacuum arc furnace melts 3 x 60 ingots, 1/25, p.33

McKay Co.:
Hard surfacing electrode - nickel manganese, IE, 4/19, p.190

McKay Machine Co.:
Blanking press reduces torsional windup, IE, 4/19, p.186
To make bar inspection equipment, IE, 3/8, p.103

McKee & Co., Arthur G.:
Forms Food Processing Div., B, 4/5, p.36

McKinsey & Co. Inc.:
Foote speaks at AMA, forecasts rise in executive salaries, 3/1, p.29
Patton: Build competitive environment, 2/1, p.18

McLanahan Corp.:
Scrap bundler speeds handling of stringy scrap, wire, IE, 4/5, p.120

McLouth Steel Corp.:
Expansion plans, B, 5/3, p.35

Mead Specialties Co.:
Air-hydraulic cylinders line, IE, 2/1, p.80

Mechanical Technology Inc.:
Joint venture with MPB, gas bearings market, 6/14, p.35

Melray Mfg. Co.:
Short run stampings success, 3/22, p.62

Mesta Machine Co.:
Belt wrapper initiates winding strip in coils, IE, 2/22, p.125
Republic Steel contract, Gadsden equipment, 2/22, p.35

Metal Cutting Tools Inc.:
Moves, B, 6/7, p.52

Metal Spraying Corp.:
Buys Precision Welding, B, 3/29, p.36

Metco Inc.:
Metalizing spray coats for bearing surfaces, 1/18, p.50
Nickel-chrome coat, IE, 6/21, p.124
Undercoat cuts cost of flame spraying, IE, 6/14, p.117

Michigan Seamless Tube Co.:
Buys Standard Tube, B, 4/12, p.35

Michigan Tool Co.:
Machine roll forms shafts to 1 in. diameter, IE, 4/19, p.192

Microdyne Inc.:
Machine monitor counts working cycles, IE, 2/22, p.118

Microfilm Products: See 3M Co.

Micromatic Hone Corp.:
Gaging unit checks inside diameters, bearing rings, IE, 1/18, p.90
High frequency inspection unit checks auto pistons, Micromatic Hone, IE, 2/8, p.186
Hydrohoner, finishes brake drum surfaces, IE, 6/7, p.182; 6/21, p.110

Midas-International Corp.:
Buys Frolic Homes, B, 5/10, p.52

Mid-Continent Mfg. Co.:
Buys firms, Jersey Bolt & Spike Div., 4/19, p.52
Buys Hoffman Iron & Steel, B, 5/10, p.52

Midland-Ross Corp.:
Merging with National Castings, 2/15, p.31
Pellet pilot plant, joint project, 2/15, p.31

Midvale-Heppenstall Co.:
298,000 lb stainless steel ingot start for rotorshaft forging, 3/22, p.77

Midwest Research Institute:
Paden: New direction needed in transportation planning, 6/7, p.132

Miehle-Goss-Dexter Inc.:
Adjustable speed unit controls motors to 5 hp, IE, 4/19, p.185

Milford Rivet & Machine Co.:
Heavy duty rivet setting unit, IE, 5/31, p.96
Rivet setting unit, IE, 3/1, p.91
Stainless semitubular rivets used on trucktrailer, 3/15, p.99

Miller Corp., Harry:
Rust preventive for indoors, outdoors, IE, 4/12, p.116

Miller Electric Mfg. Co.:
Power supplied to eight welders simultaneously, IE, 5/17, p.103

Millrich Engineering Co.:
HERForging unit flexible, TO, 3/29, p.19

Milwaukee Boiler Mfg. Co.:
Buys Farrell Mfg., B, 1/4, p.52

Milwaukee Machine Products Co.:
Drilling - tapping switch from manual to automatic, cost saver, 6/28, p.59

Mimik Tracers Inc.:
3-D tracer control, hand operated, IE, 3/8, p.105
Automatic tracer control, no size limit, IE, 4/26, p.116
Templatemaking shortcuts, TO, 5/24, p.36

Mine Safety Appliances Co.:
Sampler spots air pollution, IE, 3/15, p.172

Miniature Precision Bearings Inc.:
Gas bearings market, joint venture with MTI, 6/14, p.35

Minster Machine Co.:
Gun drilling on turret lathe is time saver, 5/24, p.86

Misco Precision Castings Inc.:
Investment casting tech., 3/8, p.48

Mobil Oil Co.:
New oil dispensing system, cost cutter, 1/18, p.30

Monsanto Research Corp.:
Dry-tape battery, long shelf line, 5/10, p.52
Research on advanced materials (with Washington Univ.), 4/5, p.17

Moog Servocontrols Inc.:
Hydra-Point NC machine unit prevents drill jamming and breakage, IE, 5/17, p.101

Moore Special Tool Co.:
Throw-out worm feature of standard rotary table, IE, 6/28, p.111

Code: B—*Briefs;* IE—*Industrial Equipment;* TO—*Technical Outlook*

Moorfeed Corp.:
In-line vibrating feeder moves oriented parts, IE, 6/7, p.185

Motorola Inc.:
Radio overhead crane control system, IE, 6/14, p.118

Murray-Way Corp.:
Buffing, deburring head, IE, 1/4, p.227

N

Nalco Chemical Co.:
Water treatment checks corrosion, fouling in open recirculating water systems, 2/8, p.132

National Broach & Machine Co.:
Rotary unit finishes fine pitch gears, IE, 5/3, p.132

National Castings Co.:
Merging into Midland-Ross, 2/15, p.31

National Electric Welding Machines Co.:
Automatic welding of brake shoe assemblies, IE, 1/18, p.90
Interest in Volta Welders, Ont., 6/28, p.36
Steel strip welder has small bead, 6/7, p.133
Welder design, IE, 2/8, p.184

National Lead Co.:
Doehler-Jarvis expands, Pottstown, Pa. B, 2/8, p.52
Doehler-Jarvis expands and consolidates, B, 6/21, p.35

National Machinery Co.:
Builds integrated aluminum can extruder, 6/28, p.33
Shuffle from one die to another: Heading and upsetting combined in machine, 4/12, p.31

National Research Corp.:
Calibrating high vacuum gages, new method, TO, 5/24, p.36
Vacuum metallizer, IE, 4/19, p.184

National Rivet & Mfg. Co.:
Buys Rockford Automation, B, 4/26, p.36

National Screw & Mfg. Co.:
Plans plant in South, B, 6/7, p.52

National-Standard Co.:
Welding wire wound on spools, 4/19, p.127

National Steel Corp.:
Pellet process pilot plant, joint project, 2/15, p.31

National Twist Drill & Tool Co.:
Buys National Tool Salvage, B, 5/10, p.52

Nationwide Leasing Co.:
Equipment leasing at record level, 1/11, p.18

Navan Products Inc.:
Fusion welding system for tubing connections, IE, 5/31, p.95

Neill & Co. Ltd., James:
Magnets hold tough jobs, 5/10, p.89

Nelson Iron Works Inc.:
Changes name, B, 5/17, p.36

Nelson Stud: See Gregory Industries

New Britain Machine Co.:
Acquiring Atlas Vac-Machine, B, 6/7, p.52
Pease at AMTDA meeting: Sales role changes for distributors, 3/29, p.29

Niagara Machine & Tool Works:
Automatic line, notched duct blanks or automatic cutting, IE, 2/15, p.114
Foot shears, convenience and safety, IE, 6/28, p.118
Press provides full access to all sides of odd shaped work, IE, 4/12, p.111
Refinements improve straight side presses, IE, 5/10, p.137

Niles Expanded Metals Co.:
Buys new div., B, 6/14, p.36

Nipak Inc.:
Buys John Deere Chemical, 5/3, p.36

Nopco Chemical Co.:
Braided asbestos packing, strong construction plus durable lubricant in packing material, 5/3, p.47

Norbell Corp.:
RotorMatic assembly unit Migwelds solders, brazes parts, IE, 6/7, p.187

Nordson Corp.:
Electrostatic gun, 20 oz., IE, 2/22, p.122
Hot melt applicator, IE, 5/17, p.104

Norris-Thermador Corp.:
Acquiring Fyr-Fyter, B, 6/7, p.52

North American Aviation Inc.:
Brazing alloy, titanium-to-stainless joints, TO, 3/29, p.19 and 5/3, p.20
Rocketdyne Div., investment casting method for Saturn large heat shield, 3/22, p.31
Saturn cold plates diffusion 3/1, p.30
Ultrasonic tests, Space & Information Systems Div., 6/14, p.55

Northern Engineering Works:
Safe crane cabs, IE, 3/8, p.111

Northern Malleable Iron Co.:
Malleable casting payoff, 2/15, p.60

Norton Co.:
Behr-Manning abrasive belt, 5/17, p.36
Cost cutting marketing plan reduces distribution charges and inventory expenses, 2/22, p.31
Cushman: Sales plan to help distributors (direct marketing), 4/12, p.29
Cyclemiser grinder, feed control system, 3/1, p.35
Grinding fluids added to line, 6/7, p.51
Plunge grinding vs. turning (abrasive machining article), 6/21, p.71
Tests show best grit sizes for finishing and machining: Charles Pollock, 6/14, p.60
Tips on grinding refractory metals: Thomas Z. Richards, 2/22, p.68
U. S. mission to USSR headed by Hicks, 3/29, p.28

Novo Industrial Corp.:
Buys Delta Electric, B, 1/4, p.51

Numeric Machining Inc.:
Job shop utilizes machining centers, 5/31, p.45

O

Ogden Corp.:
Buys Better Built Machinery, B, 5/3, p.35

Ohio Body Mfg. Co.:
Stainless tructrailer, long life, 3/15, p.99

Ohio Crankshaft Co.:
Motor-generator set dual frequency, IE, 5/24, p.171
Ultrasonic generator tunable to transducer, IE, 2/15, p.120

Ohio Nut & Bolt Co.:
Reorganizes fastener operation into three divisions, 1/11, p.36

Ohr-Tronics Inc.:
Device punches program tapes, IE, 1/11, p.88

Olin Aluminum:
CPM used to design order-to-shipment cycle, One master package, 1/25, p.48

Ontario Steel Products Co.:
Building coil spring plant, Que., B, 3/22, p.35

Open Die Forging Institute Inc.:
Elects, 2/15, p.32

Opinion Research Corp.:
Survey on T-H Section 14 (b), right to work law, 5/3, p.18

OPTOmechanisms Inc.:
Laser interferometer computer compensated, IE, 5/24, p.166

Osborn Mfg. Co.:
Deburring process, switch from hand to brush, (slots), 2/15, p.61

P

Pace Controls Corp.:
Optical positioner prepares NC tape, IE, 3/1, p.89

Packaged Merchandise Co.:
Ballizing set sizes rough holes, IE, 4/19, p.185

Packaging Aids Corp.:
Plastic bag sealer applies names, codes, IE, 6/28, p.114

Packaging Corp. of America:
Throwaway conveyorized paint trays, 2/1, p.42

Packer Machine Co.:
Improvements on polishing machine, IE, 1/4, p.230

Pandjiris Weldment Co.:
Dual purpose seamer for cylinders, IE, 4/19, p.184

Parker-Hannifin Corp.:
A positive approach to zero defects (employee-supplier-customer meeting), 5/31, p.51
Buys True-Flate, B, 3/22, p.36
Buying Z&W Mfg., B, 4/26, p.36
Forms Parker Refrigeration Products, B, 2/8, p.52

Pascoe Steel Corp.:
Dedicates plant, Columbus, Ga., B, 1/18, p.32

Pennsalt Chemicals Corp.:
Automatic system meters liquid chemicals in work tank, IE, 6/7, p.189
Resin (fluorocarbon) provides 30 year protection to metal surfaces, 3/15, p.49
Stokes injection molder powered hydraulically, 2/15, p.118

Perfecto Engineering Inc.:
Reels stock 15 in. wide in coils to 48 in. OD, IE, 3/8, p.104

Perkins-Elmer Corp.:
Acquires Boller & Chivens, B, 3/15, p.52

Perspective Inc.:
Computer directed drawing machine, 6/7, p.51

Pettibone Mulliken Corp.:
Automatic internal cure attachment of Beardsley & Piper Corematics, IE, 1/4, p.230

Pfaudler Permutit Inc.:
Automatic MIG and submerged arc units cut weld time on fabrication of glass lined storage vessels, 4/12, p.67
May merge with Ritter, 6/28, p.35

Pfizer & Co. Inc., Chas.:
Buys Gibsonburg Lime, B, 1/25, p.36
Specialty metals have varied applications (high purity cobalt strip and columbium alloy), 3/29, p.35

Philadelphia Gear Corp.:
Trunnion mounted drive unit (Kaiser BOF railroaded into position), 6/28, p.66d

Philco Corp.:
Lawson: Do you have what it takes to be tomorrow's manager (broader men), address at purchasing forum, Calif., 6/28, p.27
Skin (control system) may replace pushbuttons, 1/18, p.18

Phoenix Steel Co.:
New layout for Claymont plant (flowchart), right people and right equipment, 1/11, p.54

Photolastic Inc.:
Load cell readout system, IE, 2/29, p.166

Pickands Mather & Co.:
Joint development (with Mitsubishi) in Tasmania for ore mining-pelletizing, 1/11, p.35

Pierce-All Inc.:
Perf-O-Mator delivers constant punching power, IE, 3/8, p.101

Pines Engineering Co.:
Compact bending press, IE, 3/15, p.167
Control flexibility in bender, IE, 4/5, p.113
Semiautomatic bender fits large pipe, IE, 4/26, p.111
Tube cutoff, new equipment, 6/21, p.77

Pipe Machinery Co.:
Carbide chasers speed pipe threading, 3/1, p.40
Veeko checks profiles, recording instrument, IE, 5/10, p.142

Pittsburgh Plate Glass Co.:
Application techniques applying adhesives, 1/18, p.42
Fiber glass reinforced plastics popping up in new areas: F. M. Wright, 5/24, p.87

Pittsburgh Steel Co.:
Strip coated with adhesive comes off roll coater, 1/18, p.40

Polaroid Corp.:
Automated material handling system installed by Link-Belt, 5/31, p.52

Poloron Products Inc.:
Metal laminated between vinyl skins, IE, 6/21, p.133

Port Ore Processing Co.:
Metallic ores (worldwide) imported and processed, 1/11, p.35

Possis Machine Corp.:
Epoxy spray coating machine redesign, IE, 2/8, p.183

Potter & Brumfield:
Forms Electrical Snap Switch Div., 4/12, p.36

Power Control Products Inc.:
Cutoff machine handles long extrusions, IE, 1/18, p.98
Pneumatic stack feeder, IE, 3/8, p.105

Power-Pac Co.:
Feed pressure unit aids foundry belt grinding, 2/1, p.36

Pratt & Whitney Div.: See United Aircraft Corp.

Pratt & Whitney Inc.:
Machine Tool Div. training program converts salesmen into marketers, 2/1, p.32
NC Tape-O-Matic drilling machine, introduced in 1952, price, 5/3, p.67

Precision Dimensions Inc.:
Speed lathe gets compound and double tool cross slide, IE, 5/17, p.101

Precision Metalsmiths Inc.:
Fabricating shell molds, pic., 1/4, p.132
Investment casting, parts made in one step, 3/8, p.46

Precision Welder & Flexopress Corp.:
Horizontal welder, tipped on edge for space saving, 2/15, p.60

Pressure Tapping & Welding Services Inc.:
Hot tapping for extending steam lines, 2/8, p.112

Prestolite: See Eltra Corp.

Price & Rutzebeck Co.:
Resistance welding assembly table, IE, 3/22, p.131

Production Machine Div.:
See U. S. Industries

Pullman Inc.:
Hydraulic press to form huge rail car parts, 3/15, p.121

Q

Q-Panel Co.:
Condensation tester checks surfaces, IE, 6/14, p.122

Quality Castings Co.:
Shakeout screen, 6/14, p.58

R

Racine Hydraulics & Machinery Co.:
Accurate grinding speeds production, valve spools, 3/8, p.60
Check valves, two stage poppet design, IE, 1/11, p.89
Heavy duty gear pump-hydraulic, IE, 4/12, p.114

Radio Corp. of America:
Magnets control arc exhaust, TO, 5/10, p.36

Rae Mfg. Co.:
Heat treated Type 416 stainless good machining material, 5/3, p.80

Randall Bearings Inc.:
Was Randall Graphite, B, 5/17, p.36

Raytheon Co.:
Acquiring Dage-Bell, 6/7, p.52
Merged with Amana Refrigeration, B, 2/22, p.36

Reactive Metals Inc.:
Expands titanium sponge plant, Ashtabula, 5/3, p.36
Expands facilities, B, 5/31, p.36

Read Corp.:
Positioners aid machining, welding, IE, 2/1, p.78

Red Valve Co. Inc.:
Name change, 5/17, p.36

Redmer Air Devices Inc.:
Drill press has oscillating table, IE, 2/1, p.81

Reed Rolled Thread Die Co.:
Die thread and form rolling machines, IE, 3/22, p.134

Reliance Electric & Engineering Co.:
Buying Raydata Corp., B, 5/10, p.52
Gear motor, reducer smaller, lighter, IE, 3/29, p.177
Motors in NEMA 140 frames, more power in small size, IE, 4/19, p.191
Schiff: Good electrical startup for galvanizing line, 4/26, p.52

Reliance Steel & Aluminum Co.:
Corrugating and cutting, one operation, with digital length controller, 2/8, p.130
Luke: Puts traditional techniques on defense, old equipment, 1/4, p.122

REM Sales Inc.:
Harrison precision geared head lathe for toolroom or production tasks, IE, 3/1, p.84
Lathe suited to toolroom, production, IE, 3/22, p.123

Renault Inc.:
Grob forecast, cars imported to U. S., 4/12, p.93

Republic Steel Corp.:
AISI Medal awarded Forrest, metallurgist, 5/31, p.26
Automatic strapping benefits (Acme Steel F5-WRV), 2/15, p.61
Expansion for Cleveland District, $75 million planned hydrochloric acid pickling line; cold reducing mill-wide coils, annealing furnaces, etc., 2/15, p.31
Gadsden steel plate and strip facilities, Mesta gets contract, 2/22, p.35
Girdler's obituary, 2/15, p.32
Patton: Case for steel price boosts, 4/5, p.17
Patton (stockholder meeting) attacks CEA productivity study, 5/17, p.28
Vacuum degassing unit, 5/31, p.26

Revere Copper & Brass Inc.:
New method finishes copper alloy plates for flatness, 2/1, p.29

Reynolds Aluminum Co.:
Freezing process purifies aluminum, 2/22, p.19

Reynolds Metals Co.:
Capital expansion needed by 1970, 6/7, p.43
Expands wire and cable plant, Chester, Pa., B, 3/1, p.32

Rheem Mfg. Co.:
Buying Superior Tank, B, 4/26, p.36

Richards Shear Co.:
Scrap shear prepares whole autos, IE, 1/11, p.93

Riehle Testing: See Ametek Inc.

Ritter Co.:
Magnetic chucking (parts for dental equipment), 2/1, p.43
May merge with Pfaudler Permutft, 6/28, p.35

Roberts Co., C. A.:
Cutoff machine slices metals, ceramics, IE, 1/11, p.95

Roberts Corp., C. B.:
Hydraulic lifting device ups saw blade life, IE, 5/10, p.140

Robicon Corp.:
Formed, B, 2/22, p.26

Robotrol Inc.:
Acquires sales rights (Cross Co. gages), 1/4, p.52

Rockford Automation Inc.:
Merges with National Rivet, B, 4/26, p.36

Rocklin Mfg. Co.:
Lightning Gun, 'injects' tungsten carbide, IE, 2/1, p.81

Rockwell Mfg. Co.:
Miller, surface grinder, IE, 3/22, p.136

Rockwell-Standard Corp.:
Wingerter (Automotive Div.) speaks at NICB: Impact of auto-truck transportation on industrial dispersion, 4/5, p.112

Rolled Steel Corp.:
Phones boost sales 65%, reduce field personnel, 5/24, p.99

Rolock Inc.:
Package checks heat treat atmosphere, IE, 3/29, p.177

Roto-Finish Co.:
Vibratory finisher, IE, 5/24, p.173; 6/21, p.125

Rouse & Co., H. B.:
Production miller, IE, 1/25, p.107

Roy Co., Milton:
Hydrogen generated by electrolytic generator, IE, 1/25, p.111

Royal Industries Inc.:
Buys Band-Ti Mfg., B, 3/29, p.36

Ruppert Inc., Jacob:
Makes beer cans, B, 2/8, p.52

Russel & Sons (Engineers) Ltd., S.:
Jewelform: This press makes its own dies, 6/7, p.115

Russell, Burdsall & Ward Bolt & Nut Co.:
New A490 high strength bolt, 5/3, p.86

Rustrak Instrument Co.:
Recorder runs from rechargeable batteries, IE, 6/14, p.125

Ryerson & Son Inc., Joseph T.:
EDP programs for computing scheduling, 1/25, p.50
Manual welding Squirtwelder, structurals, 5/31, p.46

S

S&C Electrical Co.:
Contact springs for high voltage switchgear made of copper alloy, 2/1, p.46

SKF Industries Inc.:
Polypropylene straps, heat seal cut packaging costs, 6/21, p.87

S-K-S Die Casting Co.:
Ultrasonic detector for spindle bearings on chucking machine, 5/3, p.85

Salem-Brosius Inc.:
Taphole drill pneumatic, IE, 6/21, p.127

Sandia Corp.:
Ion plating process cleans and plates metal in one operation, 1/4, p.49

Schauer Mfg. Corp.:
Exhibit to include industrial power supplies, IE, 3/22, p.132

Schlage Lock Co.:
Buys Vonnegut Hardware, B, 1/18, p.32

Sciaky Bros. Inc.:
Improved controls boost weld quality, 4/19, p.122
Optical unit controls weld arc, TO, 4/19, p.36
Solomon and James at IEEE conference: Electron beam welding, 2/1, p.38

Scilon Inc.:
Buys Thomson Machinery, B, 4/12, p.36

Selas Corp. of America:
Porous silver sheet is precise filter, 3/1, p.48
Recuperative type furnace, gas and air without oxygen, IE, 2/22, p.124

Selectrons Ltd.:
Cadmium plating without hydrogen embrittlement, IE, 3/15, p.175
Platinum-iridium anodes fine plate small areas, IE, 4/5, p.119

Service Machine Co. Inc.:
Press construction meets special needs, IE, 6/28, p.112

Sharon Steel Corp.:
AISI addressed by Wilson and Unick: Vacuum stream degassing 5/31, p.26
Annealing line (Lee Wilson contract) unitized, 3/22, p.78
Capital improvement program, 3/1, p.31
Contracts for Bliss rolling mill equipment, B, 4/5, p.36
Strapping stretcher only 8½ lb, IE, 4/26, p.108

Sheffield Corp.:
Abrasive machining (Crushtrue process) cuts intricate forms in tough materials, 1/18, p.44
Cam inspection instrument, 1/25, p.33
Knopf: Telephone, quick market research, 5/17, p.18
Measuring machine, speed-accuracy, IE, 3/29, p.161
N/C forces systems approach, machining center, 1/11, p.50
Trend gage flexes, floats with strip, IE, 4/26, p.119
Two axis co-ordinate measuring machine (for Univac test), 4/26, p.51

Short Run Stamping Co.:
Tolerances tightened for short run stampings, 3/22, p.62

Signode Corp.:
Joint training program for better supervisors, 1/25, p.58

Simonds Saw & Steel Co.:
Cobalt based alloy adds life to teeth on lumber mill saws, 1/11, p.55

Skybryte Co.:
Coating protects metal tool surfaces, IE, 1/4, p.228

Sleeper & Hartley Inc.:
Improved torsion spring winder, IE, 2/15, p.114

Smith Corp., A. O.:
Hermetic motor line drives compressors, IE, 5/3, p.136
Kentucky plant produces hermetic motors, 6/7, p.51
Ways to predict product warranty life, 3/15, p.166
Welding power source solid state design, IE, 6/14, p.121

Smith Line & French Laboratories:
Buys Branson Instruments, B, 1/25, p.36

Snow Mfg. Co.:
RID drilling machine, gravity removes chips, IE, 3/29, p.173

Snyder Corp.:
Transfer machine, IE, 5/3, p.130

Soroban Engineering Co.:
Uses NC Cintimatic turret drill in its own machine shop (takes its own medicine), 4/12, p.66

Sossner Steel Stamps Inc.:
Bar marking machine, identifying full length, IE, 5/31, p.98

Soundcoat Co.:
Epoxy compound damps noise, IE, 5/10, p.148

South Bend Lathe Inc.:
Buys Studebaker buildings, B, 2/15, p.32

Southern Tier Iron Works Inc.:
Formed, B, 6/7, p.52

Southworth Machine Co.:
Coil car automates spool handling, IE, 3/8, p.108

Space/Defense Corp.:
Atmosphere control unit works three variables, IE, 1/4, p.233

Spacerays Inc.:
Nonlens (reflective) laser system, 1/25, p.18

Sparanics Ltd.:
Register control for punch press, IE, 3/8, p.111

Sparton Corp.:
Fuel-Lok, cuts off fuel supply to prevent auto thefts, 5/24, p.138
Two roll system for forming cylinders, makes uniform sheet bends, 3/22, p.66

Specialloid (Canada) Ltd.:
Permanent mold casting cuts cost, weight of bolts, weldments, brackets, 3/22, p.83

Spee-Flo Co.:
Pump puts pressure into airless spraying, IE, 6/28, p.118

Spengler Co., Geo. H.:
Conveyor works with centerless grinder, IE, 6/14, p.127

Sperry & Hutchinson Co.:
Computer management strategy center 'war room,' 4/5, p.59

Sperry Gyroscope Co. Ltd.:
Electroless chemical plating at British firm, 2/8, p.131

Sperry Products: See Automation Industries

Sperry Rand Corp.:
Univac parts inspection, time cut 80% with a two axis co-ordinate measuring machine, 4/26, p.51
Univac punched card equipment, IE, 6/14, p.123

Standard Metals Corp.:
New smelting process (lead-zinc smelter), 1/18, p.31

Standard Pressed Steel Co.:
Electrophoretic coating protects columbium, TO, 1/11, p.19
Hallowell Jr.: When to look at new technologies, 1/4, p.110

Standard Tool & Mfg. Co.:
Drilling, reaming unit is dial type, IE, 6/21, p.129

Starrett Co., L. S.:
Hole saws fit lathes, portable power tools, IE, 5/3, p.135

Steel Co. of Canada Ltd.:
2nd continuous casting unit (Concast), 1/4, p.49
Forms (joint) firm to prepaint steel in coils, B, 2/8, p.52
Twin open hearth development, converted unit, TO, 4/12, p.20

Steelcraft Mfg. Co.:
Job variety program, employees get break from regular jobs to special projects, 5/24, p.91

Steiner Metal Products:
Aluminum decorative castings (Adaptaloy), ancient decorative process, 3/15, p.108

Stephens-Adamson Mfg. Co.:
Vibrating conveyors dynamically balanced, IE, 4/26, p.108

Sterling Aluminum Products Inc.:
May merge with Federal-Mogul, 2/22, p.35

Sterling Radiator Co.:
Buys Carl G. Peterson Co., 2/8, p.52

Stewart-Warner Corp.:
Portable lubricator battery operated, IE, 1/25, p.109

Stocker & Yale Inc.:
Optical comparator measures shafts, IE, 3/8, p.109

Stokes Plastics Equipment:
See Pennsalt Chemicals

Stone Machinery Co. Inc.:
Abrasive cutoff machine, 6/21, p.76

Studebaker Corp.:
Changing financial picture (fights for profits), 3/22, p.111
Franklin Appliance Div.: Refrigerator tube mill bridges speed, cleanliness gaps, 3/1, p.44
Pension payments to former employees, 5/24, p.138
Re-enters taxicab market, 1/25, p.86

Sullivan Equipment Co.:
Conveyor separates deburred parts from tumbling media, IE, 6/14, p.121

Sun Oil Co.:
Cutting oil series, IE, 3/1, p.82

Sunbeam Electronics:
Moves, B, 5/17, p.36

Sunbeam Equipment Corp.:
Demagnetizer, IE, 1/11, p.91

Sun Oil Co.:
Engineers get technical upgrade program, 6/28, p.18

Superior Tube Co.:
Five ways to buy high heat performance, 1/11, p.33

Superior Welding Co.:
Buys Sistersville Tank Wks., B, 1/25, p.36

Swindell-Dressler Co.:
Supplies melting equipment for Republic-Canton plant, 5/10, p.52

Sylvania Electric Products Inc.:
Coated metal strip, process gives two colors at once, 3/15, p.49
Producing tungsten sheets, plates, 3/8, p.63
Tungsten mesh heating elements, longer life in sintering and annealing, 3/22, p.28

Symington Wayne Corp.:
50 ft monorail blast machine ups casting quality, pic., 6/21, p.35

Systematics Inc.:
Welding equipment offered, IE, 5/3, p.137

Systems Engineering Laboratories Inc.:
Computers use monolithic, integrated circuitry, IE, 5/24, p.163

T

TRW Inc.:
New name for Thompson Ramo, 5/10, p.52
Buys Cam Gears Ltd., B, 5/24, p.51
Casting technique for superalloy castings, directional solidification, 5/10, p.49
N/C Director system (N/C, electrolytic grinding and drilling combined to form Rene 41), 1/18, p.49

Tata Engineering & Locomotive Co. Ltd.:
Rear axles assembled automatically (Cross equipment), 2/22, p.100

Taylor Machine Works:
Lift truck series, big loads, IE, 3/8, p.106

Taylor-Winfield Corp.:
Vertical induction unit hardens, quenches shafts, IE, 1/18, p.97

Tecalemit Ltd.:
Fuel injection system, 6/7, p.178

Technology Sales Corp.:
Coolant excels in heat dispersion, IE, 5/10, p.138

Teletrans Corp.:
Concept of personalized transit system for Detroit, 5/3, p.109

Teletype Corp.:
Chad chute costs chopped via nickel electroforming, 5/3, p.83

Ternes Steel Co.:
Adhesive assembly, enameled steel doors, 3/8, p.60

Texaco Inc.:
Cooltex 700, water base fluid cools, lubricates, IE, 3/22, p.127

Texaco Experiment Inc.:
Mullen: Boron fiber potential, 4/26, p.18

Texas Instruments Inc.:
Computer for gas station, TO, 3/29, p.19

Textron Inc.:
Newly patented alloy, Nuclear Metals Div., corrosion resistant, 1/4, p.47

Textron Electronics Inc.:
Dynamic balancers need no calibration runs, IE, 3/22, p.128

Thermal Dynamics Corp.:
Plasma cutting torch sold license-free, IE, 1/25, p.104

Thompson Fiber Glass Co., H. I.:
Rocket materials adapted for industrial use, 1/18, p.30

Thompson Grinder Co.:
N/C, electrolytic grinding and drilling combine to solve tough forming problem, 1/18, p.49

Thompson Ramo Wooldridge Inc.:
Now TRW Inc., 5/10, p.52

Thomson Electric Welder Co. Inc.:
Integral dry box projection welder, IE, 3/1, p.92
Job shop spotwelder, two transformers, IE, 3/1, p.86

Thomson Industries Inc.:
Linear, round way bearing, capacity, IE, 3/22, p.131

Threadwell Tap & Die Co.:
No-chip tap and W-point drill line, IE, 5/24, p.170

Thriftmaster Products Inc.:
Adjustable drill head 66 in., IE, 3/8, p.111

Timken Roller Bearing Co.:
Co-op training program for technicians conducted at Tri-State College, Ind., 5/31, p.35
Executive airplane, Jet Commander, 2/8, p.35
Expands facilities, Canton melt shop, B, 3/8, p.36
Installs hot saw, 4/26, p.36

Tinnerman Products Inc.:
Self-threading fastener, removed-reused, IE, 3/29, p.173

Tool Chemical Corp.:
Bogard speaks on plastic tooling at conference, 6/21, p.33

Tool Steel Gear & Pinion Co.:
Hardening process for coupling boxes and spindles in steel mill means longer service life, 4/12, p.110
Knife Div. facilities expanded, Cincinnati, to fit customer needs, 3/1, p.30

Torit Mfg. Co.:
Changes name, B, 1/25, p.36

Torrance Engineering & Mfg. Corp.:
MAPP gas from natural gas speeds metal cutting, 6/7, p.126

Torrington Mfg. Co.:
Torsion winders, IE, 3/8, p.107

Towmotor Corp.:
Lift truck with furnace charging device, IE, 2/1, p.80
Truck lift capacity increased, IE, 4/12, p.116

Trans-Sonics Inc.:
Paractor amplifier for dc, 5/17, p.18

Trent Inc.:
Horizontal air recirculating ovens, IE, 3/1, p.90

Tru-Cut Machine Corp.:
Automatic gantry saw, IE, 2/1, p.77
Gantry saw, three cutoff motions, IE, 4/12, p.122

True-Trace Corp.:
Man-Au-Trace attachment 3D, IE, 2/1, p.82
Tracer control system uses fluid motor drive, IE, 5/10, p.144

Tru-Fit Screw Products Corp.:
Automatic studwelder, IE, 4/26, p.111

Tube Turns: See Chemetron

Turchan Follower Machine Co.:
Tracer mill takes heavy jobs, IE, 1/18, p.95

Tyler Co., W. S.:
Shakeout screen, 6/14, p.58

Tymac Tracer:
Dovetail slide toolholder on tracer, IE, 3/22, p.125

Tysaman Machine Co.:
Plate saw line combines wet abrasive cutting on ferrous plates with dry carbide blade cutting on nonferrous, IE, 3/1, p.81

U

Uddeholm Co. of America Inc.:
Changes name, B, 6/14, p.36

Udylite Corp.:
Chrome plating catalyst (Cromylite), 6/28, p.31

UGC Instruments Inc.:
Electronic rpm monitor is explosionproof, IE, 6/7, p.186

Ungar Electric Tools:
Soldering tip avoids contamination, IE, 3/15, p.174

Uniflex Conveyor Systems Inc.:
Name change, B, 3/15, p.52

Union Carbide Co.:
Adopts early retirement plan for managers, technical people, 2/22, p.28
Defense grant for research on advanced materials (with Case Inst.), 4/5, p.17
Ferroalloy price revisions, 1/11, p.18
Forms Mining & Metals Div., B, 1/25, p.35
Forms separate Aerospace Materials Dept., 5/10, p.52
Iridium coating, graphite protection, 4/5, p.74
New family of structural engineering plastics (Polysulfone), 4/12, p.31
Plastic film (Parylene) vapor deposited, 2/22, p.18
Polymeric film deposited from vapor phase, 3/1, p.46
Refractory metals plated from molten salt bath, electroform method, 5/24, p.92
Reducing magnesium content in additive improves recovery in ductile iron: Technique suggested by Offenhauer and Collins, 6/7, p.118
Reports tungsten is substitute for molybdenum for strengthening iron, 4/26, p.54
Stellite Div. tests beryllium-iron alloy for strengths, TO, 3/1, p.20
Vertical kiln for Detroit Lime, 3/22, p.78
See also Linde

Union Steel Products Co.:
Data Processing system integrates computer-manual tie-ins, 3/1, p.38

U. S. Baird Corp.:
Multislide machine, high speeds, IE, 5/3, p.129
Toggle press for multislide machines, IE, 5/17, p.104

U. S. Burke Machine Tool Co.:
Millrite machine, IE, 3/22, p.125
Vertical unit mills, drills, bores, IE, 6/14, p.129

U. S. Electrical Motors:
Gear motor compatible with SCR drive system, IE, 4/12, p.112
Gear motor, SCRs in drive package, IE, 5/31, p.99
Worm gear motor, diecast case, IE, 6/21, p.129
See also Emerson Electric

U. S. Industries Inc.:
Production Machine press will form huge rail car parts, 3/15, p.121
Production Machine Div. sets up experimental HERF shop, 4/12, p.35
Wet press drive line (Torc-Pac) minimizes downtime, 2/2, p.124

U. S. Pipe & Foundry Co.:
Acquires Permavinyl, B, 2/15, p.32

U. S. Steel Corp.:
Blough: Unsettled labor hurts all, 2/1, p.17
Cor-Ten steel columns rolled at U. S. Steel for building in N. C., 6/7, p.130
Electrochemical process colors carbon steel, 1/25, p.19
Expansions, facilities $655 million (projects), 4/26, p.35
Machine for applying round steel strapping, IE, 6/7, p.186
Morava (Supply Div.) addresses Steel Service Center, sales problems in 2nd half, 1/25, p.28
Order processing service, 6/21, p.35
Pittsburg, Calif. adds thin tin plate mill (electrolytic line), 5/10, p.51
Taconite plant, Minn.—simulation of proposed design on computer, 1/25, p.49
Structural tubing-rectangular, two sizes added, IE, 6/28, p.117
Tyson: Addresses banking group, speaks on government actions on prices, wages, 5/3, p.26

United Aircraft Corp.:
P&W casting tech. hikes engine 'part' performance, directional solidification, 5/10, p.49

United Shoe Machinery Corp.:
Buying Girder Process, B, 1/25, p.36

United Steel Companies Ltd.:
Samuel Fox Co. subsidiary, vacuum degassing control, 1/18, p.52

United Steel Fabricators Inc.:
Forms new company, B, 5/31, p.36

Univac: See Sperry Rand

Universal-Cyclops Steel Corp.:
Changes name to Cyclops Corp., 5/10, p.52
Enters tantalum mill and fabricated products market, uses electron beam melted ingots, 1/18, p.31
Giant vacuum annealing furnace, 3000° F, Refractomet Div., Pa., 4/12, p.31

Universal Drafting Machine Corp.:
Computer controlled drafting machine, 5/10, p.47

Universal Dynamics Corp.:
Dehumidifier for industrial service, IE, 5/3, p.130

Universal Instruments Corp.:
Short run stampings success, 3/22, p.61

Universal Refractories Corp.:
Buys plant of Wampum Products, B, 5/10, p.52

Uniweld Products Inc.:
Portable studwelder, IE, 4/26, p.112

V

V & O Press Co. Inc.:
Double crank OBI press rated at 56 tons, IE, 3/1, p.91
Horizontal press, 25 ton rating, IE, 5/24, p.168
OBI press built to unusual accuracy, IE, 5/3, p.136

Vac-U-Lift Div.: See Lear Siegler

Vacuum Industries Inc.:
Builds giant vacuum annealing furnace for Cyclops, 4/12, p.31
Vacuum chamber welds refractory metals, IE, 1/4, p.228
Vacuum chamber for many jobs, IE, 1/11, p.96
Vacuum furnace speeds carbide production, 4/19, p.51

Vaill Engineering Co.:
Rotary head machine shapes tube ends, IE, 6/21, p.133

Valeron Corp.:
Turning tool series, IE, 2/8, p.181

Valley Craft Products Inc.:
Welder positions with one hand, IE, 2/15, p.122

Valley Foundry & Machine Works Inc.:
'Short run' welder cuts tankbuilder's costs, 6/14, p.78

Valley Mfg. Co.:
Expands facilities, B, 3/22, p.36

Valley Mould & Iron Corp.:
Acquiring Bishop & Babcock, B, 2/8, p.52

Valspar Corp.:
Auto engine enamel resists gasoline, IE, 1/18, p.95
Epoxy baking enamels, IE, p.82

Vanadium-Alloys Steel Co.:
Changes name to Vasco Metals, 6/21, p.36

Vapor Corp.:
Merges Industrial Timer, B, 4/26, p.36

Varian Associates:
Buys Mikros Inc., B, 1/25, p.36
Merged with Eital-McCullough, B, 5/10, p.52

Vasco Metals Corp.:
New name for Vanadium-Alloys Steel, 6/21, p.36

Veeco Instruments Inc.:
Electron beam gun evaporates materials for deposition, IE, 6/21, p.131

Veeko Instruments: See Pipe Machinery

Veet Industries Inc.:
Radial drill for die shop, IE, 3/22, p.137

Vogt Mfg. Corp.:
Buys Allerton Chemical, B, 2/8, p.52

Volkert Stampings Inc.:
Volkert-York Div., name change, 5/10, p.52

Volkswagen:
Building Mexican assembly plant, 4/12, p.94 and 6/14, p.104

Vulcan Rivet & Bolt Co.:
Conveyorized Sunbeam heat treat furnace, 1/18, p.51

Vulcan Tool Co.:
Buys Moldcraft Tool, B, 5/3, p.35

W

Waber Tool & Engineering Co.:
Abrasive saw, head oscillation, IE, 1/25, p.106

WalMet Alloys Co.:
Parts carbide coated by new process, 5/17, p.56

Wales Strippit Co.:
NC unit punches, notches sheet metal, IE, 6/14, p.125
Tape control speeds custom stamping, 3/29, p.124

Walker Mfg. Co.:
Leases Irish plant, exhaust systems, 3/29, p.148
Patents one piece muffler, 1/25, p.86

Wall Colmonoy Corp.:
Spraywelder uses stainless steel powder for metalizing, 2/15, p.60
Tungsten carbide in hard surfacing powder, IE, 5/3, p.130

Walsh Press & Die Co.:
New series of 60 ton, open bed inclinable presses, designed for steel rule dies, TO, 3/29, p.20

Warner & Swasey Co.:
Vertical balancer, low speed (Wiedemann Div.), 5/3, p.133

Warren Fastener Corp.:
Auto market approach, 3/29, p.147

Waterbury Farrel:
J&L optical inspection, measuring units, IE, 3/22, p.134

Webster Mfg. Inc.:
Buys Schindler Stamping, B, 1/25, p.36

Weld Tooling Corp.:
Hob-O-Mark II flame hole borer, IE, 6/7, p.181

Wells Electronics Inc.:
Console unit microwelds, microsolders, bonds, IE, 1/11, p.92
Microminiature welding, IE, 2/15, p.122

WER Industrial Corp.:
Recirculating oil supply cools disc clutch and brake in transmissions, IE, 6/14, p.118

West Bend Co.:
Chrysler buys outboard engine facilities, 5/31, p.81

Western Gear Corp.:
Acquires transmission div. of Kaman Aircraft, 2/15, p.32

Western Technology Inc.:
Pump to handle corrosives resists deterioration, IE, 6/28, p.113

Westinghouse Air Brake Co.:
Hebditch: New product planning teamwork, 2/8, p.34
Overseas investment financed abroad, 4/12, p.18
Schaefer addresses Detroit Economic Club—mass transit industry spending, 1/25, p.29

Westinghouse Electric Corp.:
Builds oceanographic engineering facility, B, 3/15, p.52
Burnham cites promising market areas (rapid transit, fresh water, underseas, refuse disposal), 3/1, p.17
Control center, user benefits, IE, 1/4, p.227
Coupling adjusts misalignment, TO, 4/5, p.20
DC motor, 18,600 hp for NASA, 5/10, p.34
Draw speed indicator monitors six selections, IE, 3/15, p.174
Infrared detector measures hot metal, Relay-Instrument Div., IE, 4/5, p.114
Laser material, uranyl ions, TO, 3/15, p.36
Magnetic forming, 3/22, p.71
Magnetic 'highway' for commuters studied, 2/22, p.33
Maintenance information system (ADMIRE) aids electronic equipment, Defense & Space Center, 4/19, p.51
Motors power rod mills, chippers, grinders, IE, 6/21, p.131
Nondestructive test by x-ray and TV for line pipe, 1/18, p.48
Payroll increases under labor contract, 4/26, p.35
Prodac computer for West Coast aluminum cold mill, 3/15, p.116
Research facility, N. Mex., B, 5/17, p.36
Stable arc, control welder benefits, IE, 3/29, p.172
Ultrasonic-portable device tests vacuum systems, Marine Div., 4/26, p.33

Wheeling Steel Corp.:
Galvanizing line fast and continuous, 3/1, p.32
Kirkpatrick: Personnel needed to meet managerial obsolescence, 3/15, p.34

White Motor Co.:
Moves offices to Erieview Plaza, B, 2/1, p.30

Whiting Corp.:
Savings in manufacturing herringbone spur gears from free-machining plate steel rather than castings, 5/31, p.29

Whittaker Corp.:
Acquires Vacuum Products Div., B, 6/14, p.36

Wickwire Bros. Inc.:
Continuous casting unit, Cortland, N. Y., plant, 3/29, p.35

Wilkerson Corp.:
Air dryer combines aftercooler in package, IE, 2/8, p.179

Williams & Co., Clyde:
Report cites growing uses for gold, 3/15, p.120

Wilson Engineering Co. Inc., Lee:
Unitized annealing line for Sharon Steel, 3/22, p.78

Winter Products Inc.:
Spacer table, IE, 6/21, p.132

Wire Machinery Inc.:
Wire drawing unit processes stainless, IE, 4/12, p.121

Woods, Gordon & Co.:
Brown addresses Material Handling Show on systems studies, 5/31, p.31

Worcester Valve Co. Inc.:
Spring return mechanism added to ball valve, IE, 6/7, p.180

Worthington Corp.:
Alco Products a subsidiary, B, 1/25, p.36
Modulaire compressor line, IE, 3/8, p.109

Wyman-Gordon Co.:
Titanium forging components (joint method with Lord Mfg.), 1/4, p.45

X

Xerox Corp.:
Electronic transmitter reproduces at distant point via telephone, telegraph, TO, 6/28, p.20
Entry into college textbook market, diversifies with acquisitions, 6/14, p.35

Y

Yale & Towne Inc.:
Computers forcing management to be more knowledgeable, 'management in the round', 2/8, p.34
Heavy ram trucks for narrow aisles, IE, 6/21, p.123
Solid state control (Velvetronic) feature of lift trucks, IE, 6/14, p.127

Yarnall-Waring Co.:
Hydraulic equipment: Small differences 'read' at high pressures, 5/3, p.79

Yoder Co.:
Buys L. S. Smith Co. (roll forming machines), 3/1, p.31
Licenses Canadian firm, B, 6/21, p.36
Refrigerator tube mill bridges speed, cleanliness gaps, 3/1, p.44
Roll forming machine, up to 200 fpm, IE, 5/10, p.145

York Engineering Inc.:
Now Volkert York Inc., 5/10, p.52

Youngstown Foundry & Machine Co.:
Turkish contract, B, 3/29, p.36

Youngstown Sheet & Tube Co.:
Expansion of $375 million, Indiana Harbor Wks., 5/17, p.33
Williams: Motivating whitecollar workers, 2/8, p.34
Yoloy, low alloy steel dev., 1/11, p.33

Z

Zagar Inc.:
Gear type tapping head, IE, 3/22, p.137
Square head design for drilling, tapping, IE, 4/19, p.184

Zimmerman Mfg. Inc., D. W.:
Air powered Zim-Air hoist is 200 fpm, IE, 4/5, p.117

Zurn Industries Inc.:
Expansion program, B, 3/29, p.36
